2027 Seed Catalogue

Proudly Canadian-Owned and Operated for Over 135 Years

Every new season brings a fresh start, and we couldn't be more excited to help you plan this year's garden. As a Canadian, family-owned company with over 135 years of history, supporting growers across the country is what drives us every day. Curious about how OSC Seeds came to be? Turn to pages 66 and 67 to explore our story.

We're excited to introduce our newly reimagined 2027 catalogue and an upgraded digital experience at oscseeds.com, featuring streamlined online shopping optimized for your mobile device. For the first time in our history, this catalogue does not include a mailable paper order form. Ordering online at oscseeds.com is faster and offers our lowest shipping rates, but if you prefer a paper form, you can easily download and print one from our website, request one by calling us at 1-800-465-5849, or write to us at PO Box 7, Waterloo, ON N2J 3Z6.

While our look has been updated, our core values stay the same. We remain dedicated to providing high-quality seed, trustworthy advice, and exceptional service–all for a fair price. We are also still closed on Sundays to spend time with our families. If you are nearby, come visit us in person at our retail store located at 16 King Street South in Waterloo, Ontario.

Thank you for making us a part of your garden year after year.

Happy growing! The OSC Seeds Team

Aimers Organic Certification – OSC Seeds holds an organic seed processor certification from the Centre for Systems Integration (CSI). Through the Aimers brand, OSC is a supplier of imported certified organic seed in Canada.

Our mission is to supply our customers with the highest quality seed available at competitive prices. Ontario Seed Co. Limited (OSC Seeds) is a Registered Seed Establishment (RSE), accredited as an Authorized Importer (AI) and Approved Conditioner (AC) under Seeds Canada, a Conformity Verification Body for the Canadian Food Inspection Agency. **Terms of Sale:** We guarantee the purity and vitality of our Seed to the full amount of the purchase price. It is recognized that a mistake can be made, and it is therefore mutually agreed that in no case shall Ontario Seed Co. Limited be liable for more than the amount actually paid for the seeds. The buyer acknowledges by acceptance of the seeds that the limitation and disclaimers herein described are conditions of sales and that they constitute the entire agreement between the parties regarding warranty or any other liability. If the seeds are not acceptable under these terms they are to be returned to us within 10 days and the purchase price will be refunded. **Prices and product availability** listed in this catalogue are subject to change without notice. Applicable taxes are extra. Orders ship via expedited parcel post with tracking. Returns require prior authorization (1-800-465-5849 or info@oscseeds.com). **OSC Seeds does not knowingly buy or sell any Genetically Modified Organism (GMO) seed.**

Sow outdoors *May to June, 2.5 cm deep, 12.5 cm apart in rows 50 cm apart.*

Thin to *45 cm apart in rows 1 m apart during spring of the second year.*

Pro Tip: *Soak seeds in water for 2 days before sowing to aid in germination.*

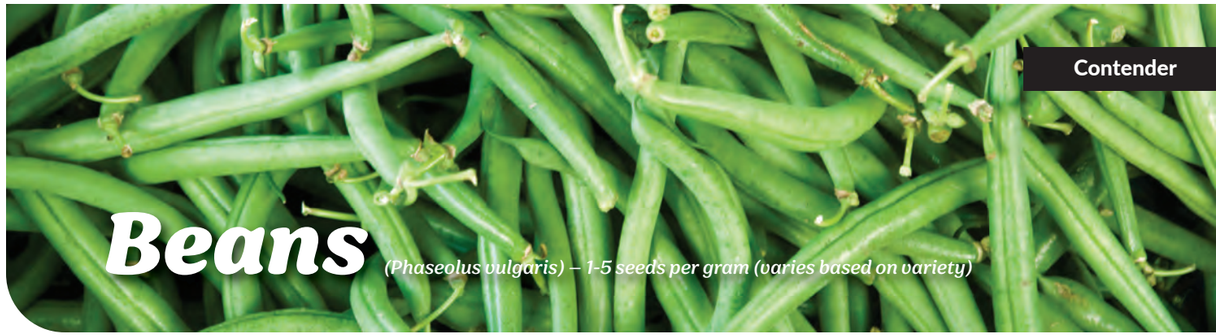
Mary Washington • 1100
3 years
60-75 seeds per packet. A reliable variety introduced in 1949 that produces vigorous, medium green, mouth-watering spears that are excellent fresh or quite suitable for freezing. Good resistance to asparagus rust and wilt. Once established, asparagus plants can produce yields for 20 years or more. Mulch plants with composted material each spring and you will be enjoying delicious asparagus spears for years to come!
Packet $2.49 | 25 g $12 | 125 g $30 | 500 g $78 | 1 kg $120

Sow indoors *May, 5 mm deep, spacing seeds 2 cm apart.*

Transplant outdoors *June, when seedlings reach 10 cm. Space 10 cm apart in rows 50 cm apart.*

Pro Tip: *Harvest when artichokes are 5-9 cm in diameter.*

Green Globe Improved • 1105
100 days
20 seeds per packet. Harvest fresh, tender, and flavourful buds right from your backyard! Green Globe has deep green buds with a slight purple tinge and plants that can reach 1.5 m in height! The fleshy base of the flower scales and the firm centre are the edible portions
Packet $2.49



Sow outdoors *May to July, 2.5 cm deep, spacing seeds 7.5 cm apart in rows 60 cm apart.*

Pro Tip: *Plant every two weeks for a continuous harvest!*

Green Bush

Organic Blue Lake Bush • 4012
65 days
40 seeds per packet. Superbly flavoured, rounded 15 cm long green meaty pods are solid and not stringy at all. Produces big bushy plants so give them room to grow with widely spaced rows! A home and market garden staple and favourite for canning and freezing. White seeds.
Packet $2.99 | 250 g $16.25 | 2 kg $65

Blue Lake Bush • 1110L
65 days
40 seeds per packet. Rounded, 15 cm long, meaty green pods offer outstanding flavour and stringless texture. The vigorous, bushy plants perform best with wide row spacing. An excellent choice for home gardeners and market growers alike, especially for canning and freezing. White seeds.
Large Packet $3.49 | 250 g $7.35 | 2 kg $39.20
10 kg $127.40 | 25 kg $245

Contender • 1112L
48 days
70-80 seeds per packet. Great taste with a heavy, very early yield are the hallmarks of this wonderful bean. Gently curved 15 cm pods are light green and have a slight curl at the ends. The leaves tend to be slightly yellow-green when maturing. Due to its early yielding this variety is perfect for short growing seasons. Resistant to Common Mosaic Virus as well as powdery mildew and performs very well in hot weather. Beige seed.
Large Packet $2.99 | 250 g $7.15 | 2 kg $36.90
10 kg $123 | 25 kg $230

Outlaw • 1127
60 days
70-80 seeds per packet. A delightful green bean that's excellent for home gardeners, commercial growers and pick your own operations. Consistently produces huge yields of 12-18 cm premium quality, tender and sweet, dark green pods. You'll love the traditional bean flavour and its ability to produce longer in the season than other varieties. Large, upright plants with excellent disease resistance to common mosaic and curly top virus! Pale green seeds.
75 seeds $3.49 | 500 seeds $7.95 | 2,000 seeds $24

Organic **Heirloom** (Time-tested variety) **Disease Resistant** **Premium Variety**

Roma II • 1165L
60 days
70-80 seeds per packet. Stocky but bushy 38-50 cm plants produce an abundant crop of meaty, yet tender, broad, flattened, medium green pods 12-15 cm long. Used fresh as a snap bean as well as for freezing. Delicious flavour abounds! Buff coloured seed with white eye.
Large Packet $2.99 | 250 g $7.60 | 2 kg $40.50
10 kg $131.60 | 25 kg $253

Serengeti (French Filet Type) • 1187
55 days
60 seeds per packet. A strong, upright growing fancy French filet bean featuring 14 cm long, straight smooth medium green pods. Robust plants easily carry high yields of these beautiful tasting tender pods. Serengeti also boasts great disease resistance to Common Mosaic Virus and Anthracnose. White seed.
75 seeds $2.99 | 500 seeds $8.95 | 2,000 seeds $28

Slenderette • 1115L
53 days
80-100 seeds per packet. Dark glossy green pods 13 cm long are slender and smooth with an outstanding flavour. Since the tender beans have no fibre or string, they are an excellent choice for the table, freezing or canning. Pods grow high on the plant for easier picking. Resistant to common bean mosaic, top curly virus and shows good heat resistance. White seed.
Large Packet $3.49 | 250 g $7.35 | 2 kg $39.20
10 kg $127.40 | 25 kg $245

Stringless • 1120L
52 days
80-100 seeds per packet. This Burpee bred culinary star was first introduced in 1894. Well known for its medium green, very tender, slightly curved, stringless pods that grow to about 15 cm long. Excellent heat tolerance. Yields are early in the season and very heavy. Strong, upright plant habit. Brown seed.
Large Packet $3.49 | 250 g $7.35 | 2 kg $39.20
10 kg $127.40 | 25 kg $245

Organic Tendergreen • 4010
54 days
40 seeds per packet. The king of the green snap beans! An extraordinarily heavy producer, yielding succulent, sweet 15 cm long beans that are superb for fresh or frozen use. Bush type habit growing 50-70 cm tall with a spread of 50-60 cm. Nicely shaped, dark green beans are held well off the ground making picking less of a chore. By far, our best-selling variety. Black seed, sometimes white depending on strain.
Packet $2.99 | 250 g $19.50 | 2 kg $65

Tendergreen • 1130L
54 days
80-100 seeds per packet. The king of the green snap beans! An extraordinarily heavy producer, yielding succulent, sweet 15 cm long beans that are superb for fresh or frozen use. Bush type habit, growing 50-70 cm tall with a spread of 50-60 cm. Nicely shaped dark green beans are held well off the ground making picking less of a chore. By far, our best-selling variety. Black seed.
Large Packet $3.49 | 250 g $7.35 | 2 kg $39.20
10 kg $127.40 | 25 kg $245

Yellow Bush

Organic Gold Rush • 4007 ***NEW FOR 2027***
55 days
40 seeds per packet. Produces attractive, straight golden-yellow pods with a tender texture and excellent flavour. The stringless pods are ideal for fresh eating, freezing, and preserving. Compact, vigorous plants.
Packet $3.59 | 250 g $16.25 | 2 kg $65

Golden Wax • 1140L
50 days
80-100 seeds per packet. Introduced in the early 1870's Golden Wax continues to be o ne of the best-selling yellow wax beans on the market. Smooth, slightly curved, creamy yellow 13-15 cm pods on plants growing about 45 cm tall with a spread of 25-30 cm wide. An excellent variety for fresh eating as well as for both freezing and canning. Hardy and very productive. Good disease resistance and well suited to short growing seasons.
Large Packet $2.99 | 250 g $8.30 | 2 kg $44.20
10 kg $143.55 | 25 kg $276

Pencil Pod Black Wax • 1135L
57 days
80-100 seeds per packet. Introduced in 1900 this vigorous, stocky bush bean is a prolific producer. Fleshy, light yellow pods 12-15 cm long are quite tender and generally stringless. Plants grow to between 40-50 cm tall. A highly dependable multi-use bean for both home and market gardeners alike. Resistant to rust and mosaic virus.
Large Packet $3.49 | 250 g $7.35 | 2 kg $39.20
10 kg $127.40 | 25 kg $245

Rocdor • 1143 ***NEW FOR 2027***
55 days
70-80 seeds per packet. This productive, early-maturing yellow bush bean is known for its excellent flavour and meaty, tender texture. Compact, upright plants produce heavy yields over an extended harvest period. A reliable and versatile variety, ideal for fresh eating, freezing, and home or market gardens.
Large Packet $3.99 | 500 seeds $12.45 | 2,000 seeds $41.25

Pole

Blue Lake FM-1 • 1220L
55 days
80-100 seeds per packet. Popular for its heavy yields of meaty, very tender, medium size 15 cm straight, dark green, stringless pods. Good used fresh but renowned for their canning and freezing qualities. Blue Lake FM-1 has a long harvest window if picked regularly. Must be trellised or staked for optimum performance and yields. White seed.
Large Packet $3.49 | 250 g $8.55 | 2 kg $45.60 | 10 kg $148.20 | 25 kg $285

Organic **Heirloom** (Time-tested variety) **Container** (Great for pots)

Kentucky Wonder Green • 1210L
65 days
80-100 seeds per packet. Introduced in the late 1870's. A strong, hardy and vigorous climber that offers a prolific long season. Produces round, meaty pods 18-20 cm long. A tried-and-true variety producing top quality green beans with a distinctive pleasing taste. Brown seed.
Large Packet $3.49 | 250 g $8.30
2 kg $44.20 | 10 kg $143.55 | 25 kg $276

Kentucky Wonder Wax • 1215L
67 days
70-80 seeds per packet. Shares the same vigorous growing habits and tender, tasty quality of Kentucky Wonder Green except the 15-20 cm pods are a beautiful buttery yellow! Brown seed.
Large Packet $3.49 | 250 g $8.30 | 2 kg $44.20
10 kg $143.55 | 25 kg $276

Rattlesnake • 1227
66 days
70-80 seeds per packet. Stringless pole bean with striking purple blossoms that match the purple and green pods. Deliciously flavoured, sweet tasting, tender 17.5 cm pods with an intensified colour when steamed or cooked. Speckled seeds are popular as a snap or dried beans. Perfect for hot, humid areas. Vines can reach 2.5 m height. Brown seed, black markings.
Packet $3.49 | 250 g $9.45 | 2 kg $50.40
10 kg $163.80 | 25 kg $315

Scarlet Runner *(Phaseolus coccineus)* • 1225L
67 days
30-45 seeds per packet. Heirloom from the early 1750's! Reaching 3 m or more in height, these densely leaved, vigorously growing plants are often used as ornamental climbers due to the abundance of brilliant scarlet flowers they produce. The broad, oval, 20-25cm string- less pods are delicious when harvested and cooked young. Pick mature pods to ensure continuous production of the beautiful flowers. The scarlet red flowers are also a sure-fire hummingbird attractant. Resistant to Bean Common Mosaic Virus and Anthracnose.
Large Packet $3.49 | 250 g $12 | 2 kg $64
10 kg $208 | 25 kg $400

Novelty

BeSweet "Edamame" Soy • 1235L
60 days
60 seeds per packet. Rich in protein, vitamin A, B, calcium, iron and dietary fibre. Used as a green shell bean they add extra protein to rice and pasta dishes. Expect high yields from these sturdy 60 cm plants. Each pod contains 2-3 large beans. Cook as you would any other bean. Light beige seed.
Large Packet $3.49 | 200 seeds $11.40
500 seeds $21

Broad Windsor • 1195L
65 days
10-15 seeds per packet. Long, straight pods with 5-6 large, meaty beans per pods. Plants grow to 60 cm height. A very good, general-purpose fresh or dried bean. Note: Fava beans germinate well in cooler soil. Plant the seeds early in the spring about the same time as garden peas. Brown seed.
Large Packet $3.49 | 250 g $9.45
2 kg $50.40 | 10 kg $163.80 | 25 kg $315

Fordhook Lima • 1200
75 days
20 seeds per packet. Made famous as the WWII 'Victory Garden'. Large productive plants yield very well under high temperature conditions. The 2.5 cm wide, 10 cm long pods are slightly curved and contain 3 or 4 large, thick, oval, light green coloured beans. Excellent flavour. Pick when pods are plump and bulging. White seed.
Packet $2.49 | 250 g $9.45 | 2 kg $50.40
10 kg $163.80 | 25 kg $315

Royal Burgundy • 1160L
50 days
80-100 seeds per packet. Deep purple pods are eye catching in the garden and on salads when used raw. Upright 45 cm plants are loaded with richly textured, crisp and meaty 15 cm long pods. Delicious flavour whether eaten fresh or brought out from the freezer over the winter. When cooked for 2 minutes, the pods turn a bright green indicating the perfect blanching time for freezing! Brown Seed.
Large Packet $3.49 | 250 g $7.35
2 kg $39.20 | 10 kg $127.40 | 25 kg $245

Taylors Dwarf Horticultural • 1170L
65 days
70-80 seeds per packet. A fresh shell bean with semi-round, 15 cm long, light green pods that turn a crimson flecked white as they mature. Vigorous, tall plants, 75 cm high produce an abundant crop. Good green-shell bean that compares well in flavour with lima beans. Grow like any other bean and harvest when beans are plump inside pods. Red-brown seed.
Large Packet $3.49 | 250 g $7.35
2 kg $39.20 | 10 kg $127.40 | 25 kg $245

Climbing (Requires staking/cage) **Disease Resistant** **Premium Variety**

Beets

(Beta vulgaris) – 60 seeds per gram

***Sow outdoors** May to July, 1 cm deep, spacing seeds 2.5 cm apart in rows 60 cm apart.*

***Thin to** 7.5 cm apart when seedling reach 7-10 cm in height.*

***Pro Tip:** Use the thinnings as tender baby greens for fresh salads and quick stir-fries.*

Albino • 1240
50 days
70-80 seeds per packet. Originating from Holland these sweet, pure white, fairly smooth 5 cm round beets will never stain. Its super white flesh is tender and sweet unlike the traditional earthy tasting beet. Strong, tall, all green tops are delicious when cooked like spinach or garnishing a salad.
Packet $2.99 | 25 g $18.75 | 125 g $41.25 | 500 g $105 | 1 kg $150

Bulls Blood • 1245
60 days
200 seeds per packet. Introduced in 1840, beautiful dark red leaves are perfect for baby greens in as little as 35-40 days and a colourful additional to salads with a clean, crisp, sweet flavour. The 5-7.5 cm diameter globe-shaped roots have a sweet, wholesome flavor and taste best when harvested young.
Packet $2.19 | 25 g $9 | 125 g $22 | 500 g $56 | 1 kg $80

Organic Chioggia Guardsmark • 4022
60 days
100 seeds per packet. Light red, flattened globe-shaped roots with striking interior rings of alternating pink and white. Green tops and red stems are eye catching, colourful additions to salads and the 5 cm diameter roots have a delicious "sweet pepper" taste when cooked.
Packet $3.59 | 1,000 seeds $9.95 | 3,000 seeds $21.25

Chioggia • 1250
60 days
125 seeds per packet. An Italian home garden variety grown since at least the 1840's. Chioggia has a light red, flattened globe-shaped root with striking interior rings of alternating pink/white. Green tops and red stems are eye catching colourful additions to salads. The 5 cm diameter roots have a delicious "sweet pepper" taste when cooked. Heavy yielding with higher levels of geosmins (earthy flavour) account for its popularity with beet purists.
Packet $2.19 | 25 g $9 | 125 g $22 | 500 g $56 | 1 kg $80

Organic Cylindra • 4020
80 days
170 seeds per packet. This early 1890's introduction produces smooth, dark red, 16 cm long, cylindrical beets. The sweet tasting roots are excellent keepers and are perfect for slicing due to their uniform diameter and length. Cylindra cooks well and is best used when young, however a pleasant surprise awaits as the roots still keep much of their sweet, tender flavour when larger! Our best canning beet!
Packet $2.99 | 25 g $12.50

Cylindra • 1255
80 days
375 seeds per packet. Introduced in the 1890s, this heirloom produces smooth, dark red, cylindrical roots reaching up to 16 cm long. Sweet and tender, the uniform shape makes them ideal for slicing, while their excellent storage quality ensures a long harvest season. Best harvested young, Cylindra retains its sweet flavour and tender texture even as the roots mature. An outstanding choice for canning and our top pick for preserving.
Packet $2.19 | 25 g $7.30 | 125 g $15.15 | 500 g $36.30 | 1 kg 48.40

Check out our beet collections on page 55 and SAVE 20%

Detroit Dark Red • 1260
63 days
450 seeds per packet. This 1892 introduction is the standard bearer of the beet family! Striking dark red, 7 cm globe shaped roots have a smooth crown and small taproot. Fast maturing with a sweet succulent flesh, uniform shape and consistent interior colour making this variety the perfect candidate for eating fresh, canning or freezing. Green leaves with red veining are great in salads too!
Packet $2.19 | 25 g $7.30 | 125 g $15.15 | 500 g $36.30 | 1 kg $48.40

Organic Early Wonder • 4015
57 days
170 seeds per packet. Introduced around 1911. A dual-purpose beet that's quick to produce tender, smooth-skinned, 7-10 cm round to semi-globular roots. Exceptionally uniform in shape and interior colour. Use the tall, flavourful tops for sweet tasting salad greens or cook like spinach.
Packet $3.59 | 25 g $13.75

Early Wonder • 1265
57 days
350 seeds per packet. Introduced around 1911, this early dual-purpose variety quickly produces smooth-skinned, tender roots that grow 7-10 cm across with a uniform round to semi-globular shape. The richly coloured flesh is exceptionally consistent throughout. Enjoy the tall, flavourful tops fresh in salads or cooked like spinach, while the sweet, tender roots are perfect for fresh eating.
Packet $2.19 | 25 g $7.30 | 125 g $15.15 | 500 g $36.30 | 1 kg $48.40

Organic Touchstone Gold • 4023
53 days
80 seeds per packet. Vibrant, golden orange exterior with a sweet and delicious, bright yellow flesh. Uniform 5 cm roots have very little zoning. Tall, striking green tops can be cooked like Swiss chard when young and tender. A must for every garden!
Packet $3.59 | 1,000 seeds $16.50 | 3,000 seeds $41

Golden • 1270
55 days
200 seeds per packet. A real winner right from the time it was introduced in the 1940's. The 5 cm round, sweet-flavoured roots are a golden-yellow colour with luscious green leaves and golden stems. Because flesh is yellow, there is minimal "bleeding" to discolour other ingredients in salads. In very high demand with gourmet chefs.
Packet $2.99 | 25 g $13.15 | 125 g $28.90 | 500 g $73.50 | 1 kg $105

Red Ace Hybrid • 1275
53 days
125 seeds per packet. More uniform Detroit-type beet. Quick to mature, excellent heat and bolting resistance, a long harvest period and an ability to maintain their tender sweet tasting flesh when larger, all together make Red Ace a prime candidate for the best all round beet. The attractive green, red-veined leaves crowning this hybrid make tasty greens. Excellent disease tolerance and uniformity.
Packet $2.99 | 1,000 seeds $7.69 | 5,000 seeds $22.35

Kestrel Hybrid • 1276
53 days
125 seeds per packet. Deep red, beautifully rounded, globe-shaped roots with high sugar content and excellent vigor. For market, home garden growing, or early baby beets, it's hard to find a better variety! Bright green, semi-glossy tops. Excellent disease resistance!
Packet $2.99 | 1,000 seeds $7.69 | 5,000 seeds $22.35

Organic | Heirloom (Time-tested variety) | Container (Great for pots) | Climbing (Requires staking/cage) | Disease Resistant | Premium Variety

Broccoli

(Brassica oleracea) – 300 seeds per gram

***Sow indoors** March to April, 5 mm deep in a soil-less seed starting mix.*

***Transplant outdoors** late April to May, spacing 45 cm apart in rows 90 cm apart.*

***Pro Tip:** Harvest the head when buds are tight and compact, well before flowering.*

Aspabroc Hybrid • 1279
60 days
20-25 seeds per packet. This baby broccoli is a fascinating new introduction that combines the best of both asparagus and broccoli in one plant. The entire plant is edible from the delicate clusters of sweet broccoli-like florets to the long, tender asparagus-like stems. Matures to 60 cm height. We suggest harvesting the main stem when the buds begin to form. Side sprouts will then develop allowing harvests to continue for up to five more weeks.
Packet $3.49 | 200 seeds $28.75 | 1,000 seeds $78.70

Organic Green Sprouting • 4025
70 days
200 seeds per packet. This Italian type broccoli matures early. Large vigorous plants grow to 50 cm tall. Produces heavy crops of large, solid, central heads with medium sized, lateral heads produced later in the season. Open pollinated.
Packet $3.59 | 25 g $15 | 500 g $130

Green Sprouting • 1280
70 days
200 seeds per packet. An early-maturing Italian heirloom that is both productive and easy to grow. Vigorous plants reach approximately 50 cm tall, producing large, solid central heads followed by an abundance of medium-sized side shoots for an extended harvest. Open pollinated.
Packet $2.19 | 25 g $11.25 | 125 g $22.50 | 500 g $63 | 1 kg $90

Green Magic Hybrid • 1285
62 days
75 seeds per packet. Much more uniform with a tighter head than any other variety we've trialed. Medium-sized, semi-domed, dark blue-green heads have medium sized beads and great holding ability during summer heat. Excellent for spring/fall crops. Use for cut crowns and enjoy lots of extra side shoots. Tolerant to Powdery Mildew.
Packet $3.99 | 500 seeds $14.50 | 1,000 seeds $21

Early Purple Sprouting • 1281
120 days
125 seeds per packet. Rather than produce a single large head, this winter sprouting broccoli produces many small purple florets. Needs 6 weeks of 10 °C to initiate floret development. Harvest the central floret as soon as it forms to promote the development of side shoots.
Packet $2.99 | 10 g $9 | 25 g $18.75

Rapini *(Spring Raab)* • 1295
60 days
200 seeds per packet. A traditional Italian variety producing both tender young leaves and flowering shoots with tiny broccoli-like florets. Both the leaves and the heads can be eaten together creating a robust flavour that will dazzle your taste buds and leave you looking for more. By carefully picking young leaves, stems and flower buds, the harvest period can be spread out over 2-4 weeks.
Packet $2.19 | 25 g $10.60 | 125 g $31.80 | 500 g $59.30 | 1 kg $84.70

Aspabroc Hybrid

Brussels Sprouts

(Brassica oleracea) – 220 seeds per gram

***Sow indoors** April, 5 mm deep and 1 cm apart.*

***Transplant outdoors** late May, spacing 75 cm apart in rows 75 cm apart.*

***Pro Tip:** Wait for a few significant autumn frosts before harvesting. This triggers the conversion of starches to sugars, improving the flavour!*

Long Island Improved • 1300
95 days
400 seeds per packet. Introduced in the 1890's. This long-time North American home garden favourite has continued to produce reliable yields of tasty sprouts throughout the years! Performs well for home and market gardeners. Strong, large plants to 60 cm tall, easily produce 50-100 dark green sprouts about 2.5 cm in diameter along the strong central stem. Good flavour and exceptionally heavy yielding. Also known as "Catskill" variety.
Packet $2.19 | 25 g $10 | 125 g $30 | 500 g $56 | 1 kg $80

Redarling Hybrid • 1302
140 days
10 seeds per packet. Striking red-purple, 2.5 cm sprouts are milder and sweeter than green varieties and rich in Vitamin C. Plants mature to 75 cm height and spread to 25 cm wide. Taste is improved when touched by fall frosts.
Packet $3.49 | 100 seeds $22 | 250 seeds $40

Organic **Heirloom** (Time-tested variety) **Container** (Great for pots)

Cabbage

(Brassica oleracea, capitata group) – 300 seeds per gram

***Sow indoors** April, 5 mm deep and 2.5 cm apart.*

***Transplant outdoors** early June, spacing 45 cm apart in rows 75 cm apart.*

***Pro Tip:** To control disease, avoid planting cabbage or other Brassica, such as kale or broccoli, in the same location year after year.*

Brunswick Sauerkraut • 1304
70 days
250 seeds per packet. Flavourful, late maturing, very cold hardy fall and winter cabbage. A somewhat flattened, drumhead variety, producing dense, tightly formed heads up to 3 kg or more! The best choice for making sauerkraut.
Packet $2.99 | 25 g $8.70 | 125 g $22.95 | 500 g $48.50 | 1 kg $69.25

Copenhagen Market • 1305
68 days
500 seeds per packet. Developed in Denmark by Hjalmar Hartman and Company in 1909 and still one of the best early cabbages today! This short season variety produces solid 20 cm round-headed cabbages weighing in at 2 kg each with a superior quality that resists splitting. Short stem and tender white flesh.
Packet $2.49 | 25 g $8.70 | 125 g $22.95 | 500 g $48.50 | 1 kg $69.25

Danish Ballhead • 1310
100 days
475 seeds per packet. Introduced in the late 1880's. Danish Ballhead produces outstanding quality and uniform, tender, fine-grained heads – all the reasons why this is such a popular variety. Medium to large heads grow to 20 cm in diameter and weigh on average 2.5 kg. This long storing variety is excellent for kraut, cooking and slaw production.
Packet $2.19 | 25 g $8.70 | 125 g $22.95 | 500 g $48.50 | 1 kg $69.25

Early Jersey Wakefield • 1320
65 days
475 seeds per packet. A very old English variety producing conical shaped heads about 17 cm long that mature very early in the season. Heads have a crisp but tender texture, are dark green in colour and weigh about 1 kg. Yellows resistant. First listed commercially in 1868.
Packet $2.49 | 25 g $8.70 | 125 g $22.95 | 500 g $48.50 | 1 kg $69.25

Golden Acre • 1315
64 days
475 seeds per packet. An early Copenhagen type producing solid, round heads on small compact plants. This is the earliest maturing cabbage we offer. Heads weigh about 2 kg and grow to about 15-17 cm in diameter. Tolerates closer spacing than many cabbages, possesses superb bolting resistance and is an excellent choice for poorer soils. Yellows resistant. While it has no doubt been grown in North America longer, catalogues talked about this variety as early as 1927.
Packet $2.19 | 25 g $8.70 | 125 g $22.95 | 500 g $48.50 | 1 kg $69.25

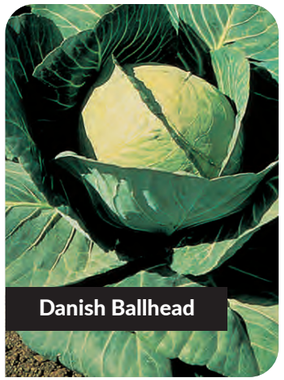
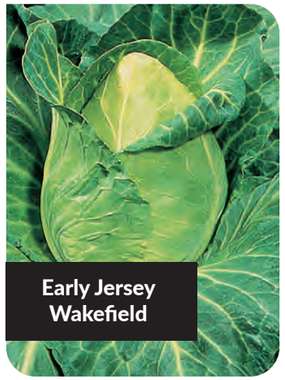
Gregorian Hybrid



Danish Ballhead

Copenhagen Market



Early Jersey Wakefield

Gregorian Hybrid • 1303
59 days
75 seeds per packet. Extra early, uniform hybrid with solid heads averaging 18 cm size and about 1.6 kg weight. Tight green wrapper leaves and excellent tolerance to environmental stress. Dependable producer that is quite suitable for home or market gardens.
Packet $3.99 | 500 seeds $12.95 | 1,000 seeds $20.95

Late Flat Dutch • 1325
95 days
475 seeds per packet. First introduced to gardeners sometime around 1850, this beautiful looking, late-maturing cabbage produces a large head that tends to be somewhat flatter than other varieties. The head can grow up to 30 cm across and weigh in at a stunning 5 kg! This is an excellent cabbage for winter storage.
Packet $2.49 | 25 g $8.70 | 125 g $22.95 | 500 g $48.50 | 1 kg $69.25

Red Express • 1332
62 days
175 seeds per packet. A quick growing, small to medium sized cabbage. Eye-catching dark purple-red, tightly packed heads mature to approximately 12 cm in diameter with an average weight of 1.5 kg. Has a compact spread of 20-30 cm and grows 20-30 cm tall. Red Express cabbage can be comfortably spaced at 20-30 cm apart. An excellent choice for smaller gardens.
Packet $2.49 | 25 g $8.70 | 125 g $22.95 | 500 g $48.50 | 1 kg $69.25

Savoy Chieftain • 1335
90 days
475 seeds per packet. Globe shaped heads are thick and flat with a short core and an average weight of 2 kg. Stunning crinkled or "savoyed" dark green leaves are a departure from the norm and help to make this variety a visual treat in the garden and a culinary triumph in the home. A 1930's introduction, Savoy Chieftan withstands fall frosts better than other varieties and is reputed to be the best tasting of all types of cabbages.
Packet $2.49 | 25 g $8.70 | 125 g $22.95 | 500 g $48.50 | 1 kg $69.25

Transplanting Tips

Help your seedlings adjust to outdoor conditions by hardening them off gradually over 7–10 days. Start in a shaded, sheltered spot, then slowly introduce morning sun and eventually full sun.

Watch for signs of stress and water regularly. Plant outdoors after all danger of frost has passed, watering well after transplanting.

Peat and other plantable pots can be planted directly in the soil, minimizing root disturbance.

Shop our selection of peat pots on page 126

Hales Best

Cantaloupe/ Muskmelon

(Cucumis melo) – 5 seeds per gram

***Sow indoors** April-May, 2.5 cm deep in peat or paper pots to avoid transplant shock.*

***Transplant outdoors** late May when danger of frost has passed, spacing 65 cm apart, in rows 1.5 m apart.*

***Pro Tip:** Cantaloupes are ripe when their grey-green skin starts to lighten and turn a warm, buff-yellow and the melon easily "slips" from the vine with a very gentle tug.*

Delicious 51 • 1395
75 days
50 seeds per packet. A nearly round, very tasty, open pollinated melon with thick, firm, orange-coloured flesh. Fruits average 15 cm in diameter with an average weight of 1 kg when fully ripened. Delicious 51 is an excellent variety for home gardeners especially those growing in cool climates.
Packet $2.49 | 25 g $9.60 | 125 g $30 | 500 g $67.20

Hales Best • 1390
75 days
60 seeds per packet. An open pollinated variety first developed in the early 1920's. Produces large, excellent quality melons weighing up to 1.8 kg and up to 15 cm in diameter. The bright salmon coloured flesh is thick, firm and sweet. The yellowish-green rind is heavily netted and practically rib-less. This variety is ideal for local market gardeners. Best grown in soils of pH greater than 6.5 and less than 7.5.
Packet $2.49 | 25 g $9.60 | 125 g $30 | 500 g $67.20

Halona Hybrid • 1410
68 days
10 seeds per packet. Halona is one of the best hybrid cantaloupes with early maturity and resistance to Powdery Mildew and some Fusarium. Halona stands out for its sweet, thick orange flesh and the characteristic musk-melon flavour. Produces a heavy crop of well ribbed and heavily netted melons ranging from 1.8-2.3 kg Brix (sweetness) averages 14-15%.
Packet $3.49 | 50 seeds $11.95 | 100 seeds $18.95

Organic Heart of Gold • 4120
75 days
50 seeds per packet. An aromatic, sweet, deep orange fleshed melon. Fruits range in size from 12.5 cm to 16.5 cm in diameter with a seed cavity that is relatively small. The rind is green with a heavily netted grey outer skin. Melons average 1.5 kg weight at harvest.
Packet $3.59 | 25 g $25

Passport Hybrid *(Honeydew x Galia)* • 1425
80 days
10 seeds per packet. An early Honeydew type melon with a fantastic aroma and sweet banana-flavour. Thick, green fleshed fruits are large, averaging 15 cm diameter and 2.5 kg weight. Vigorous, productive vines with excellent disease resistance to Anthracnose. Brix (sweetness) averages 12-13%.
Packet $3.49 | 50 seeds $11.95 | 100 seeds $18.95

Sarah's Choice Hybrid • 1400
70 days
10 seeds per packet. One of the tastiest melons we've ever trialed. This extra-sweet, medium sized melon produces 1.3 kg oval fruits with a thick, juicy orange flesh. Tolerant of Fusarium and Powdery Mildew with good yields making it a perfect choice for your home garden.
Packet $3.49 | 50 seeds $12.25 | 100 seeds $19.95

Carrots *(Daucus carota, subsp. sativa) – 850 seeds per gram*

***Sow outdoors** May-June, 5 mm deep and 5 mm apart in rows 50 cm apart.*

***Thin to** 4 cm apart when seedings reach 5-7 cm in size.*

***Pro Tip:** Keep the seed bed evenly moist and avoid crusting during germination period*

Atomic Red • 1388
70 days
900 seeds per packet. A Danvers type carrot with distinctly bright scarlet-coral roots. Roots average 20 cm in length and possess a sweet taste with a very crunchy texture! This variety gets its unusual hue from Lycopene.
Packet $2.99 | 10 g $24 | 25 g $45

Baby Finger • 1355
62 days
1,200 seeds per packet. An extra sweet, tender, baby Nantes carrot with smooth skin. Small core and length of no more than 9 cm and a diameter under 1.5 cm. These are the perfect choice for serving or canning whole. For the garden or container growing, this is definitely a gourmet delight.
Packet $2.19 | 25 g $8.10 | 125 g $23.40 | 500 g $52.20 | 1 kg $72

Organic Chantenay Red Cored • 4032
72 days
1,200 seeds per packet. Perhaps the most popular home garden variety. Roots are a bright orange and average 15-17 cm in length and up to 4 cm in diameter. Cylindrical, smooth skinned and blunt ended. Nantes is a great tasting, tender but crisp even when harvested late in the season!
Packet $2.99 | 25 g $22.50 | 500 g $195

Baby Finger

Chantenay Red Cored • 1360
72 days
1,500 seeds per packet. Introduced in 1929. One of our most popular storage varieties. Orange-scarlet roots are smooth, even-shaped, free from eyes and full of essential vitamins plus an excellent source of dietary fibre. These meaty carrots are 15 cm long and 2.5 cm thick with a sweet taste. A garden staple that is a good choice for soils that tend to be a little heavier.
Packet $2.19 | 25 g $8.10 | 125 g $23.40 | 500 g $52.20 | 1 kg $72

Cosmic Purple • 1372
65 days
500 seeds per packet. A Danvers type carrot with beautiful, deep purple outer skin, yellow central core and deep orange interior flesh. Carrots average 17.5 cm length and have an unusually sweet flavor with a hint of spiciness. Cosmic Purple contain beneficial antioxidants, called anthocyanins.
Packet $2.99 | 10 g $12 | 25 g $22.50

Danvers Half Long • 1365
65 days
1,500 seeds per packet. An excellent quality, heavy yielding carrot introduced in the late 1880's. Great for canning and storing. Roots have a deep orange flesh, are 15-20 cm long and taper uniformly to a blunt point. Achieves good growth in a wide range of soils.
Packet $2.19 | 25 g $8.10 | 125 g $23.40 | 500 g $52.20 | 1 kg $72

Atomic Red

Cosmic Purple

Lunar White

Nantes Coreless

Organic **Heirloom** (Time-tested variety) **Container** (Great for pots)

Imperator • 1370
74 days
1,400 seeds per packet. Imperator is a sweet, crisp, flavourful carrot with an eye-catching deep orange colour. Nicely formed roots average 18-20 cm in length, very uniform, a big yielder and quite suitable for bunching. This carrot does best in deep, open, well worked soil.
Packet $2.19 | 25 g $8.10 | 125 g $23.40 | 500 g $52.20 | 1 kg $72

Kuroda • 1373
72 days
1,000 seeds per packet. Excellent selection for the home garden. Slightly tapered reddish-orange roots average 15-20 cm in length with a wonderful, crisp, sweet taste. High water content makes Kuroda a superb choice for juicing. Great storage carrot.
Packet $2.99 | 25 g $8.10 | 125 g $23.40

Lunar White • 1352
62 days
700 seeds per packet. A beautiful, true white carrot with a crisp, crunchy texture and slightly green shoulders. The tapered roots are almost entirely coreless, have a very mild flavour and average 20 cm in length. Fun Fact: Carrots were originally white until Dutch breeders bred the orange colour into them.
Packet $3.49 | 10 g $24 | 25 g $45

Organic Nantes Coreless • 4030
70 days
1,200 seeds per packet. Perhaps the most popular home garden variety. Roots are a bright orange and average 15-17 cm in length and up to 4 cm in diameter. Cylindrical, smooth skinned and blunt ended. Nantes is a great tasting, tender but crisp even when harvested late in the season!
Packet $3.59 | 25 g $22.50 | 500 g $195

Nantes Coreless • 1375
70 days
1,500 seeds per packet. A long-time home garden favourite producing smooth, bright orange, nearly coreless roots 15–17 cm long. Sweet, crisp, and tender with excellent flavour, even when harvested late. An outstanding choice for fresh eating or juicing.
Packet $2.19 | 25 g $8.10 | 125 g $23.40 | 500 g $52.20 | 1 kg $72

Organic Rainbow Blend • 4034
60 days
600 seeds per packet. A treat for every garden in a kaleidoscope of colours – Atomic Red, Bambino (orange), Cosmic Purple, Lunar White and Solar Yellow. Sweet and crunchy, all are suitable as baby-sized carrots or grown to full size. We expect market gardeners will be especially pleased as this unusual colour combination is hard to find! The kids will have fun growing them too!
Packet $2.99 | 5 g $24 | 25 g $60

Rainbow Blend • 1380
60 days
1,500 seeds per packet. A treat for every garden in a Kaleidoscope of colours – Atomic Red, Bambino (orange), Cosmic Purple, Lunar White and Solar Yellow. Sweet and crunchy, all are suitable as baby-sized carrots or grown to full size. We expect market gardeners will be especially pleased as this unusual colour combination is hard to find! The kids will have fun growing them too!
Packet $3.49 | 10 g $24 | 25 g $45

Solar Yellow • 1387
65 days
1,600 seeds per packet. An ancient variety, originating from the Middle East. A classic Danvers type carrot with broad full shape for most of its length before tapering to a pointed tip. Very sweet, juicy, crisp, buttery yellow roots explode with richer colour when cooked. Roots average 15-20 cm in length an 2 cm in diameter. The pigment xanthophyll gives these carrots their colour.
Packet $2.99 | 10 g $24 | 25 g $45

Tendersweet • 1374
75 days
900 seeds per packet. You will be asking who put sugar on the carrots when you try Tendersweet! Deep orange-red roots up to 25 cm long are almost coreless, smooth-skinned and perhaps the sweetest tasting carrots you'll find.
Packet $2.99 | 25 g $8.10 | 125 g $23.40

Triton Hybrid • 1371
65 days
175 seeds per packet. Known for its superb taste and texture. Triton has strong tops that are erect and dark green in colour. Its pointy, cylindrical roots are 22-25 cm long and 2 cm in diameter with a semi-blunt tip. A superb choice for market gardeners and a very high yielding carrot when grown in deep rich soils. Great tasting roots are crisp textured with a medium orange colour.
Packet $2.19 | 5,000 seeds $13.95 | 20,000 seeds $41.50

Climbing (Requires staking/cage) **Disease Resistant** **Premium Variety**

Cauliflower

(Brassica oleracea) – 350 seeds per gram

***Sow indoors** March to April, 5 mm deep, spacing seeds 2 cm apart.*

***Transplant outdoors** late May, 60 cm apart in rows 75 cm apart.*

***Pro Tip:** Direct sow outdoors in mid to late summer for a fall harvest.*

When the developing head is about the size of a tennis ball, gather wrapper-like outer leaves and secure them over the top of the plant to shade the head. This simple "blanching" technique blocks the sunlight, ensuring your cauliflower stays beautifully white, crisp, and sweet.

Super Snowball Self-Blanching • 1445
65 days
200 seeds per packet. Uniformly shaped, snow white 17-20 cm heads that are thick and solid with tight curds. Crunchy and delicious raw or steamed. Great for both early and late season crops. The large outer leaves tend to curl around the white head protecting it from the elements. Despite this, many growers will still tie the leaves up and around the head to protect it. Best grown during cooler portions of the growing season.
Packet $2.49 | 5 g $6 | 25 g $13.15 | 125 g $37.50 | 500 g $97.50

Romanesco • 1444
78 days
100 seeds per packet. Variety originated in Italy. Absolutely fascinating looking, lime-green heads formed of a complex collection of intricately spiraled curds. Often referred to as coral broccoli due to its appearance. Preferred by chefs everywhere due to its crisp texture and sweet, slightly nutty taste!
Packet $3.49 | 5 g $8 | 25 g $17.50 | 125 g $50

Super Snowball Self-Blanching

Snow Crown Hybrid • 1446
48 days
15-20 seeds per packet. The best short-season variety we've found! Incredibly consistent producer of top-quality heads from a spring or fall sowing. This stunning cauliflower produces large 20 cm domed-shaped heads with dense curds and tight wrapper leaves. Heads average 900 g in weight. Always mild and sweet.
Packet $3.49 | 200 seeds $12.25 | 500 seeds $23.65

Twister Hybrid • 1447
65 days
15-20 seeds per packet. Twister produces a very tight, heavy-headed, cauliflower with bright white curds and exceptional internal wrapper leaves. Averages 17-20 cm head size. Uniform harvest, excellent adaptability to varied climate and growing conditions. Grows best in cooler conditions but shows good heat tolerance in early summer.
Packet $3.49 | 200 seeds $14.25 | 500 seeds $27.50

Celeriac

(Apium graveolens, var. rapaceum) – 1,750 seeds per gram

***Sow indoors** March to April. Requires light to germinate, press seed gently into soil but do not bury. Space 1 cm apart.*

***Transplant outdoors** late May, spacing 20 cm apart in rows 60 cm apart.*

***Pro Tip:** While roots can be harvested early, those pulled in the autumn after the first few frosts will have a sweeter flavour and will store the longest.*

Giant Prague • 1460
110 days
750 seeds per packet. For those who like a celery flavour in vegetable juices, stews, soups or salads, celeriac is the plant for you. While this plant will not win any beauty contests, the large white roots are almost fibreless and possess a lovely celery flavour. Fall harvested roots have superior flavour and store well over winter. Celeriac is also far easier to grow than celery!
Packet $2.19 | 25 g $12.50 | 125 g $37.50

Celery

(Apium graveolens) – 2,100 seeds per gram

***Sow indoors** April, 3 mm deep and 5 mm apart.*

***Transplant outdoors** May to June, spacing 20 cm apart in rows 60 cm apart.*

***Pro Tip:** To keep stalks pale, tender, and mild in flavour, gently mound soil or straw up around the base of the stems when plants are 30 cm tall.*

Tall Utah • 1455
100 days
500 seeds per packet. There is no doubt that celery is a demanding vegetable to grow. At the same time it is a rewarding vegetable for gardeners with skill, determination and a long growing season. Tall Utah has an early maturity (for celery) and is resistant to bolting under summer stress. Tall, medium green stalks are crisp and nicely flavoured. Plants reach a mature height of 40 cm. Stalks can be enjoyed young as well.
Packet $2.19 | 25 g $12.50 | 125 g $37.50

Collards

(Brassica oleracea, acephala group) – 200 seeds per gram

***Sow outdoors** late May to June, 3 mm deep and 2.5 cm apart in rows 40 cm apart.*

***Thin to** 30 cm apart when seedlings reach approximately 8 cm tall.*

***Pro Tip:** To harvest, cut individual outer leaves instead of pulling the entire plant. The centre will continue to produce fresh greens all summer long!*

Vates • 1470
80 days
150 seeds per packet. Tall, upright, leafy plants 75-90 cm high have blue-green, thick, crumpled leaves with a delicious but mild cabbage-like flavour. Slow to bolt and stores well in the refrigerator for 7-10 days without losing its quality. Collards are an exceptionally tough, multipurpose green that can be enjoyed both fresh in salads or cooked into hearty dishes.
Packet $2.19 | 125 g $12.50 | 500 g $28

Contact us at 1-800-465-5849 or shop online at OSCSEEDS.COM

Organic **Heirloom** (Time-tested variety) **Container** (Great for pots) **Climbing** (Requires staking/cage) **Disease Resistant** **Premium Variety**

Chicory/ Radicchio

(Cichorium intybus) – 500 seeds per gram

Sow outdoors *May to June, 3 mm deep and 5 mm apart in rows 40 cm apart.*

Thin to *30 cm apart when seedlings reach approximately 8 cm tall.*

Pro Tip: *Harvest young for the best taste and texture!*

Chicory

Cicoria Catalogna • 1480
60 days
350 seeds per packet. Also known as Italian Dandelion. Tender 30 cm long, dark greens are a must for traditional Italian salads. Harvest by cutting above the crown to encourage new sprouts and extend your harvest. The best flavour and texture are achieved when leaves are harvested young.
Packet $2.49 | 25 g $8.75 | 125 g $26.25

Witloof *(Belgian Endive)* • 1495
95 days
500 seeds per packet. Grown since at least the 1840s, this forcing variety will produce a dainty, delicate salad leaf with a distinctive tangy flavour. In autumn dig up roots and trim leaves to a 1 cm stub. Plant upright in moist sand or peat and cover to block out all light. Keep at 10–15 °C to sprout sweet, pale, tightly-folded gourmet heads indoors. These delicate-tasting, leafy, blanched 'chicons' are of great culinary interest. C'est magnifique!
Packet $2.19 | 25 g $8.75 | 125 g $26.25

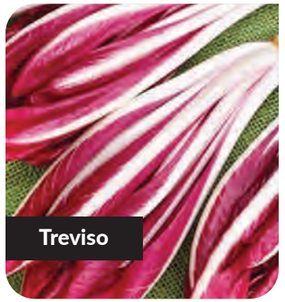
Radicchio

Chioggia • 1475
75 days
350 seeds per packet. Large, 10-15 cm, heads with white leaves and intricately patterned white flecks. Tolerant to summer heat and perfect for summer or fall harvests.
Packet $2.49 | 25 g $8.75 | 125 g $26.25

Treviso • 1485
75 days
350 seeds per packet. Elongated heads reminiscent of a baby cos lettuce develop long, variegated, and deep red leaves with thick white ribs as temperatures cool later in the season. Treviso has a firm texture with slightly bitter tasting leaves.
Packet $2.49 | 25 g $8.75 | 125 g $26.25

Verona Red • 1490
75 days
350 seeds per packet. This heirloom radicchio grows 5-10 cm in diameter with deep red, tightly wrapped heart-shaped leaves. Has a sharp flavour, making it a beautiful addition to salads. Withstands considerable frost.
Packet $2.19 | 25 g $8.75 | 125 g $26.25

Chioggia



Corn Salad/ Mache

(Valerianella locusta) – 350 seeds per gram

Sow outdoors *April to May, 3 mm deep and 6 mm apart in rows 40 cm apart.*

Thin to *10 cm apart to allow for rosette development. Use weaker seedlings as baby greens.*

Pro Tip: *When thinning, snip seedlings at the surface of the soil instead of pulling them. This will help protect the delicate roots of the plants that you keep.*

Lamb's Lettuce • 1465
45 days
900 seeds per packet. Dark green leaves form a low growing fancy rosette that is best harvested when young and before flowers appear. Leaves can be blanched (covered to prevent exposure to light) for three days before picking to reduce bitterness. Its vaguely nutty taste is improved by a light frost.
Packet $2.19 | 25 g $9.40 | 125 g $23.45

Cress

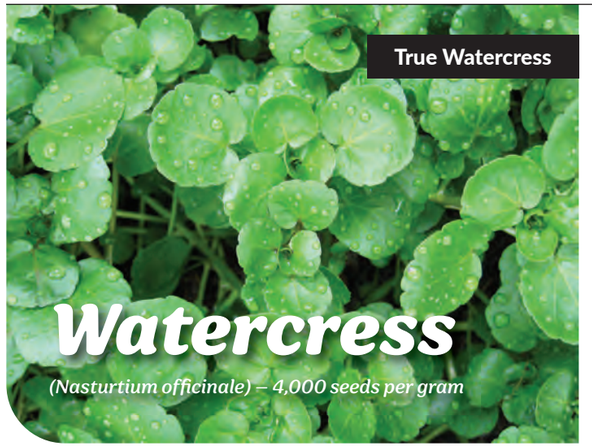
(Lepidium sativum) – 450 seeds per gram

Sow outdoors *April to September, 6 mm deep and 6 mm apart in rows 60 cm apart.*

Avoid *hot, direct afternoon sun as this can cause plants to bolt and turn bitter.*

Pro Tip: *Pick when plants are young for peak flavour, crispness, and tenderness before the stems toughen.*

Extra Curled *(Peppercress)* • 1500
25 days
1,000 seeds per packet. Seed is quick to sprout, soon forming small stems of lacy deep green leaves that make a delicious addition to salads, sandwiches, omelettes, and vegetable dishes. Sow seed every 2 weeks right through the season for a continuous supply of this little beauty. During winter, this variety can be easily grown in containers set in a bright window.
Packet $2.19 | 125 g $14.10 | 500 g $31.50



Watercress

(Nasturtium officinale) – 4,000 seeds per gram

Sow outdoors *May to June, 6 mm deep and 1 cm apart. Best sown along a streambank or area with slowly moving water but will grow in any moist spot.*

Container *grow by setting container directly into a deep tray or saucer filled with water to keep the soil completely saturated.*

Pro Tip: *If growing in containers, make sure to change the water daily. This prevents the water from stagnating, which can lead to root rot and off-flavours.*

True Watercress • 1505
52 days
1,400 seeds per packet. Known for its crisp, peppery flavour, this semi-aquatic plant is a wonderful addition to any garden. The perfect way to add a zesty kick to salads, sandwiches, and soups. Has a creeping growth habit and develops broader leaves than regular cress.
Packet $3.49 | 25 g $31.25 | 125 g $125

Organic **Heirloom** (Time-tested variety) **Container** (Great for pots) **Climbing** (Requires staking/cage) **Disease Resistant** **Premium Variety**

Sweet Corn *(Zea mays) – 6 seeds per gram*

***Sow outdoors** June, when soil temperatures reach at least 16 °C. Sow 3 cm deep and 15 cm apart in rows 60 cm apart.*

***Thin** to 20-30 cm apart.*

***Pro Tip:** Plant 3-4 rows to ensure proper pollination.*

When planting corn, avoid cold soil! This is the most common reason for a poor stand. Sow 7-10 days after all danger of frost is past. Sweet corn emergence is best when soil temperatues are 18 °C so patience is key. Some years this happens in mid-May, other years we need to wait until late May or early June! We cannot be held liable for poor seed germination when soils are cold and wet.

OSC collaborates with premier breeders of sweet corn to select a high-quality assortment of corn varieties that combine superior eating qualities and wide adaptability. From some of the heirloom favourites that have stood the test of time to newer supersweet varieties that delight the taste buds, we have something for every gardener. All our varieties are perfect for home and market gardeners.

Treated Seed
Our seed is not treated except for a few varieties of sweet corn, available to certain growers upon request. We cannot be held liable for poor germination due to cool soil temperatures and inconsistent spring rain. For any earlier start to the season sow seed into peat pots or Jiffy 7 pellets and transplant outdoors when the soil has warmed.

Treated Sweet Corn seed must be ordered directly 1-800-465-5849 or info@oscseeds.com

Bilicious

Open Pollinated (OP)
Varieties produce seed that is closely related to the parent plant.

Golden Bantam • 1510L
72 days
100-125 seeds per packet. First introduced in 1902, it is this old favourite that was responsible for changing the public colour preference in sweet corn from white to yellow. A true, eight-rowed cob with broad, sweet golden kernels on cobs 17.5 cm long. A delicious tasting corn for any hard-to-please palate! Irrigation is essential for proper kernel formation. Watch ripeness carefully. Pick before kernels over-ripen for best flavour and texture.
Large Packet $3.49 | 250 g $12.35 | 2 kg $76
10 kg $247 | 25 kg $475

Sugary (SU)
Sugars convert to starch very quickly after picking, have that old-fashioned flavour but don't store well.

Honey & Cream • 1520L
75 days
100-125 seeds per packet. An old-time classic with medium-sized ears 18 cm long filled to the tip with 12-14 rows of sweet, buttery kernels. Tight green husks give good coverage and are quite easy to pick. A good variety for both home and commercial growers. Irrigation is essential for proper kernel formation. Resistant to Common Rust and Northern Corn Leaf Blight.
Large Packet $3.99 | 250 g $25.25 | 2 kg $155.20
10 kg $504.40 | 25 kg $970

Peaches & Cream Early Hybrid • 1560L
70 days
100-125 seeds per packet. Sturdy 2 m tall plants produce the ultimate in bicoloured sweet corn. Up to 16 rows of mouth-watering, tender, juicy kernels fill the beautifully shaped 18 cm long ears. This is an excellent variety for home gardeners and commercial growers. Tolerant of cooler temperatures.
Large Packet $3.99 | 500 seeds $14.50 | 3,000 seeds $63.25
15,000 seeds $234 | 30,000 seeds $345 | 100,000 seeds $995

TREATED 500 seeds $14.50 | 3,000 seeds $63.25
15,000 seeds $234 | 30,000 seeds $345 | 100,000 seeds $995

Yellow SU

Sunnyvee • 1525L
60 days
100-125 seeds per packet. An old standard and our best normal sugary variety for cool soil planting. Short, sturdy plants about 1.5 m tall produce ears that average 18 cm long. Plant in blocks for best pollination. An excellent variety for freezing. Irrigation is essential for good ear development.
Large Packet $3.49 | 250 g $13.95 | 2 kg $85.60
10 kg $278.20 | 25 kg $535

Sugary Enhanced (SE)
Increased tenderness and sweetness over the sugary corns and maintains their quality over a longer period of time.

Bicolour SE

Bilicious • 1570L
75 days
100-125 seeds per packet. A gourmet sweet corn with large 21 cm ears that are filled with 16 rows of very sweet, plump and tender bicoloured kernels. Superb taste, great appearance and excellent tip fill. Perfect fresh from the garden and freezes well. Plants grow to 2 m tall with moderate disease resistance.
Large Packet $3.49 | 250 g $19.50 | 2 kg $120
10 kg $390 | 25 kg $750

Yellow SE

Big Jim III Hybrid • 1532L
72 days
100-125 seeds per packet. An improved homozygous sweet corn that gets its SE trait from both parents. Exceptionally large 22 cm long ears that are almost 5 cm in diameter! This 18-row variety has superior holding quality and improved resistance to both Rust and Common Dwarf Mosaic.
Large Packet $3.49 | 250 g $32.50 | 2 kg $200
10 kg $650 | 25 kg $1,250

TREATED 250 g $32.50 | 2 kg $200
10 kg $650 | 25 kg $1,250

Bodacious RM Hybrid • 1535L
72 days
100-125 seeds per packet. A vigorous sweet corn that has strong tolerance to Common Rust, Northern Corn Leaf Blight and Stewart's Wilt. Large 20 cm ears composed of 16 rows of exceptionally sweet and tender kernels. Highly recommended for eating fresh off the cob or for freezing. Irrigation is essential.
Large Packet $3.49 | 250 g $32.50 | 2 kg $200
10 kg $650 | 25 kg $1,250

TREATED 250 g $32.50 | 2 kg $200
10 kg $650 | 25 kg $1,250

Synergistic Bicolour (SE/SH2)

Espresso Hybrid • 1572L
70 days
100-125 seeds per packet. Espresso is everything a gardener is looking for – very refined large 22 cm cobs, 16 rows of bicoloured kernels with a sweet, delicious flavour, strong tip fill and good husk cover. Shows excellent cool soil and early season vigour. Perfect for those who demand great taste and quality. In good conditions, Espresso produces two cobs per stalk.
Large Packet $3.49 | 500 seeds $18 | 3,000 seeds $80
15,000 seeds $305 | 30,000 seeds $470

Super Sweet Corns

Honey Select Hybrid • 1575L
79 days
100-125 seeds per packet. Triplesweet AAS Award Winner. This yellow variety combines the tenderness and sweet corn flavour of the Sugary Enhanced types with the extra sweetness and extended shelf life of exotic varieties. Cobs produce 75% sugary enhanced kernels and 25% "super- sweet" kernels to give you more "juicy corn taste". Ideal for roadside markets or home gardens alike. Big, 21 cm ears average 18-20 rows of delicious yellow kernels. Medium green husk, good flags and dependable performance. Uniform, sturdy plants grow to 1.5 m tall. Isolate from other supersweet varieties.
Large Packet $3.99 | 500 seeds $14.50 | 3,000 seeds $63.25
15,000 seeds $234 | 30,000 seeds $365 | 100,000 seeds $1,050

TREATED 500 seeds $14.50 | 3,000 seeds $63.25 | 15,000 seeds $234
30,000 seeds $365 | 100,000 seeds $1,050

Nirvana Hybrid • 1577L
76 days
100-125 seeds per packet. This augmented bicolour combines the best of all sweet corn characteristics with SH2 and a dash of SE/SU traits. Isolate from all other corns. It offers exceptional quality, vigour, seed emergence, and taste. A very sweet, extra juicy and tender bicolour with 20 cm cylindrical ears and 16 rows of refined, well-filled kernels. Uniform, high-yielding plants, tight husks, good tip fill and the ability to hold their great taste for a long time in the garden make this a great choice. Tolerant to Northern Corn Leaf Blight.
Large Packet $3.99 | 500 seeds $21.80 | 3,000 seeds $98.50
15,000 seeds $365 | 30,000 seeds $575 | 100,000 seeds $1,700

Robust R98114W Popcorn Hybrid • 1585L
100 days
100-125 seeds per packet. Excellent eating quality white popcorn that yields well and tastes great. Tried and true for emergence and yield, and an improved variety for growing in northern areas. Big 20 cm cobs burst into large, fluffy, delicate white kernels when popped. Plants grow to 1.75 m tall and stand up well in inclement weather and strong winds. Isolate from other corn varieties.
Large Packet $3.49 | 500 seeds $35
3,000 seeds $125 | 15,000 seeds $205

Ornamental • 1600L
90 days
100-125 seeds per packet. A must for autumn decorations. Hearty, sturdy plants are filled with 20 cm cobs of multi-coloured kernels. Isolate from other corn varieties by 92 m to avoid cross-pollination.
Large Packet $3.49 | 250 g $10.80 | 2 kg $66.40
10 kg $215.80 | 25 kg $415

Blue Hopi • 1602L ***DON'T WAIT, SUPPLY IS LIMITED!***
90 days
100-125 seeds per packet. Blue corn was initially developed by the Hopi people of the southwestern United States. This unique corn doubles as a sweet treat when eaten young or can be dried and ground into flour. Its protein content is higher than true dent corn, making it an excellent choice for homemade tortillas. It also makes a great fall decoration. Medium-sized 17 cm ears are produced on plants growing 1-1.5 m tall. Isolate from other corn varieties by 100 m to avoid cross-pollination.
Large Packet $3.49

AVERAGE SEEDING RATES:
500 seeds per 76 m row / 3,000 seeds per 475 m row
15,000 seeds per 0.2 ha. / 30,000 seeds per 0.4 ha.

A FACT TO GROW BY
Don't worry if your cucumber plants only produce flowers at first! The first blooms are often male, with female flowers appearing later to develop fruit. For the healthiest plants, water with warmer, sun-heated water in mid-morning and rotate where you grow cucumbers each year to help reduce the risk of disease.

Organic | Heirloom (Time-tested variety) | Container (Great for pots)

Cucumbers *(Cucumis sativus) — 35 seeds per gram*

***Sow indoors** April to May, 2 cm deep.*

***Transplant outdoors** after danger of frost is past.*

***Sow outdoors** June to July, 2 cm deep and 65 cm apart in rows 1.5 m apart.*

***Pro Tip:** Harvest by cutting from the vine with a sharp knife. Do not pull or twist them from the vine as this can damage the plant.*

Cucumbers do not strictly require a trellis, but they benefit from one! While you can let them sprawl on the ground, using a trellis or support system saves garden space, promotes straighter fruit, and significantly reduces the risk of fungal diseases by improving airflow.

Slicing

Burpless Hybrid • 1625
60 days
15 seeds per packet. Early and heavy yielding, crisp, tasty, not bitter, and truly burpless. These cucumbers may be eaten without peeling, just like carrots. Peak flavour and vitamin content is reached when these slender, dark green fruits reach 20-25 cm long. Mildew resistant.
Packet $2.99 | 100 seeds $14.95 | 250 seeds $28
1,000 seeds $67

English Telegraph • 1655
60 days
20 seeds per packet. English Telegraph, also known as the English Cucumber, has been grown since at least 1885 and produces straight, slim slicing cucumbers. Fruits average 35 cm long and have a very mild flavour. Cucumbers that develop on vines lying on the ground often curl, so for the straightest fruit, train vines to grow on a trellis or netting. Also well suited for greenhouse production.
Packet $3.49 | 5g $16.50 | 25 g $55 | 125 g $151.25

Organic Marketmore 76 • 4040
67 days
75 seeds per packet. A high-yielding, refined, dark green slicer producing perfectly shaped, uniform fruits 20-22 cm long. Has a crisp crunch and sweet flavour. Superb for slicing. Highly disease resistant to Cucumber Mosaic, Scab and Mildew.
Packet $3.59 | 25 g $28.15 | 250 g $101.25

Marketmore 76 • 1630
67 days
75 seeds per packet. A productive variety that yields abundant, dark green slicing cucumbers measuring 20–22 cm long. The uniform fruits have a crisp texture and sweet, refreshing flavour. Excellent for fresh slicing and highly resistant to Cucumber Mosaic Virus, Scab, and Powdery Mildew.
Packet $2.19 | 25 g $9 | 125 g $19.80 | 500 g $54 | 1 kg $72

Mercury Hybrid • 1665
55 days
20 seeds per packet. An exceptional Beit Alpha cucumber whose vines produce only female flowers and are parthenocarpic, so they do not require pollination. Thin-skinned, dark green fruits average 20 cm long with crisp, sweet, flavourful flesh. Excellent for open-field production and performs well in greenhouses. Perfect for salads and eating fresh. Produces tremendous yields and has excellent resistance to Powdery Mildew and Cucumber Mosaic Virus.
Packet $3.49 | 250 seeds $13.85 | 1,000 seeds $32.95

Olympian Hybrid • 1635
64 days
20 seeds per packet. Beautiful, straight, dark green fruits average 20-25 cm in length with a crisp, fresh flavour. This gynoecious hybrid (all female, with 10% pollinator added) sets loads of fruit over a long season. A market leader that is widely adapted to various growing conditions. Tolerant to Downy Mildew, Powdery Mildew, Scab, Anthracnose and Angular Leaf Spot. Gynoecious cucumbers produce almost all female flowers, resulting in higher yields than monoecious cultivars.
Packet $3.49 | 250 seeds $13.85 | 1,000 seeds $32.95

Patio Snacker Hybrid • 1662
40 days
10 seeds per packet. Patio Snacker is a monoecious hybrid producing both male and female flowers. Short branching vines produce dark green fruits measuring approximately 4 cm in diameter by 20 cm long with a pleasant flavour, crunchy texture and non-bitter peel. Once production begins, it continues throughout the summer. Perfect for containers, trellises and small gardens.
Packet $3.49 | 100 seeds $22.95 | 250 seeds $42.95

Raider Hybrid • 1647
50 days
20 seeds per packet. These delicious cucumbers are extremely straight with a smooth, deep green skin. This gynoecious hybrid is one of the earliest maturing slicers, producing huge yields of crisp 20 cm fruit. Great for home and market gardens. Gynoecious cucumbers produce almost all female flowers, resulting in higher yields than monoecious cultivars.
Packet $3.49 | 250 seeds $13.85 | 1,000 seeds $32.95

Climbing (Requires staking/cage) | Disease Resistant | Premium Variety

Slicemore Hybrid • 1645
62 days
7-10 seeds per packet. A splendid slicer with smooth, dark green, 21 cm fruits featuring a crisp yet tender skin and sweet-tasting white flesh. Very uniform, high-yielding plants with an outstanding disease package.
Packet $3.49 | 250 seeds $13.85 | 1,000 seeds $32.95

Straight Eight • 1640
52 days
100 seeds per packet. A 1935 All-American winner. Like a trusted friend, this variety can always be counted on to come through! Produces outstanding yields of straight, 20 cm long, smooth-skinned, dark green cucumbers. Great for slicing or for using in relishes. A proven performer in both market gardens and backyard gardens.
Packet $2.49 | 25 g $9 | 125 g $19.80 | 500 g $54 | 1 kg $72

Pickling

Chicago Pickling • 1605
58 days
65 seeds per packet. Introduced in 1888. Heavy-yielding plants are loaded with perfectly formed, deep green fruits with black spines. Fruits can be allowed to reach up to 12.5 cm in length without sacrificing quality, but they are most often picked at a much smaller size. Resistant to Scab and Cucumber Mosaic Virus.
Packet $2.19

Corentine Hybrid • 1617
50 days
20 seeds per packet. A very early-yielding improved European gherkin with slow seed development. Corentine produces smooth-skinned 10-12 cm fruits that remain crisp long after picking. Being parthenocarpic, it does not require pollination and is well suited for greenhouse production. Strong, vigorous plants set fruit well under cool conditions. The slow seed development makes these cucumbers ideal for pickling or harvesting as mini cucumbers.
Packet $3.49 | 100 seeds $14.95 | 250 seeds $28
1,000 seeds $67

Slicemore Hybrid

Regal Hybrid

Corentine Hybrid

Mouse Melon

Organic Homemade Pickles • 4046
55 days
65 seeds per packet. Semi-bush plants are loaded with 12 cm medium green, white spined fruits with a solid, crisp interior. An excellent variety for making the perfect dill pickles. Good disease resistance.
Packet $2.99 | 25 g $25 | 250 g $90

Regal Hybrid • 1610
48 days
20 seeds per packet. A gynoecious hybrid pickling cucumber with excellent yields and strong disease resistance. Slightly longer, slimmer, dark green, stippled fruits have a gentle taper toward the tip. Fruits can be harvested by hand or mechanically. An excellent choice for both home and market gardens. Gynoecious cucumbers produce almost all female flowers, resulting in higher yields than monoecious cultivars. Limited supply.
Packet $3.49

Organic Wisconsin SMR-58 • 4045
64 days
65 seeds per packet. Introduced in 1958. A black-spined cucumber with crisp, sweet, medium green fruits that taper at both ends. Popular with home and commercial growers. Resistant to Scab and Cucumber Mosaic Virus. An excellent choice for gardeners in short-season areas.
Packet $3.59 | 25 g $25 | 250 g $90

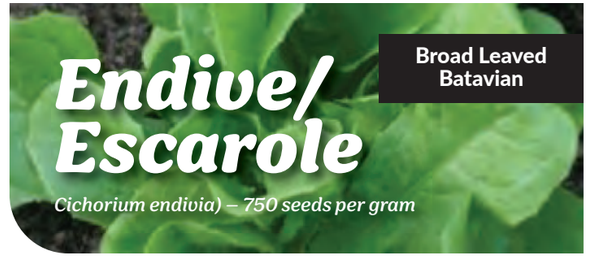
Wisconsin SMR-58 • 1620
64 days
75 seeds per packet. Introduced in 1958, this dependable pickling variety is prized for its excellent disease resistance. Crisp, sweet, medium green fruits are black-spined and gently tapered at both ends. A favourite of home and commercial growers, especially in short-season or northern gardens. Resistant to Scab and Cucumber Mosaic Virus.
Packet $2.19 | 25 g $8.35 | 125 g $18.30 | 500 g $49.90 | 1 kg $66.50

Specialty

Armenian • 1649
60 days
75 seeds per packet. Originally from the Middle East, Armenian Cucumber is genetically a melon but produces fruit that looks and tastes like a cucumber. The extra-long, light green fruits have a thin skin, a mild sweet flavour, are nearly seedless and more tolerant of heat than most cucumbers. Fruits can grow to 60 cm or more in length but are best eaten when 30-45 cm long. Trellis where possible.
Packet $2.19 | 25 g $12.50 | 125 g $27.50 | 500 g $75

Lemon • 1660
65 days
60 seeds per packet. Introduced in 1894. Fruits are the size and colour of a lemon with mild, crunchy white flesh, non-bitter skin and a unique sweet flavour. This heavy-yielding variety provides plenty of cucumbers for slicing, pickling or eating fresh off the vine like an apple.
Packet $2.99 | 25 g $8.75 | 125 g $19.25

Mouse Melon • 1623
70 days
20 seeds per packet. Also known as Cucamelon or Mexican Gherkin. Vines produce large numbers of grape-sized fruits with a marbled skin that resemble tiny watermelons. The fruits have the same taste and crunch as a cucumber but with a refreshing burst of lemon tartness. Perfect for stir-fries, pickling, salsa, desserts or martinis. Best grown on a trellis or other support structure to make harvesting easier and to support the long vines and abundant fruit.
Packet $3.49



Sow indoors *March, 6 mm deep and 8 cm apart.*

Transplant out *May to June, 60 cm apart in rows 90 cm apart.*

Pro Tip: *3-4 weeks before your typical first fall frost, pinch off any blossoms that develop. This will encourage the plant to put its energy towards maturing the fruit that it is already carrying.*

Black Beauty • 1675
80 days
75 seeds per packet. Abundant fruits are large and glossy dark purple in colour. An excellent variety for both home gardeners and commercial growers, as the fruits remain tender and flavourful for an extended period. Introduced in 1902.
Packet $2.19 | 25 g $11.50 | 125 g $35.95 | 500 g $80.50

Long Purple • 1685
80 days
75 seeds per packet. A popular heirloom that produces heavy yields of 20-25 cm long, deep purple fruits with mild, tasty white flesh. Delicious grilled or baked and never bitter.
Packet $2.19 | 25 g $11.50 | 125 g $35.95 | 500 g $80.50

Long Purple

Sow outdoors *June, 6 mm deep in rows 60 cm apart.*

Thin to *20 cm apart when seedlings are large enough to handle.*

Pro Tip: *Promote tenderness and discourage bitterness by blanching the inner leaves. Tie larger outer leaves up and over the centre 7-10 days before harvesting.*

Broad Leaved Batavian • 1690
90 days
1,000 seeds per packet. Originated in the 1860s. Endive and escarole are grown like lettuce, either in rows or patches. Escarole tastes best when grown quickly in cooler weather. Be sure to add nitrogen fertilizer to the soil. This escarole produces well-rounded, tightly packed, dark green heads with deeply blanched, succulent, creamy-white hearts. At has a mild, delicate flavour that is sure to win you over.
Packet $2.49 | 25 g $8.05 | 125 g $21.95 | 500 g $40.95

Early Green Moss Curled • 1695
90 days
750 seeds per packet. Fringed, emerald-green leaves make this attractive endive an excellent choice for salads. The tender, very sweet inner leaves are the real prize. Vigorous plants reach 37 cm or more in diameter by the end of the season.
Packet $2.49 | 25 g $8.05 | 125 g $21.95 | 500 g $40.95

A FACT TO GROW BY

"Endive" doesn't refer to just one plant! It's a name used for several leafy, pleasantly bitter greens in the chicory family (see page 16). A must-have for salad lovers and an attractive garnish.

Early Green Moss Curled

Organic | Heirloom (Time-tested variety) | Container (Great for pots) | Climbing (Requires staking/cage) | Disease Resistant | Premium Variety

Sow outdoors *May to September, 1 cm deep and 1 cm apart in rows 60 cm apart.*

Thin to *20 cm apart when seedlings are 5-10 cm tall.*

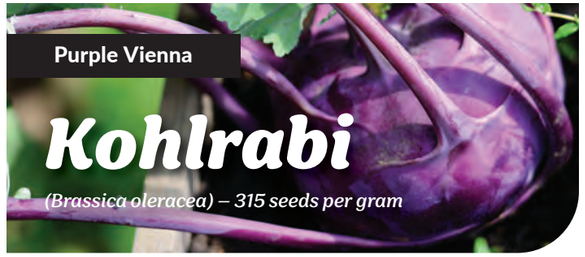
Pro Tip: *Kale is very cold tolerant and develops its best flavour after the first fall frosts. Protect with a floating row cover to extend the fall harvest.*

Dwarf Scotch Curled • 1700
75 days
400 seeds per packet. First noted in the early 1860s. Dwarf Scotch Curled is an exceptionally hardy, compact Scottish kale with a shorter growth habit, making it an excellent choice for windy sites. Finely curled blue-green leaves with white ribs make an attractive salad garnish. Mature plants grow to 30-40 cm tall.
Packet $2.19 | 25 g $7.50 | 125 g $18.75 | 500 g $42

Lacinato • 1702
50 days
400 seeds per packet. A distinctive, primitive-looking kale with strap-like, crinkled blue-green leaves measuring approximately 7.5 cm wide by 25 cm long. Plants can grow up to 1 m tall. Baby greens can be harvested from 30 days after planting, with fully mature, savoyed leaves ready soon after.
Packet $2.19 | 25 g $8.70 | 125 g $21.65 | 500 g $48.50 | 1 kg $69.25

Organic Red • 4087
50 days
380 seeds per packet. Produces abundant flat, toothed, grey-green leaves with a central purple-red stem. The red colour intensifies as temperatures cool in the fall, while the leaves turn a rich dark green when cooked. Tender and soft when braised, excellent in salads and ideal for making kale chips. Vitamin-rich and very winter hardy.
Packet $2.99 | 5 g $8 | 25 g $25

Red • 1703
50 days
400 seeds per packet. Produces abundant, flat, toothed, grey-green leaves with striking purple-red stems that deepen in colour as temperatures cool. Leaves cook to a rich dark green and are tender when braised. Delicious fresh in salads, perfect for kale chips, and exceptionally rich in vitamins. Very winter hardy.
Packet $2.19 | 25 g $8.70 | 125 g $21.65 | 500 g $48.50 | 1 kg $69.25



Sow outdoors *April to July, 1 cm deep and 2.5 cm apart in rows 40 cm apart.*

Thin to *10 cm apart when seedlings are 2-5 cm tall.*

Pro Tip: *When eaten raw, kohlrabi has a delicious, nutty flavour. For a milder taste, kohlrabi can be roasted, mashed, or pan-fried.*

Purple Vienna • 1705
60 days
300 seeds per packet. A purple-skinned, pre-1860 variety with greenish-white, crisp, mild-tasting flesh. Small tops and leaves make an attractive salad garnish. Irrigation is essential for the best growth and sweetest flavour. Successive sowings every two weeks from April through early August will extend your harvest.
Packet $2.19 | 25 g $7.50 | 125 g $18.75 | 500 g $39

White Vienna • 1710
55 days
300 seeds per packet. Large greenish-white bulbs are delicious raw on a veggie tray or in salads, soups and stews. Stays crisp, clean and tender for a long time in the garden without becoming pithy. Easy to grow as a spring or fall crop and stores well.
Packet $2.19 | 25 g $7.50 | 125 g $18.75 | 500 g $39

Sow indoors *February to March, 5 mm deep and 1 cm apart.*

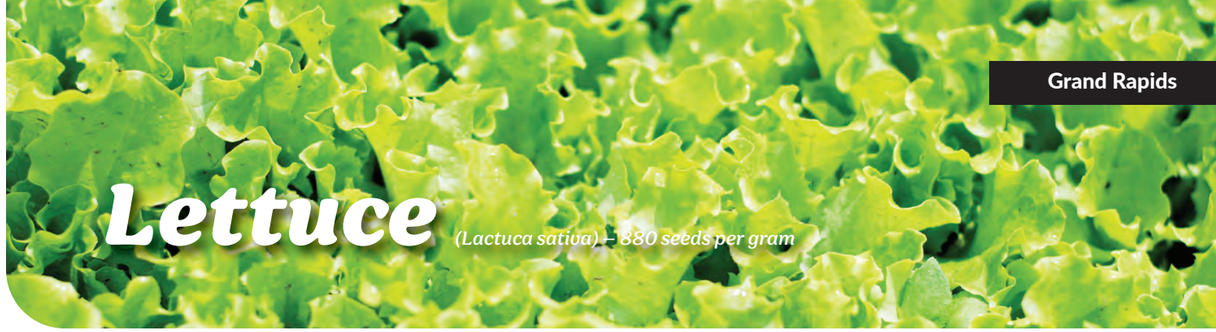
Transplant *out in late spring when plants are 20 cm tall, space 15 cm apart in rows 35 cm apart.*

Pro Tip: *Direct sow outdoors April to June for a fall harvest.*

Organic Giant Musselburg • 4089
90 days
450 seeds per packet. Medium green leaves with nicely elongated white stems measuring approximately 20 cm long and 6 cm in diameter. The mild-flavoured stems are delicious in pasta, soups and many other dishes. The thinner leaves can be used as a substitute for onions from early autumn into winter.
Packet $2.99 | 5 g $13 | 25 g $40.65

Giant Musselburg • 1785
90 days
400 seeds per packet. 20 cm long stems, with a mild flavour are excellent in soups and stews. Tender leaves make a great onion substitute.
Packet $2.19 | 25 g $8.75 | 125 g $31.25 | 500 g $65

Organic **Heirloom** (Time-tested variety) **Container** (Great for pots)



Sow outdoors *April to August, 3 mm deep and 5 mm apart in rows 45 cm apart.*

Thin to *10 cm apart when seedlings are 5-8 cm tall.*

Pro Tip: *Lettuce thrives in cooler temperatures. Summer heat can cause it to bolt and turn bitter.*

Leaf

Organic Amish Deer Tongue • 4102
31 days
1,000 seeds per packet. Medium green, triangular leaves with a slightly nutty flavour make excellent baby greens. Produces loose, upright heads with a crunchy heart. Slow to bolt.
Packet $3.59 | 25 g $25

Baby Leaf Blend • 1715
38 days
1,250 seeds per packet. A multi-coloured extravaganza of very tender, sweet, succulent greens with unique colours, shapes and flavours from our own special blend. Prized by gourmet chefs as an ideal mixture for sophisticated salad presentations. Contains Grand Rapids, Royal Red, Oakleaf, Salad Bowl, Ruby Red, Prizehead, Buttercrunch and Romaine lettuces, along with Spinach and Cicoria Catalogna.
Packet $2.19 | 25 g $8.35 | 125 g $28.35 | 500 g $75.60

Organic Black Seeded Simpson • 4090
45 days
1,000 seeds per packet. This heirloom from 1875 produces extra-large, crumpled, loose, light green leaves that retain their crisp texture longer than most other varieties. An extra-early producer.
Packet $2.99 | 25 g 12.50

Grand Rapids • 1720
45 days
1,900 seeds per packet. The reigning monarch of the leaf lettuce family since its introduction in the late 1800s. Crisp, succulent, pale green leaves are lightly crinkled with a delicate flavour. An excellent "cut-and-come-again" variety that provides multiple harvests. Can also be grown year-round in a cold frame, under grow lights or in a sunny window. A soilless, peat-based potting mix is recommended for indoor growing.
Packet $2.19 | 25 g $6.65 | 125 g $18.90 | 500 g $42.55 | 1 kg $63

Lolla Rossa

Lolla Rossa • 1727
55 days
2,200 seeds per packet. This Italian loose-leaf lettuce is admired for its dark red, tightly curled leaves that fade to a lighter green centre. Excellent as a garnish or for adding vibrant colour to salad blends. Lolla Rossa has a mild flavour and is slow to bolt, providing a longer harvest period.
Packet $2.19 | 25 g $7.90 | 125 g $22.50 | 500 g $50.65 | 1 kg $75

Oakleaf • 1725
40 days
1,900 seeds per packet. A heat-tolerant lettuce producing tight clusters of medium green, deeply lobed leaves resembling oak leaves. An excellent choice for later spring plantings in the home garden.
Packet $2.19 | 25 g $6.65 | 125 g $18.90 | 500 g $42.55 | 1 kg $63

Red Oakleaf • 1726
40 days
1,500 seeds per packet. A stunning red version of the ever-popular Green Oakleaf. Very heat tolerant and slow to bolt. Although commonly grown for harvesting at the baby leaf stage for fresh salads, it can also be grown to full-sized heads.
Packet $2.49 | 25 g $6.65 | 125 g $18.90 | 500 g $42.55 | 1 kg $63

Organic Red Salad Bowl • 4105
45 days
1,000 seeds per packet. A burgundy-red looseleaf lettuce with oak-leaf-type leaves. Especially tender with sweet, slightly spicy overtones. Produces colourful baby greens for vibrant salads.
Packet $3.59 | 25 g $31.25

Outrageous Red • 1741
50 days
2,400 seeds per packet. Forms a loose head with spectacular magenta-red colouring. Medium to large open heads feature deeply lobed leaves. An outstanding baby leaf variety that adds vibrant colour to any salad. Slow to bolt in summer heat while maintaining its mild, non-bitter flavour. Colour is most intense in cooler weather but remains attractive throughout the summer. Upright growth habit.
Packet $2.19 | 25 g $6.65 | 125 g $18.90 | 500 g $42.55 | 1 kg $63

Ruby Red • 1735
42 days
1,250 seeds per packet. Frilled leaves are bright green with striking deep red marbling. A crisp, sweet-flavoured leaf lettuce that performs well in hot weather without bolting quickly. Ruby Red extends the spring harvest by maintaining excellent quality under stressful growing conditions.
Packet $2.19 | 25 g $6.65 | 125 g $18.90 | 500 g $42.55 | 1 kg $63

Climbing (Requires staking/cage) **Disease Resistant** **Premium Variety**

Salad Bowl • 1740
45 days
1,250 seeds per packet. Introduced in 1952. Medium green leaves are long and deeply lobed with a tender texture and sweet flavour. Salad Bowl has good resistance to bolting and is relatively heat tolerant. An excellent choice for both spring and late summer plantings.
Packet $2.49 | 25 g $6.65 | 125 g $18.90 500 g $42.55 | 1 kg $63

Crisphead

Great Lakes • 1780
83 days
1,250 seeds per packet. Introduced in 1940 and still a favourite today. A vigorous, disease-resistant variety that produces well-formed, extra-crisp heads with outstanding crunch. Excellent for salads and sandwiches. Tolerates hot, dry weather better than most other varieties.
Packet $2.19 | 25 g $7.90 | 125 g $22.50 500 g $50.65 | 1 kg $75

Iceberg • 1775
78 days
1,700 seeds per packet. The classic heading lettuce, first introduced in 1894. Produces compact, medium green, firm heads with very few outer leaves and a large ice-white heart. Exceptionally crisp, succulent and tender. An all-time favourite.
Packet $2.19 | 25 g $6.65 | 125 g $18.90 500 g $42.55 | 1 kg $63

Pint Size • 1777
70 days
150 seeds per packet. Distinctive for its sweet flavour and crisp texture. Dark green outer leaves protect a bright green interior of neatly wrapped leaves surrounding a very small core. Compact plants produce one to two adorable 10-12 cm heads, making this an ideal choice for small gardens. Slow to bolt and resistant to Fusarium Race 1.
Packet $2.99 | 500 seeds $8.95 1,000 seeds $16.50

Butterhead

Bibb • 1745
60 days
1,250 seeds per packet. First offered in 1935. Valued for its deep green leaves with a tender yet crisp texture and a distinctly sweet, creamy flavour. Matures into small, compact rosettes. An excellent choice for early spring or late summer sowing.
Packet $2.19 | 25 g $6.65 | 125 g $18.90 500 g $42.55 | 1 kg $63

Organic Buttercrunch • 4095
65 days
1,000 seeds per packet. Medium green, crisp outer leaves are sweet, tender and free from bitterness. Hidden within the attractive rosette is a beautiful buttery heart. Heat tolerant and slow to bolt.
Packet $2.99 | 25 g $21.90

Buttercrunch • 1750
65 days
1,900 seeds per packet. Forms an attractive rosette of crisp, sweet, medium green leaves surrounding a tender, buttery heart. Slow to bolt and performs well in warm weather.
Packet $2.49 | 25 g $6.65 | 125 g $18.90 500 g $42.55 | 1 kg $63

Organic Marveille Four Seasons • 4100
50 days
1,000 seeds per packet. A French butterhead lettuce with Bibb-type rosette leaves. It is as delicious as it is attractive, producing robust heads with leaves in shades of bronze, gold, red and green.
Packet $2.99 | 25 g $31.25

Prizehead • 1755
45 days
1,700 seeds per packet. Produces loose, slightly crumpled, bright green leaves edged with brilliant red. Leaves remain tender and crisp with a rich, buttery flavour. Introduced in the 1800s.
Packet $2.19 | 25 g $6.65 | 125 g $18.90 500 g $42.55 | 1 kg $63

Organic Tom Thumb • 4098
34 days
1,000 seeds per packet. A miniature butterhead-type lettuce ideal for individual salads. Dark green, fleshy outer leaves surround a creamy yellow, mildly flavoured centre. Slow to bolt.
Packet $3.59 | 25 g $31.25

White Boston • 1760
76 days
1,900 seeds per packet. Introduced in the late 1940s. Neat, succulent, thick, light green leaves are exceptionally crisp and tender, forming a loose rosette with a buttery yellow centre. Plants mature to 20-25 cm under normal growing conditions. Slow to bolt.
Packet $2.19 | 25 g $6.65 | 125 g $18.90 500 g $42.55 | 1 kg $63

Romaine/Cos

Little Gem • 1771
55 days
1,900 seeds per packet. This mini-cos is a tiny, personal-sized lettuce renowned for its mildly sweet-flavour and ultra-crisp outer leaves. One of the earliest romaine types to mature, often ready in as little as 8 weeks. Resistant to common pests and diseases and, like other cos lettuces, highly heat tolerant. An ideal variety for successive sowings from spring through fall. Perfect for Caesar salads. Harvest when heads reach approximately 15 cm tall.
Packet $2.49 | 25 g $6.65 | 125 g $18.90 500 g $42.55 | 1 kg $63

Organic Parris Island • 4110
72 days
1,000 seeds per packet. Uniform, well-shaped heads average 25 cm tall with green outer leaves surrounding a creamy white heart. Our top choice for a dependable home garden romaine lettuce.
Packet $2.99 | 25 g $31.25

Organic | Heirloom (Time-tested variety) | Container (Great for pots)

Parris Island • 1770
72 days
1,900 seeds per packet. A classic romaine grown since the early 1800s. Well-shaped, 25 cm heads feature green outer leaves wrapped around a crisp, creamy white heart. Sweet-flavoured, slow to bolt, and tolerant of tip burn. An excellent choice for home gardeners.
Packet $2.49 | 25 g $6.65 | 125 g $18.90 | 500 g $42.55 | 1 kg $63

Red Romaine • 1765
72 days
1,250 seeds per packet. Crunchy with a rich, buttery flavour. Attractive green leaves are overlaid with deep burgundy colouring. Sweet, crisp heads grow to approximately 30 cm tall and are loosely wrapped. A colourful addition to salads and mesclun mixes.
Packet $2.19 | 25 g $6.65 | 125 g $18.90 | 500 g $42.55 | 1 kg $63

Sow outdoors *April to September, 3 mm deep and 5 mm apart in rows 45 cm apart.*

Thin to *10 cm apart when seedlings are 5-8 cm tall.*

Pro Tip: *Can be grown in the garden or in containers. Cut leaves 2.5 cm above the base when harvesting to encourage new leaf growth.*

Organic Mild Mix • 4115
25-40 days
1,000 seeds per packet. A well-balanced blend of mild flavours to suit every palate. Includes Ruby Red Lettuce, Grand Rapids Lettuce, Salad Bowl Lettuce, White Boston Lettuce, Lemon Basil, Bloomsdale Spinach, Summer Savory, Fordhook Swiss Chard and Red Romaine Lettuce.
Packet $2.99 | 25 g $31.25

Mild Mix • 1815
25-40 days
1,250 seeds per packet. A balanced mix of mild, complementary flavours for every taste. Includes Ruby Red Lettuce, Grand Rapids Lettuce, Salad Bowl Lettuce, White Boston Lettuce, Lemon Basil, Bloomsdale Spinach, Summer Savory, Fordhook Swiss Chard and Red Romaine Lettuce.
Packet $2.19 | 25 g $11.40 | 125 g $24.25 | 500 g $84.70

Salad Green Mix • 1805
25-40 days
1,250 seeds per packet. The ultimate assortment of unique salad greens and lettuces in one packet for a delightful culinary experience. Contains Bibb Lettuce, Salad Bowl Lettuce, Oakleaf Lettuce, Royal Red Lettuce, Cress, Pak Choi, Bull's Blood Beet, Bright Lights Swiss Chard and Italian Parsley.
Packet $2.19 | 25 g $11.40 | 125 g $24.25 | 500 g $84.70

Spicy Italian Mix • 1810
25-40 days
1,250 seeds per packet. A perfectly blended combination of spice and zest to tantalize your taste buds. Contains Oakleaf Lettuce, Buttercrunch Lettuce, Ruby Red Lettuce, Arugula, Chervil, Endive, Verona Red Radicchio, Mizuna Mustard, Florence Fennel, Peppercress and Thai Basil.
Packet $2.49 | 25 g $11.40 | 125 g $24.25 | 500 g $84.70

Sow outdoors *May to July, 12 mm deep and 2.5 cm apart in rows 60 cm apart.*

Thin to *25 cm apart when seedlings reach 5-7 cm tall.*

Pro Tip: *Not for human consumption. Mangel is primarily grown as livestock feed.*

Giant Red • 1790
90 days
125 seeds per packet. Also known as Fodder Beet, this variety produces massive reddish roots measuring 25-38 cm in diameter, making it an excellent choice for feeding cattle and swine. Grow as you would standard beets, but be prepared for its impressive size, with roots often reaching 30 cm or more in length. Performs best in nutrient-rich soil.
Packet $2.19 | 25 g $7.50 | 125 g $18.75 | 500 g $42

Climbing (Requires staking/cage) | Disease Resistant | Premium Variety

Onions *(Allium cepa) – 280 seeds per gram*

***Sow indoors** February, 1 cm deep and 1 cm apart.*

***Transplant outdoors** May to June, 10 cm apart in rows 40 cm apart.*

***Pro Tip:** Bend over any flower stalks that start to grow so that energy is directed into bulb production.*

Ailsa Craig • 1840
110 days
150 seeds per packet. A classic, yellow-skinned Spanish onion with round to teardrop-shaped bulbs that can reach an impressive 2.27 kg in weight and 20 cm in diameter. The flesh is mild and sweet, making it an excellent choice for fresh use rather than long-term storage.
Packet $3.49 | 10 g $13.20 | 25 g $24.75 | 125 g $82.50

Early Yellow Globe • 1820
98 days
500 seeds per packet. Produces medium-sized, globe-shaped bulbs with light brown skin. The solid yellow flesh has a very mild, sweet flavour. Heavy yielding, uniform in size and an excellent cooking onion. Stores well through the winter.
Packet $2.19 | 25 g $9 | 125 g $30 | 500 g $78

Frontier Hybrid • 1834
95 days
30 seeds per packet. Our top long-day onion for shorter growing seasons. Produces large, uniform, golden-skinned bulbs with a flattened globe shape and thin necks for consistent curing and excellent storage. Offers outstanding resistance to Downy Mildew, Fusarium Basal Rot and Botrytis.
Packet $2.99 | 1,000 seeds $18.70 | 2,000 seeds $29.90

Red Globe • 1825
100 days
500 seeds per packet. First released in 1873 and still one of the finest red onions available. Medium-sized, globe-shaped bulbs feature deep burgundy-red skin and firm pink-red flesh. One of the best storing red onions and an excellent long-day variety for northern gardens.
Packet $2.49 | 25 g $9 | 125 g $30 | 500 g $78

Walla Walla • 1835
125 days
450 seeds per packet. Walla Walla is very cold hardy, super sweet variety. It produces large, crisp, yellow-fleshed, exceptionally sweet onions ranging from 5-15 cm in diameter. Best enjoyed fresh, as it is not a long-term storage variety.
Packet $3.49 | 10 g $13.20 | 25 g $24.75 | 125 g $82.50

White Pickling • 1845
70 days
500 seeds per packet. Introduced in 1845. Produces small, round, white onions with firm, fine-grained flesh and a mild, pleasing flavour. Widely used for pickling and the cocktail trade but can also be harvested young as green bunching onions. Stores well.
Packet $2.99 | 25 g $9 | 125 g $30 | 500 g $78

White Sweet Spanish • 1850
110 days
500 seeds per packet. A long-day onion well suited to northern gardens. Produces medium, globe-shaped bulbs with pure white skin and flesh. Sweet, juicy and full of flavour with just a hint of spice. Medium storage life.
Packet $2.49 | 25 g $9 | 125 g $30 | 500 g $78

Early Yellow Globe

White Sweet Spanish

Red Globe

Sweet Spanish Utah

Organic **Heirloom** (Time-tested variety) **Container** (Great for pots)

Sweet Spanish Utah • 1860
110 days
500 seeds per packet. Our best medium sized onion. Produces bright golden, globe-shaped bulbs with a mild, sweet flavour. The flesh is firm, clear, juicy and tender. Under ideal growing conditions, bulbs can exceed 1 kg at harvest.
Packet $2.49 | 25 g $9 | 125 g $30 | 500 g $78

Bunching Onions

Bunching onions can be started indoors in February, or direct sown outdoors in April for a harvest of smaller bunches.

Brigade • 1833 ***NEW FOR 2027***
65 days
400 seeds per packet. Produces upright, dark green leaves with slender white stalks and a mild, fresh flavour. This reliable bunching onion is ideal for adding colour and a delicate onion taste to salads, soups, stir-fries and a wide variety of other dishes.
Packet $2.49 | 1,000 seeds $7.95 | 2,000 seeds $11.95

Organic Evergreen Bunching • 4125
64 days
400 seeds per packet. Produces green leaves with long white stalks and a mild flavour. Also known as scallions, they are ideal for adding fresh flavour and colour to salads, soups, stews and a wide variety of other dishes.
Packet $2.99 | 5 g $21 | 25 g $75

Southport White Bunching • 1830
64 days
500 seeds per packet. An excellent white bunching onion well adapted to northern growing regions. Its mild flavour makes it a great addition to soups and stir-fries. An excellent choice for direct seeding due to its rapid maturity and good storage quality.
Packet $2.19 | 25 g $10.50 | 125 g $35 | 500 g $91

White Gem Hybrid • 1832
62 days
500 seeds per packet. Produces attractive white shanks with minimal bulbing and dark green foliage. Extremely uniform growth allows for easy harvesting and cleaning. Suitable for both summer and fall harvests. The top-performing bunching onion in our trials.
Packet $3.49

Onion & Garlic Sets

***Plant outdoors** 1-2 cm deep, spacing 10-15 cm apart in rows 30 cm apart.*

***Pro Tip:** Store in a cool, dry, and dark location until ready to plant. When possible, remove packaging and spread in a single layer to allow for airflow.*

Sets available in 500 g and 2 kg sizes. Onion Sets and Softneck Garlic ship in April once the risk of freezing in transit has passed.

Hardneck Garlic ships September.

Please refer to the website for availability and pricing mid to late March.

Onion

Multiplier Sets • 2500
Single bulbs produce 6-8 mild-flavoured green bunching onions in a tight, clean cluster.

Shallot Sets • 2503
A gourmet chef's delight. A single bulb will split off to produce anywhere from 3 to 10 bulbs. Mild tasting with a hint of garlic. Superb!

Spanish Sets • 2505
Large, elongated bulbs with light brown skin and a delicious, mild, sweet flavour. Excellent for summer use or short-term storage.

Yellow Dutch Sets • 2510
Smooth brown skin with firm, sweet, yellowish flesh. An excellent storage onion.

White Sets • 2515
Produces stout bulbs with clear white skin, white flesh and a strong flavour.

Garlic

***Sow outdoors** about 5 cm deep and 20 cm apart.*

***Pro Tip:** Gently crack the bulbs into individual cloves, planting with the pointed end facing up.*

Softneck Spring Garlic • 2520
Mild flavour and good winter storage when properly cured. Soft dried stems and leaves make for easy braiding. Treated as an annual crop in much of Canada.

Music Fall Garlic • 2525
A premium hardneck variety grown right here in Ontario. Known for its traditional, bold taste, this garlic is a great addition to any garden!

Duganski Fall Garlic • 2526
Consistent bulb sizes and vibrant purple-striped wrappers make it as beautiful as it is delicious. It delivers an initial fiery burst of heat when eaten raw that mellows beautifully into a rich, earthy flavour when cooked.

Climbing (Requires staking/cage) **Disease Resistant** **Premium Variety**

Sow outdoors *April to August, 1 cm deep and 2.5 cm apart in rows 60 cm apart.*

Thin to *15 cm apart when seedlings have 3-4 true leaves.*

Pro Tip: *Harvest as baby greens, or leaves from mature plants as needed.*

Giant Red • 2580
45 days
800 seeds per packet. Large, deep purple-red leaves with white mid-rib are tender and thick with a mustard pungency. Great in salads. Sow spring or fall.
Packet $2.19 | 125 g $20.95 | 500 g $65.65

Southern Giant Curled • 1795
30 days
500 seeds per packet. Fast-growing plants reach approximately 40 cm tall and produce abundant deeply frilled, finely cut, medium green leaves. Young leaves have a mild flavour that develops into a pungent mustard taste as they mature. An excellent addition to fresh salads.
Packet $2.49 | 25 g $8.75 | 125 g $17.50 | 500 g $45.50

Giant Red

Sow outdoors *May to June, 1 cm deep and 5 cm apart in rows 30 cm apart.*

Thin to *7 cm apart when seedlings are 5-8 cm tall.*

Pro Tip: *Harvest in the fall and early winter after cold has brought out the best flavours.*

Hollow Crown Improved • 1880
105 days
325 seeds per packet. Produces long, smooth, tender, sugary roots that can reach up to 30 cm in length and 7.5 cm across at the shoulder. Germination requires patience and may take up to three weeks. For the best flavour, leave roots in the ground until after several frosts, as exposure to cold greatly improves their sweetness. Harvesting in November or December produces the finest flavour.
Packet $2.19 | 25 g $7.50 | 125 g $18.75 | 500 g $39

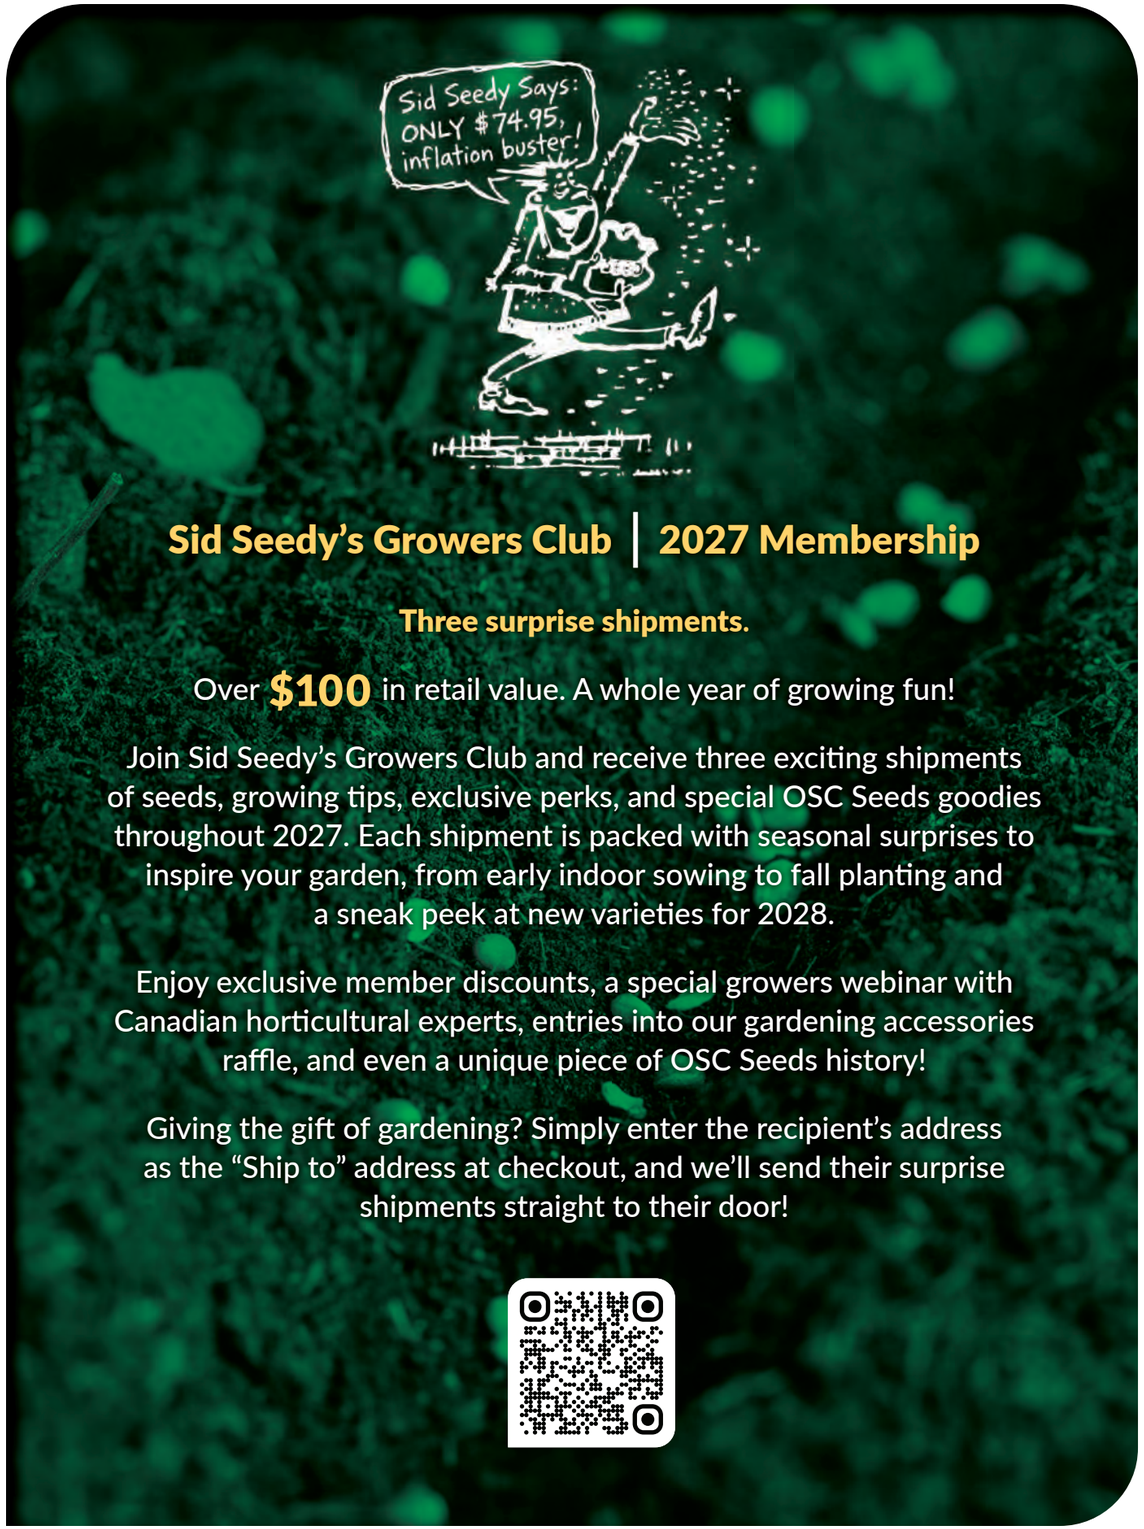
Sow outdoors *May to June, 5 cm deep and 12 cm apart in rows 90 cm apart.*

Thin to *25 cm after seedlings have their first set of true leaves.*

Pro Tip: *Dig up entire plant and air dry to cure the peanuts before removing pods and roasting.*

A Canadian original from our friend and pioneer, Jim Picard Sr. It is grown right here in Ontario. Have fun and try some in your own backyard.

Valencia • 1885
120 days
25-30 seeds per packet. Yes, you can grow your own peanuts. We have Valencia seed peanuts, which are an ideal variety for growing in southern Ontario and other long growing season areas of Canada. The variation in seed size is due to differences in growing and curing conditions between crop lots.
Packet $2.99 | 125 g $12.90 | 500 g $27.95



Organic **Heirloom** (Time-tested variety) **Container** (Great for pots)

Peas *(Pisum sativum) – 3 seeds per gram*

***Sow outdoors** April to May, 2.5 cm deep and 6 cm apart in rows 40 cm apart, or in 120 cm squares, spacing peas 6.5 cm apart within the block.*

***Pro Tip:** Sow every two weeks while weather is cool for a continuous harvest, and again in mid August for a fall crop.*

Do peas need staking? Some varieties grow tall and require a sturdy fence, trellis, or netting. Though dwarf varieties can be left unsupported, providing light staking or netting helps keep plants upright, improve circulation, and make picking easier!

Early/Main Season

Alaska • 1960L
65 days
70-100 seeds per packet. Introduces in the 1880s. An early producing pea suited to freezing and canning. Enjoys being planted early May for a bumper crop. Slim, light green, straight but blunt ended pods are filled with 6-8 light green, very sweet peas. A reliable and consistent performer and a favourite of both home gardeners and commercial growers alike. Grows to 60-90 cm. Stake for easier picking.
Large Packet $3.49 | 250 g $7.95 | 2 kg $39.60
10 kg $103 | 25 kg $198

Early Frosty • 1959L
65 days
70-100 seeds per packet. Very sweet and delicious with wonderful eating quality, high yields and large harvests. Vines grow to 75 cm and yield 8 cm pods filled with 6-7 medium sized peas. Tasty right off the vine and perfect for freezing. Holds well after harvest.
Large Packet $2.99 | 250 g $7.95 | 2 kg $39.60
10 kg $103 | 25 kg $198

Laxton's Progress No. 9

Green Arrow • 1970L
62 days
70-100 seeds per packet. Heavy yielding, fast growing vines 60 cm high, produce long, bright green pods containing up to 10 very sweet tasting peas. Pods are borne in pairs at the top of vines for easy picking. Excellent fresh or frozen and our number one choice for freezing! Tolerant to Fusarium, Powdery Mildew and Leaf Curl.
Large Packet $3.49 | 250 g $7.95 | 2 kg $39.60
10 kg $103 | 25 kg $198

Homesteader or Lincoln • 1975L
64 days
70-100 seeds per packet. Early 1900's introduction. There is no sweeter, more delicious pea in our gardens than this one! Well-filled, slightly curved, slender dark green pods each contain 7-9 large, mouth-watering, very sweet, deep green peas. Tremendously productive and excellent fresh or for freezing. Grows up to 75 cm in height.
Large Packet $3.49 | 250 g $7.95 | 2 kg $39.60
10 kg $103 | 25 kg $198

Organic Laxton's Progress No. 9 • 4135
62 days
50 seeds per packet. Heirloom introduced in the 1930's. A dependable, vigorously growing plant 45 cm high and loaded with large 11 cm pods filled with 8-10 large, deep green, succulent peas. The uniform pods are easy to pick and remain tender even at larger sizes. Ideal for market and roadside stands.
Packet $3.59 | 250 g $13

Laxton's Progress No. 9 • 1980L
62 days
70-100 seeds per packet. Dating back to the 1930s, this reliable pea grows to 45 cm and produces abundant, well-filled 11 cm pods with 8-10 large, deep green peas. The tender, uniform pods are easy to harvest and well suited for home gardens, market growers, and roadside stands.
Large Packet $3.49 | 250 g $8.15 | 2 kg $40.60
10 kg $105.60 | 25 kg $203

Little Marvel • 1985L
63 days
70-100 seeds per packet. Originated in England at the turn of the 20th century and was a 1934 All America Selections winner. This exquisitely sweet, old favourite deserves a place in every home garden. Dwarf vines 45 cm tall produce deep green, nearly round pods 7.5 cm long, are tightly packed with 7-8 very tender, luscious peas. A good freezing variety – that is if you don't eat them all straight from the garden!
Large Packet $3.49 | 250 g $8.15 | 2 kg $40.60
10 kg $105.60 | 25 kg $203

Snow Pod

The tender succulent freshness of a snap bean with the juicy flesh of green peas. Indispensable in Asian dishes and stir-fries. Pick when pods are small and flat.

Dwarf Grey Sugar • 2005L
65 days
70-100 seeds per packet. An edible pod pea first introduced sometime before the early 1890s. The earliest maturing, most dwarf snow pea, producing 6 cm long, fibre-free pods that are light green, curved, sweet and succulent. For best quality, pods must be harvested before they develop large peas. At only 60-75 cm tall, this good yielding pea does not need staking.
Large Packet $2.99 | 250 g $7.95 | 2 kg $39.60
10 kg $103 | 25 kg $198

Little Purple • 2007L
52 days
70-100 seeds per packet. These peas are as attractive as they are tasty! Compact space saving 60 cm plants are loaded with pretty purple, delicate flowers that produce bright-green, flat, sweet, crunchy pods filled with tiny peas inside. Perfect for smaller gardens or containers.
Large Packet $3.99

Organic Oregon Sugar Pod • 4140
60 days
50 seeds per packet. Very sweet and crunchy 10 cm long, light green pods about 2 cm wide. Suitable for eating fresh, stir-fried or for freezing. Resistant to many viruses, powdery mildew and common wilt. Plants vary in height from 40-75 cm. White flowers.
Packet $3.59 | 250 g $13

Oregon Sugar Pod II • 2000L
60 day
70-100 seeds per packet. Produces sweet, crisp, light green pods measuring approximately 10 cm long and 2 cm wide. Pods are typically borne in pairs for easy harvesting. Excellent fresh, stir-fried, or frozen. Plants grow 40–75 cm tall with white flowers and offer resistance to many viruses, powdery mildew, and common wilt.
Large Packet $3.99 | 250 g $7.60 | 2 kg $37.80
10 kg $98.30 | 25 kg $189

Sugar Snap

Unique and tasty with a crisp, sugary sweet succulence.

Sugar Lace II • 2011
68 days
50 seeds per packet. A sugar snap variety producing stringless, plump, very sweet 8.5 cm long pods. Sturdy vines can grow to 75 cm. Heavy yielding variety with great disease resistance. Semi-leafless vines make picking the tasty pods a breeze!
Packet $3.29

Sugar Snap • 2010L
70 days
70-100 seeds per packet. #1 All Time AAS Winner. An edible podded pea with a flavour and texture that tastes terrific! Features 7.5 cm long, round pods with thick, fleshy walls and crunchy sweetness. Wilt resistant vines grow 120-180 cm tall and are best supported on a trellis or fence - which makes the pods easier to eat straight from the vine.
Large Packet $3.99 | 250 g $8.15 | 2 kg $40.60
10 kg $105.60 | 25 kg $203

Check out our pea collections
on page 55 and SAVE 20%

A FACT TO GROW BY

Heat stress can cause sugar snap peas to grow pods that are thicker and less sweet, similar to shelling peas. Typically, this resolves once temperatures cool again!

Peppers *(Capsicum annuum) – 160 seeds per gram*

***Sow indoors** February to March, 5 mm deep and 6 cm apart.*

***Transplant outdoors** June, spacing plants 35 cm apart in rows 60 cm apart.*

***Pro Tip:** Try harvesting the peppers at different maturities to experience a wider range of flavours and textures.*

Scoville Heat Units

The Scoville Heat Unit (SHU) rating is your guide to the perceived hotness of peppers caused by the active component capsaicin. Our hottest pepper is the Caribbean Red Hot which reaches up to 400,000 SHU! Try harvesting the peppers at different maturities to experience a wider range of flavours and textures.

Sweet

Organic California Wonder • 4145
75 days
25 seeds per packet. Probably the nicest looking and best tasting standard bell pepper. Bears heavy, smooth skinned, 4-lobed fruits averaging 11 cm long and 8 cm wide. The sweet, juicy flesh is thick and solid starting as a deep green and ripening to a deep scarlet. Sturdy 75 cm plants are perfect for the garden or container growing.
Packet $3.59 | 5 g $30 | 25 g $75

Early Calwonder • 1945
75 days
25 seeds per packet. A dependable, early bell pepper producing heavy crops of smooth, 4-lobed fruits averaging 10 cm long and 8 cm wide. Thick, juicy flesh is sweet and begins deep green before ripening to rich scarlet red. Sturdy 75 cm plants perform well in both gardens and containers.
Packet $2.19 | 10 g $8.75 | 25 g $13.15 | 125 g $43.75

Summer Red Hybrid

Encore Hybrid • 1943
70 days
15 seeds per packet. A deliciously crunchy sweet bell pepper with flavour as big as its size. Extra-large, 4-lobed, 14 cm fruits are smooth, thick walled and can be harvested green or left to turn red later in the season. Tall upright plants; strong virus tolerance.
Packet $3.99 | 200 seeds $39

Golden Calwonder • 1950
75 days
25 seeds per packet. Golden Cal Wonder is a very sweet, blocky-shaped, 4-lobed bell pepper with thick flesh and 10 cm diameter fruits which ripen from medium green to golden yellow to deep orange. Heavy bearing, strong compact plants average 60-75 cm in height.
Packet $2.99 | 10 g $9 | 25 g $13.50 | 125 g $45

Orange Sun • 1900
70 days
15 seeds per packet. Beautiful bright orange, big blocky, 4-lobed peppers averaging 10 x 12 cm size. Very sweet, thick walled with a juicy crunch. Sturdy, erect, 60 cm plants quickly produce an abundant harvest. Perfect for salsa, roasting and salads.
Packet $2.99 | 200 seeds $32.50

Summer Red Hybrid • 1955
70 days
15 seeds per packet. Summer Red is a great looking, slightly blocky, 4-lobed, bell-shaped fruit 11 x 10 cm size with a thick wall and sweet taste. The fruit will mature from green to a beautiful solid red. Amazingly productive in short growing seasons and possesses excellent disease resistance. It's everything a home gardener desires and more!
Packet $2.99 | 200 seeds $30

Sweet Cubanelle • 1910
65 days
25 seeds per packet. Sweet Cubanelle is a large, ramshorn, elongated bell-type pepper with a smooth skin, and an interesting lime green colour. Fruits average 15 x 5 cm. Medium thick flesh has a sweet but characteristic flavour that develops as the fruit ripens to yellow then finishes to red. A superb pepper that is often overlooked.
Packet $2.19 | 10 g $9 | 25 g $13.50 | 125 g $45

Cayenne Blend • 1924
70 days
40 seeds per packet. This brightly coloured blend of golden, orange, purple, and green mildly hot peppers will make your dishes an eye-catching, mouth-watering treat. Good for pickling too! Peppers average 15 x 1.25 cm wide.
Packet $2.99 | 200 seeds $25.65 | 500 seeds $44

Golden Greek Pepperoncini • 1917
72 days
10-15 seeds per packet. Beautifully slim, mildly hot, dimpled peppers turn from light yellow-green to bright yellow then red if left on the plants. Harvest and use for pickling when yellow. Similar to the supermarket picked peppers. Excellent for Greek salads. SHU 1,000.
Packet $3.49

Gypsy Hybrid • 1890
65 days
15 seeds per packet. AAS Winner. Produces loads of 3-lobed, fruits 10 x 5 cm wide with a crisp, sweet flesh. These peppers slowly turn from a yellow-green to red as they mature. Early, productive and compact, this is an excellent variety to choose if you are only going to grow one variety of pepper. Good disease resistance. Best choice for gardens with limited space or container planting.
Packet $3.99 | 200 seeds $43.75

Purple Beauty

Hungarian Yellow Sweet Banana • 1915
72 days
25 seeds per packet. Enjoy an abundance of bright, waxy-yellow fruits 20 x 5 cm with a delightful shine that typically changes to bright scarlet red as they mature. These stocky plants, 50 cm tall, produce a heavy yield of fruit. Depending on growing conditions, this pepper may mature to a brilliant, sunshine yellow or a more subtle lemon yellow. Excellent for preserves such as pickling, in-oil antipasti or canning.
Packet $2.19 | 10 g $11 | 25 g $16.50 | 125 g $55

Marconi Rosso • 1895
70 days
25 seeds per packet. Marconi Rosso is an Italian ramshorn variety that produces great-tasting, thick-walled, very juicy, 4-lobed fruits. The very sweet peppers ripen from a dark green to dark red and average 18 x 6 cm. Known for its wildly shaped fruit and great taste!
Packet $2.19 | 10 g $17.50 | 25 g $26.25 | 125 g $87.50
500 g $227.50

Purple Beauty • 1902
75 days
25 seeds per packet. A uniquely coloured, open-pollinated pepper that all home gardeners will enjoy. Compact, bushy plants are loaded with 3-4 lobed blocky fruits which mature from green to a spectacular bright purple colour in approximately 75 days from transplanting in the garden. Thick-walled fruits average 9 cm length and have a sweet, mild flavour that complements any dish.
Packet $3.49 | 200 seeds $24

Handling Hot Peppers

Capsaicin is the active compound in hot peppers that causes a burning sensation. Many people wear gloves when cutting or handling them but more importantly you MUST wash your hands thoroughly afterwards to avoid transferring capsaicin to sensitive areas of the body. Rubbing alcohol or vinegar mixed with soap and water can effectively dissolve the oil to stop the sensation if you experience burning on your hands.

Anaheim • 1920
74 days
25 seeds per packet. These tasty, mildly hot salsa peppers average 20 x 5 cm. Fruits are well protected by robust foliage on upright, bushy plants. Green fruits will turn red at full maturity if left on the plant. Delicious roasted or used for Chile Rellenos (whole, batter-fried chiles stuffed with meat or cheese). Perfect for salads or fried dishes. ***SHU 500-2,500.***
Packet $2.19 | 10 g $11 | 25 g $16.50 | 125 g $55

Caribbean Red Hot • 1921
72 days
25 seeds per packet. Enjoy a taste of the islands with this blazing, fiery hot pepper. We're not kidding about the heat, these peppers pack a mouth and eye watering punch! Handle both the seeds and fruit with care and wash your hands after handling seeds or peppers. Light green peppers, about 4 x 5 cm in size with a wrinkled texture turn bright orange-red when mature. ***SHU 400,000.***
Packet $3.49 | 10 g $50 | 25 g $75

Carranza Hybrid/Ancho Poblano Type • 1923
70 days
12-15 seeds per packet. Large size, glossy green Ancho Poblano peppers reaching 16 x 7 cm with a fresh, sweet taste and just the right touch of heat for any palete. Performs very well in the heat of summer. Enjoy fresh or dried. ***SHU up to 3,000.***
Packet $3.99 | 200 seeds $39

Durango Hybrid • 1928
70 days
15 seeds per packet. (Guajillo type). Strong, healthy plants with very good yield potential. Fruits mature to bright red then dry to a deep burgundy or black. They reach up to 20 cm in length, with a slightly broader shoulder and classic medium hot, sweet chili flavour. Guajillo types can be harvested and used fresh in salsa or dried and later ground into powder for making sauces, spreads or rubs. A great garden performer with excellent disease resistance. ***SHU 2,500-5,000.***
Packet $3.99 | 200 seeds $25.65

Fruity Volcano • 1931
75 days
20 seeds per packet. A beautiful combination of colourful, uniquely wrinkled 7 cm fruits with a tasty but hot, fruity flavour. Spice up any dish with these long, slender fruits sliced in hot salads, chopped in salsa dishes or dried and ground into sauces. Plants mature to 30-45 cm in height. ***SHU 100,000-125,000.***
Packet $2.99 | 200 seeds $21.50

Habanero Orange • 1936
70 days
35 seeds per packet. Scorching hot fruits with a touch of citrus overtones are lantern shaped and about 2.5 x 3.75 cm with thin wrinkled flesh that turns from light green to orange when ripe. Germination of the seed is slow and warm conditions of 26 °C is necessary for best results. ***SHU 250,000.***
Packet $2.99 | 10 g $32 | 25 g $60

Hungarian Yellow Wax • 1925
65 days
25 seeds per packet. A is moderately hot pepper, this dwarf bushy plant grows about 45 cm high and is a prolific producer. Peppers are about 15 cm in length and about 5 cm thick at the shoulder before tapering slightly to the bottom. Yellow wax is a favourite for frying and makes a very pretty pickled pepper! Continues to produce fruit even in cooler weather, making it a great choice for northern gardeners. ***SHU 4,000.***
Packet $2.19 | 10 g $11 | 25 g $16.50 | 125 g $55

Organic Jalapeño • 4152
70 days
25 seeds per packet. Jalapeño has a moderately intense heat with some years producing peppers hotter than others. Irregular sized fruit, averaging 9 x 4 cm are produced in abundance on 60 cm tall plants. Thick walled, very pungent and flavourful dark green fruits turn red at maturity. Great for pickling. ***SHU 6,000.***
Packet $3.59 | 5 g $45

Jalapeño • 1930
70 days
25 seeds per packet. Produces abundant, thick-walled peppers averaging 9 cm long and 4 cm wide on sturdy 60 cm plants. Dark green fruits ripen to bright red and deliver the classic jalapeño flavour with moderate heat, though pungency can vary from season to season. Excellent for salsa, dips, and pickling. ***SHU 6,000.***

Pumpkins *(Cucurbita pepo) – 5-8 seeds per gram*

***Sow outdoors** late May to June, 2.5 cm deep and 65 cm apart in rows 2.4 m apart.*

***Thin to** 3 plants per hill when seedlings are 5-8 cm tall.*

***Pro Tip:** Pumpkins do not transplant well. If starting early indoors use plantable pots to limit transplant shock.*

Giant & Large

Tips for Growing Bigger Pumpkins

- *Choose a location with plenty of sunlight*
- *Keep the soil well-watered but not soggy*
- *Use a high nitrogen fertilizer to promote early growth*
- *Pick off squash bugs and their eggs from under leaves*
- *Allow only 1-2 pumpkins per plant to mature.*

Atlantic Giant • 2015
120 days
8 seeds per packet. Without a doubt, Atlantic Giant is one of the world's largest-growing pumpkin varieties. Developed by Mr. Howard Dill of Nova Scotia, this giant has won numerous world titles for largest pumpkin, often weighing in excess of 680 kg. Even under normal conditions in the average home garden, this monster is still capable of outstanding performance!
Packet $3.49 | 25 g $22.50 | 125 g $64.70 | 500 g $157.50

Organic Big Max • 4155
120 days
20 seeds per packet. You may need help when it's time to bring these beauties in from the garden. Big Max lives up to its name by producing large pumpkins, reliably in the 20 kg range. When growing conditions are ideal, this pumpkin will produce fruit that weighs more than 45 kg and measure up to 175 cm in diameter. Fruits have a "flattened" appearance. The skin is pinkish orange and very thick.
Packet $2.99 | 25 g $17.50

Small Sugar or Pie

Big Max • 2045
120 days
20 seeds per packet. Grow a true garden giant! Big Max reliably produces pumpkins around 20 kg. Under ideal conditions they can yield enormous fruits exceeding 45 kg and measuring up to 175 cm across. The flattened, pinkish-orange pumpkins have exceptionally thick skins and are perfect for fall displays.
Packet $2.19 | 25 g $10.70 | 125 g $29.70 | 500 g $66.50 | 1 kg $95

Novelty

Jack-Be-Little • 2030
95 days
10 seeds per packet. Jack-Be Little produces miniature pumpkins, approximately 5 cm tall, 7.5 cm in diameter, with an appealing miniature appearance! Although they are edible, they are most often used for table decorations and miniature Jack O'Lanterns. When properly cured, these pumpkins will last up to eight months.
Packet $3.49 | 10 g $10 | 25 g $20

Lumina • 2035
95 days
8-10 seeds per packet. The ghost and goblins will be hanging around your pumpkin patch well before Halloween if they discover the large white pumpkins this variety produces. Growing to 20-25 cm in diameter and weighing in at 5-7 kg, these pumpkins are perfect for carving or for painting designs on. Harvest in September for better white colour as environmental stress later in the season may cause a blue tinge on the skin.
Packet $3.49 | 10 g $15 | 25 g $30

Pumpkin Patch Mix • 2065
90-110 days
20 seeds per packet. An exciting blend of ornamental, Jack O'Lantern, and miniature pumpkins for the kids to decorate or for the holiday table. Small Sugar, Howden, Jack O'Lantern and Lumina, all in one packet! You'll love the diversity of this unique blend.
Packet $2.19 | 25 g $9.80 | 125 g $27.20 | 500 g $60.90 | 1 kg $87

Pie

Fairytale • 2020
100 days
20 seeds per packet. Fairytale is an old variety of baking pumpkin from the south of France. Gorgeous, big, flat fruits are heavily ribbed and look amazingly similar to a big block of cheese. Fruits average 9 kg and ripen to a rich mahogany brown when fully mature. Deep orange flesh is fine-grained and great for making soups, pies, tarts, dumplings, and gnocchi. Introduced here just before the 1900s but grown in France long before that.
Packet $3.49 | 25 g $25 | 125 g $71.90 | 500 g $175

Musquee de Provence • 2036
120 days
12 seeds per packet. Variety originated in France. Fruits grow to 10 kg shaped like a large, heavily lobed cheese wheel. Skin is a beautiful, rich brown colour when ripe. Flesh is deep orange with a smooth texture and very sweet taste. Dried seeds are great roasted too!
Packet $3.49 | 10 g $7.50 | 25 g $15

Organic Small Sugar or Pie • 4160
110 days
Seed size varies. 15 seeds per packet. Whether this pumpkin goes by "Small Sugar" or "Pie" there's no denying it is a sweetie! Bright orange flesh is finely grained, meaty and just perfect for pumpkin pies like Grandma used to make! Produces a large crop of round fruits 20-25 cm in diameter that store quite well. A New England variety introduced by the 1880s.
Packet $2.99 | 25 g $17.50

Small Sugar or Pie • 2070
110 days
15 seeds per packet. A classic pie pumpkin introduced in New England during the 1880s. Produces plentiful round fruits 20–25 cm in diameter with thick, finely textured, bright orange flesh that's sweet, flavourful, and perfect for pies, soups, and baking. Stores exceptionally well.
Packet $2.99 | 25 g $7.30 | 125 g $20.25 | 500 g $45.35 | 1 kg $64.75

Carving

Aspen Hybrid • 2040
85 days
20 seeds per packet. Aspen is a semi-bush variety producing 3 to 5 nicely sized pumpkins per vine. Globe-shaped fruits are a dark orange colour averaging 8-9 kg and 25 cm across. Aspen produces a strong, sturdy handle and stores quite well. Great for short seasons and perfect for roadside markets or the backyard garden.
Packet $3.99 | 250 seeds $18.75

Connecticut Field • 2050
120 days
20-25 seeds per packet. Well known in Ontario as a good processing pumpkin for pies or Halloween Jack O'Lanterns. Fruits have a deep orange skin and a thick, fine-grained, sweet yellow flesh. This variety regularly produces 11 kg pumpkins up to 50 cm in diameter that are a flat, globe shape with little ribbing. One of the oldest heirloom pumpkin varieties that has been grown since at least the early 1700s.
Packet $2.19 | 25 g $7.30 | 125 g $20.25 | 500 g $45.35 | 1 kg $64.75

Howden • 2055
115 days
20 seeds per packet. A longtime garden favourite grown from John Howden's original seed stock. Uniform, dark orange pumpkins easily average 11 kg. The deeply rounded pumpkins have solid, thick flesh and are a good storage pumpkin. An excellent choice for the Halloween trade. Tolerant to black rot.
Packet $2.99 | 25 g $8.45 | 125 g $23.50 | 500 g $52.60 | 1 kg $75.10

Jack O'Lantern • 2060
75 days
25 seeds per packet. Specially developed for Halloween carving with its round to elongated fruits averaging 4.5 kg with a bright orange, smooth, firm skin. Makes a good pie or baking pumpkin too with its fine-grained, sweet flesh.
Packet $2.19 | 25 g $7.30 | 125 g $20.25 | 500 g $45.35 | 1 kg $64.75

Neon Hybrid • 2080
65 days
10 seeds per packet. Extra early! Neon produces perfectly shaped, beautifully coloured 3-3.5 kg pumpkins that mature to their solid orange colour faster than any other variety in our gardens. Fruits average 17-20 cm in diameter. Very uniform, semi-bush plants do not take up that much space. Excellent for short season areas.
Packet $3.49 | 50 seeds $12.50 | 250 seeds $38.75

Summer

Organic Cherry Belle • 4165
21 days
350 seeds per packet. Introduced in 1949. A delightful, cherry red root that has solid, crisp, very sweet and mild tasting white flesh. An extra early variety that forces well under glass and maintains its good eating quality for an extended period. Ideal for late spring/early summer plantings.
Packet $3.59 | 25 g $18.75

Cherry Belle • 2085
21 days
400 seeds per packet. Excellent for late spring and early summer crops, this classic 1949 introduction produces bright cherry-red roots with crisp, firm, white flesh and a sweet, mild flavour. Early maturing and well suited to forcing under glass, it remains tender and delicious long after reaching harvest size.
Packet $2.19 | 25 g $6.45 | 125 g $13.80 | 500 g $25.75 | 1 kg $36.75

Early Scarlet Globe • 2090
24 days
400 seeds per packet. Grown since the late 1890's. Bright scarlet roots with pure white, crisp, tender flesh that has a very mild taste. Our stock is a special strain with medium tops about 7.5 cm high. A good variety to choose if your soil tends to be a little sandy or on the drier side.
Packet $2.19 | 25 g $6.45 | 125 g $13.80 | 500 g $25.75 | 1 kg $36.75

Early Scarlet Globe

Organic Easter Egg II • 4169
30 days
200 seeds per packet. A beautiful array of medium to large white, red, purple and pink globe-shaped roots. Smooth skinned with a crisp, mild flesh and delicate flavour. Add beauty and distinction to salads or vegetable trays.
Packet $3.59 | 25 g $20

Easter Egg II • 2145
30 days
200 seeds per packet. Produces an attractive mix of smooth, globe-shaped roots in white, red, pink, and purple. The crisp, mild flesh has a delicate flavour, making this blend ideal for fresh salads, garnishes, and vegetable platters.
Packet $2.99 | 25 g $10.65 | 125 g $21.25 | 500 g $55.25 | 1 kg 85

Organic French Breakfast • 4170
23 days
350 seeds per packet. A favourite from the late 1870's that has stood the test of time! Produces 7.5-10 cm scarlet red roots with white tips that are crisp, mild and surprisingly sweet. Although frost hardy, roots will not tolerate freezing. Irrigation is essential for best flavour and root consistency.
Packet $3.59 | 25 g $20

French Breakfast • 2095
23 days
400 seeds per packet. A dependable heirloom from the late 1870s producing 7.5–10 cm scarlet red roots with white tips. Crisp, mildly sweet flesh makes it an excellent fresh-eating radish. Frost hardy, but roots should be harvested before they freeze.
Packet $2.49 | 25 g $6.45 | 125 g $13.80 | 500 g $25.75 | 1 kg $36.75

Purple Plum • 2105
25 days
300 seeds per packet. Heirloom. Unique, bright purple skin with firm white flesh. Crisp and sweet all season. Purple Plum is mildly hot, hardy and very adaptable to a wide range of soil types. Rarely, if ever pithy. Roots average 3 cm in diameter.
Packet $2.19 | 25 g $11.50 | 125 g $24.60 | 500 g $45.85 | 1 kg $65.50

Organic Sparkler White Tipped • 4162
23 days
350 seeds per packet. First grown here in the late 1930's. A beautiful round radish. The top half is a fine scarlet colour with a rosy edge, bordering a pure white bottom half. Tender, yet crisp flesh, on what is possibly the finest market radish. This variety tastes best when harvested around 2.5 cm in diameter.
Packet $2.99 | 25 g $17.50

Sparkler White Tipped • 2115
23 days
400 seeds per packet. A beautiful bi-coloured radish first grown here in the late 1930s. Smooth, round roots feature brilliant scarlet tops blending into snowy white bottoms. The crisp, tender flesh is exceptionally mild and flavourful. Harvest at approximately 2.5 cm in diameter for the best eating quality.
Packet $2.19 | 25 g $11.50 | 125 g $24.60 | 500 g $45.85 | 1 kg $65.50

Watermelon • 2141
60 days
150 seeds per packet. Variety originated in China. Round, winter radishes growing to 7.5 cm in diameter with a pale white cover. Inside flesh is a surprisingly bright, watermelon pink colour. Crisp with a mild flavour that has a hint of sweetness. Perfect for salads, garnishes and pickling too!
Packet $3.49 | 25 g $8.75 | 125 g $18.75

White Icicle • 2120
28 days
400 seeds per packet. Grown from at least 1865. Glistening, pure white roots up to 12.5 cm long and nearly 2.5 cm in diameter. Flesh is crisp and sweet with a mild flavour that warms the tongue but tends to be less pungent than round varieties. This is an attractive variety for both commercial growers and home gardeners.
Packet $2.49 | 25 g $6.45 | 125 g $13.80 | 500 g $25.75 | 1 kg $36.75

Zlata • 2123
25 days
150 seeds per packet. A beautiful yellow coloured radish with a crisp white interior. Medium sized plum shaped roots have a delightfully crunchy texture and a nice spicy flavour without being too peppery!
Packet $2.19 | 25 g $11.50 | 125 g $24.60 | 500 g $45.85 | 1 kg $65.50

Winter

Best grown in the cooler temperatures. Sow seed mid-summer for a fall harvest.

Organic Daikon • 4167
25 days
175 seeds per packet. Long, tap rooted, white fleshed variety that's ideal for spring or late summer growing. A favourite in Asian dishes.
Packet $2.99 | 25 g $12.50

China Rose • 2125
52 days
300 seeds per packet. Grown since the late 1880's. A long-keeping variety with dark pink to reddish skinned roots averaging 15-20 cm in length and 5-6.5 cm in diameter. The flesh is white, crisp, juicy and pungent. Although frost hardy, winter radish roots will not survive winters harsher than Zone 8. Tolerates closer spacing than other varieties.
Packet $2.49 | 25 g $6.45 | 125 g $13.80 | 500 g $25.75 | 1 kg $36.75

China White • 2130
58 days
300 seeds per packet. Produces excellent yields of white skinned roots averaging 15-20 cm in length and 5-6.5 cm in diameter. Crisp, mild flavoured, juicy white flesh. Tolerates closer spacing than other varieties.
Packet $2.49 | 25 g $6.45 | 125 g $13.80 | 500 g $25.75 | 1 kg $36.75

Minowase Hybrid • 2135
45 days
100 seeds per packet. A vigorous growing Japanese Daikon type radish producing white necked roots up to 45 cm long and 6 cm in diameter often weighing over 454 g! Despite its large size, the flesh is finely textured, mild flavoured, juicy and crisp. If you didn't like radishes before, you will after tasting this one!
Packet $2.99

Round Black Spanish • 2140
56 days
300 seeds per packet. While it has been in cultivation since well before the year 1600, Round Black Spanish has almost become a forgotten variety - and it's a shame too! Roots are globe shaped, about 10 cm in diameter and black skinned with pure white, very solid, quite pungent flesh. Space 7.5-10 cm apart in the garden. An excellent keeper. Although frost hardy, roots will not survive freezing.
Packet $2.99 | 25 g $6.45 | 125 g $13.80 | 500 g $25.75 | 1 kg $36.75

Organic **Heirloom** (Time-tested variety) **Container** (Great for pots) **Climbing** (Requires staking/cage) **Disease Resistant** **Premium Variety**

Sow outdoors *mid May, 6-12 mm deep and 90 cm apart in rows 150 cm apart.*

Sow indoors *March to April in plantable peat pots for an early start.*

Pro Tip: *Only consume stocks, do not consume leaves as they are toxic. Do not harvest stocks the first year to give plants time to establish strong root systems.*

Victoria • 2149
12-15 months
80 seeds per packet. Variety originated in UK. Finally, a rhubarb you can grow from seed! Tender, juicy, sweet, green-red stalks to 35 cm long. Large growing plants last for years, so pick the appropriate garden location when planting. Very productive variety. Perennial, hardy to Zone 3.
Packet $3.49 | 10 g $11.99

Sow outdoors *May, 2.5 cm deep spacing 1 cm apart in rows 60 cm apart.*

Thin to *20 cm when seedlings are 5-10 inches tall.*

Pro Tip: *To extend winter storage, wax with paraffin and keep in a cool location.*

Laurentian • 2150
90 days
1,800 seeds per packet. The ever-popular rutabaga of holiday feasts. The exposed top of the root takes on a distinctive purple hue while the flesh varies from cream coloured to a warm golden yellow.
Packet $2.19 | 25 g $6.90 | 125 g $20.65 | 500 g $38.50 | 1 kg $55

Sow outdoors *April to May, 2 cm deep and 2.5 cm apart in rows 30 cm apart.*

Thin to *12.5 cm when seedlings are 7-10 cm tall, after they develop their first set of true leaves.*

Pro Tip: *Not to be confused with the rutabaga, summer turnips do not store well. Use them immediately in stews, stir-fries, or boiled.*

Purple Top White Globe • 2160
60 days
1,700 seeds per packet. Heirloom turnip dating back to the early 1800s. Delicious, crisp and sweet tasting roots with purple-red shoulders and white flesh. Tops make wonderful salad greens. Matures to 12.5 cm diameter but taste best at 5-7.5 cm in size.
Packet $2.49 | 25 g $6.60 | 500 g $22.75

Sow outdoors *May to June, 1 cm deep and 2.5 cm apart in rows 40 cm apart.*

Thin to *7 cm when seedlings are 5-7 cm tall.*

Pro Tip: *Salsify produces not only delicious roots, but ornamental flowers!*

Mammoth Sandwich Island • 2165
115 days
60 seeds per packet. Also called Vegetable Oyster, the 20 cm long roots are smooth, thick and slightly tapered like an Imperator carrot. White flesh has a delicate flavour suggestive of oysters. First leaves of spring are delicious in salads.
Packet $2.19 | 25 g $8.25 | 125 g $23.50 | 500 g $61.10 | 1 kg $93.95

Contact us at 1-800-465-5849 or shop online at OSCSEEDS.COM

Organic **Heirloom** (Time-tested variety) **Container** (Great for pots)

Sow outdoors *April to June, 1 cm deep and 2.5 cm apart in rows 40 cm apart.*

Thin to *7 cm when seedlings reach 5-7 cm in height.*

Pro Tip: *Try sowing a crop of Bloomsdale Long Standing very late in the fall. Cover with mulch over winter for an early spring harvest.*

Organic Bloomsdale Long Standing • 4175
47 days
300 seeds per packet. Heirloom since the mid 1920's. Bloomsdale is the standard savoy leaved spinach on the market. Deep glossy green leaves withstand the heat and sun. Simply superb raw in salads or cooked in a main dish. Quick growth allows for multiple crops from spring to early summer and often again in late summer and early fall.
Packet $2.99 | 25 g $20

Bloomsdale Long Standing • 2185
47 days
400 seeds per packet. A classic Savoy spinach grown since the mid-1920s. Produces deep green, glossy, richly flavoured leaves that perform well in warm weather. Fast growing and ideal for repeated sowings in spring and again for fall harvest.
Packet $2.19 | 25 g $6.45 | 125 g $13.80 | 500 g $25.75 | 1 kg $36.75

Countryside • 2197
45 days
250 seeds per packet. An improved smooth-leaf spinach. Countryside is a beautiful dark green, very uniform, baby leaf spinach variety. It has thick, smooth, round to oval leaves. It has good holding ability for a use as a baby leaf. Bolt tolerant.
Packet $2.19 | 1,000 seeds $5.65 | 5,000 seeds $11.65

Imperial Green Hybrid • 2198
38 days
150 seeds per packet. Dark green, tasty, arrow-shaped leaves on strong stems make this Asian spinach perfect for salads, stir-fries and many other culinary dishes. Superb as fresh baby greens too! Great disease resistance. Very slow to bolt when summer's heat arrives.
Packet $2.99 | 1,000 seeds $5.65 | 5,000 seeds $11.65

New Zealand *(Tetragonia expansa)* • 2190
55 days
100 seeds per packet. Enjoy thick, succulent leaves all summer long with this everbearing spinach. Triangular to oval-shaped leaves that are pale to dark green and grow from 5-10 cm long, spreading to 60 cm wide and 30 cm tall. Soak seed for 12-24 hours before sowing. Interestingly, it is a native of Australia that has been cultivated in European and North American gardens for about the last 100 years.
Packet $2.19 | 25 g $8.55 | 125 g $18.30 | 500 g $34.20 | 1 kg $48.80

Perpetual *(Beta vulgaris, subsp. cicla)* • 2202
55 days
150 seeds per packet. Heirloom from the early 1800s. Belongs to the same species as Swiss chard and beets but has a more distinctive flavour. Tastes more like a true spinach than ordinary chard with its thinner stems and exceptionally tender, smooth leaves. Slow bolting so you can harvest through a long season. Perfect for small gardens!
Packet $2.99 | 25 g $8.75 | 125 g $18.75 | 500 g $35 | 1 kg $50

Climbing (Requires staking/cage) **Disease Resistant** **Premium Variety**

Squash *(Cucurbita spp.) – 10-12 seeds per gram*

***Sow outdoors** late May to June, 2.5 cm deep and 65 cm apart in rows 2.4 m apart.*

***Thin to** 3 plants per hill after germination.*

***Pro tip:** Can be started 3 weeks early in plantable pots for an earlier harvest.*

Summer

These delicious squash are fast maturing and best enjoyed soon after picking!

Bennings Green Tint • 2238
48 days
20 seeds per packet. A prolific, pie-shaped pale green Pattypan Squash with a delicious creamy white flesh. Open, upright, bushy plants offer an easy harvest of 10 x 5 cm fruits. Excellent sautéed or stuffed.
Packet $2.99 | 25 g $7.05 | 125 g $16.75

Early White Scallop • 2205
49 days
20 seeds per packet. A 400-year-old heirloom White Pattypan variety. Smooth, disc-shaped 12 cm long squash with scalloped edges and white-speckled green rinds. Creamy texture and nutty flavour when not over cooked. Less moist than other summer squash, they grow firmer as they ripen. Pick small for best quality. Bush-type habit.
Packet $2.49 | 25 g $7.05 | 125 g $16.75 | 500 g $43.55 | 1 kg $67

Golden Summer Crookneck • 2220
49 days
20 seeds per packet. A traditional variety known for its big, early yields of meaty, bright yellow fruits with a creamy white flesh, firm texture and distinctive crookneck. Pick when fruits are 15-20 cm in size for the best flavour. Strong bushy plants, easy to grow! Larger fruits will have a slightly bumpy appearance.
Packet $2.19 | 25 g $7.05 | 125 g $16.75 | 500 g $43.55 | 1 kg $67

Bennings Green Tint

Sebring Hybrid • 2215
49 days
12 seeds per packet. An improved golden zucchini hybrid with straight, uniform 20 cm long fruit with minimal green tips. Great tasting creamy white flesh. Tolerant to powdery mildew thereby extending the harvest season. Harvest fruit frequently to encourage continued production.
Packet $3.49 | 200 seeds $27.95

Spaghetti • 2230
100 days
20 seeds per packet. Introduced in the 1930s. An interesting smooth, yellow skinned, squash producing medium sized, oblong fruits, 20-22 cm in size and 1.5 kg in weight.
Packet $2.19 | 25 g $8.10 | 125 g $19.25 | 500 g $50.05 | 1 kg $77

Vegetable Marrow • 2240
55 days
20 seeds per packet. Large, cylindrical, 25 cm fruits with a slightly thicker blossom end are popular for stuffing or baking. Generally, the surface is smooth but may sometimes have distinct ridges and the fruit colour can exhibit considerable variation from very pale green, darker green, or striped. Fruit tends to grow larger when summers are cool.
Packet $2.49 | 25 g $8.10 | 125 g $19.25 | 500 g $50.05 | 1 kg $77

Organic Zucchini Dark Green • 4185
50 days
20 seeds per packet. Compact bushy plants are loaded with attractive, glossy, dark green fruits with a nice mild flavour. Best used when 20-25 cm long or let grow larger for baking zucchini muffins or bread.
Packet $2.99 | 25 g $20

Zucchini Dark Green • 2245
50 days
20 seeds per packet. Compact plants produce heavy crops of smooth, glossy, dark green zucchini with tender, mild-flavoured flesh. Enjoy them young at 20–25 cm, or let them grow larger for delicious baked treats like zucchini bread and muffins.
Packet $2.19 | 25 g $7.05 | 125 g $16.75 | 500 g $43.55 | 1 kg $67

Organic Zucchini Golden • 4192
49 days
20 seeds per packet. A prolific, golden zucchini with straight, uniform 20 cm long fruits with minimal green tips. Great tasting creamy white flesh. Harvest fruit frequently to encourage continued production.
Packet $2.99 | 25 g $25

Winter

These slower growing squash store well over winter in a cool, dry location.

Organic Burgess Buttercup • 4180
87 days
20 seeds per packet. Introduced some time around 1930. Small, rounded fruits with a flat top and distinct cup on the blossom end. Dark green fruits have narrow, grey stripes and slight mottling. The thick, dry, golden orange flesh has a sweet, nutty flavour. Ideal for long-term winter storage.
Packet $3.59 | 25 g $24

Burgess Buttercup • 2255
87 days
25 seeds per packet. A classic heirloom from around 1930 producing attractive, rounded fruits with a flattened top and distinctive cup-shaped blossom end. Dark green skin is accented with fine grey stripes, while the thick, golden orange flesh is sweet, dry, and richly nutty. A superb squash for winter storage.
Packet $2.19 | 25 g $8.95 | 125 g $21.25 | 500 g $55.25 | 1 kg $85

Celebration Hybrid • 2300
80 days
7-10 seeds per packet. Light yellow shoulders and orange sutures with a fine-grained flesh. Very sweet taste and exceptional eating quality. Fruit averages 750 g and 10 x 12 cm in size. Resistant to Powdery Mildew.
Packet $2.99 | 200 seeds $26.75

Delicata *(Sweet Potato)* • 2285
100 days
20 seeds per packet. Uniquely shaped fruit about 15-20 cm long and 9 cm in diameter that are cream coloured with attractive thin green stripes. Delicata has a thin edible skin so no peeling is required before eating! Very sweet, orange flesh; excellent for stuffing and baking. A good winter keeper.
Packet $2.99 | 25 g $12.50 | 125 g $39.80 | 500 g $81.25

Green Hubbard • 2265
90 days
20 seeds per packet. Bronze-green, slightly warted fruits up to 30 cm long by 20 cm wide. The flesh is orange-yellow, very thick, dry and nicely sweet. Stores well.
Packet $2.49 | 25 g $8.95 | 125 g $21.25 | 500 g $55.25 | 1 kg $85

Kurihomare • 2294
100 days
10 seeds per packet. A beautiful Kabocha squash with a bright yellow flesh, sweet nutty flavour and a melt-in-your-mouth texture. Large glossy green fruits average 2.27 kg size and set well on large, vigorous vines.
Packet $3.49 | 10 g $30

Marina de Chioggia • 2270
100 days
12 seeds per packet. Large, grey-green, bumpy turban squash with pronounced ribbing weigh 4.5 kg on average. Very tasty, dry, orange-yellow flesh. Delicious baked, in soup, gnocchi, ravioli or in pies.
Packet $2.99 | 10 g $14 | 25 g $20 | 125 g $50

Mashed Potatoes • 2258
90 days
15 seeds per packet. A new look on an old favourite! A unique acorn squash with a white outer skin and sweet, white interior flesh. Compact plants each produce 3-4 deeply ribbed fruits of 680 g. Mash and serve it like potatoes or cut in half and bake. Either way, they're simply delicious!
Packet $2.99 | 200 seeds $26.75

A FACT TO GROW BY

Cure squash before storing to toughen skin and covert starches to sugars for improved flavour. Place squash in a sunny, warm, dry, well-ventilated spot for 1-2 weeks. The squash is fully cured when the skin is tough enough that you cannot dent it with your thumbnail. Once cured, move your squash to a cool, dry, and dark area to store. *Do not cure Table Queen/ Acorn squash; store directly in a cool area.

Turks Turban

Green Hubbard

Delicata

Table King Bush

Pink Banana Jumbo • 2297
100 days
25 seeds per packet. Smooth, salmon-pink skin and tasty, fine-grained, yellow-orange flesh. Large banana-shaped fruits are their best when 50 x 15 cm size and will balloon to 80 cm and more if left on the vine. A terrific storage squash when kept in a cool, dark place.
Packet $2.19 | 25 g $7.10 | 125 g $25.95

Sunshine Hybrid *(Kabocha Type)* • 2275
80 days
8 seeds per packet. AAS Winner. Superior appearance and eating quality. Bright orange-red skin with thick, sweet, nutty flesh that's smooth and stringless no matter how you prepare it! Produces 1.5-2 kg slightly flattened fruits on vigorous, compact vines. Stores well.
Packet $2.99 | 200 seeds $38

Sweet Dumpling • 2280
90 days
20 seeds per packet. A delightful white skinned, green striped, mottled, delicate squash. Very sweet and tasty light golden flesh in compact globe-shaped fruits that average 10 cm diameter and 250 g in weight.
Packet $2.99 | 25 g $17.50
125 g $43.75 | 500 g $113.75

Sweet Meat • 2251
90 days
25 seeds per packet. One of the sweetest heirloom squash you'll ever eat! Beautiful slate-grey, round squash of 4.5 to 6.8 kg fruits with an incredibly rich, sweet, nutty flavour. Renowned for its long keeping quality. Give this one plenty of room to grow as vines can reach 3 m or more!
Packet $2.99 | 25 g $7.05 | 125 g $16.75

Table King Bush • 2283
90 days
25 seeds per packet. Nothing beats the rich, sweet flavour of baked winter squash and Table King will delight with its ability to produce big squash in short growing seasons. It is early maturing for a winter squash, producing 1 kg fruit on compact, 1.5 m vines making them great for small gardens or large planters.
Packet $2.99 | 25 g $12.50 | 125 g $31.25

Organic Table Queen • 4190
80 days
20 seeds per packet. Heirloom introduced in 1913. Dark green, deeply ribbed, acorn-shaped fruits roughly 15 cm in diameter with a smooth, firm skin. Pale yellow flesh is exceedingly sweet and meaty rivaling that of the sweet potato! Long vines are prolific and fruits set early. An excellent keeper!
Packet $3.59 | 25 g $25

Table Queen • 2290
80 days
20 seeds per packet. A productive heirloom dating to 1913, bearing richly coloured, deeply ribbed acorn squash about 15 cm across. Beneath the smooth, hard rind is thick, pale yellow flesh with exceptional sweetness and a texture reminiscent of sweet potato. Long vines produce early and generously.
Packet $2.19 | 25 g $6.70 | 125 g $21
500 g $43.55 | 1 kg $67

Turks Turban • 2257
95 days
10 seeds per packet. An old heirloom from the 1800s. Rich, brightly coloured, flattened fruits 20-25 cm across with orange-red shoulders are brilliantly striped with bright red, orange, white and green for a unique ornamental look. Enjoy their nutty flavour baked or stuffed.
Packet $2.99 | 25 g $12.60
125 g $30 | 500 g $78

Organic Waltham Butternut • 4182
85 days
20 seeds per packet. An excellent squash, weighing on average 2 kg. Creamy-yellow coloured fruits have a small seed cavity and a bulbous end with solid, smooth skin and deep orange flesh. A large, vigorously growing vine and heavy producer. The already great taste improves with storage.
Packet $3.59 | 25 g $24

Waltham Butternut • 2260
85 days
20 seeds per packet. An excellent squash, weighing on average 2 kg. Creamy-yellow coloured fruits have a small seed cavity and a bulbous end with solid, smooth skin and deep orange flesh. A large, vigorously growing vine and heavy producer.
Packet $2.19 | 25 g $7.05 | 125 g $16.75

Waltham Butternut

Peppermint

Swiss Chard

(Beta vulgaris, subsp. cicla) – 30-100 seeds per gram (varies based on variety)

***Sow outdoors** April to June, 1 cm deep and 2.5 cm apart in rows 45 cm apart.*

***Thin to** 10 cm gradually, using thinnings as baby salad greens.*

***Pro Tip:** Harvest outer leaves first by cutting at the base of the stem, then working towards the centre as you go.*

Bright Lights • 2170
55 days
100 seeds per packet. AAS Winner. Brightly coloured stems of yellow, crimson, gold, orange, violet, purple, white, green and pink with contrasting dark green, slightly savoyed, crinkled leaves. Leaves have a lighter taste than the standard chard. Perfect for the garden or containers. This highly productive variety grows back after harvesting.
Packet $2.99 | 125 g $18.75 | 500 g $48.75

Eldorado • 2183
60 days
50 seeds per packet. Attractive, glossy, dark green, smooth to slightly savoyed leaves with strong bright yellow to golden stems. Attractive for microgreens in just a few weeks and salad greens in a month. Uniform plant habit, good tolerance to bolting and tasty raw or cooked. Makes a great ornamental as well!
Packet $2.99 | 25 g $10.70 | 125 g $23.75 | 500 g $61.75

Fantasia • 2182
55 days
130 seeds per packet. Vivid, golden orange stalks have thick, crisp, dark green, semi-savoyed leaves with orange veining. The leaves possess a pleasing chard flavour and hold their colour very well. They make a wonderful addition to any dish! Fantasia is slower growing than most of the chard group and has good bolting tolerance.
Packet $2.19 | 25 g $7.90 | 125 g $17.50 | 500 g $45.50

Organic Fordhook Giant • 4195
50 days
150 seeds per packet. Huge, glossy dark green, savoyed leaves are borne on thick, greenish-white stalks. A reliable, cold hardy variety; our favourite for greens as it always produces a bumper crop, even during periods of high temperatures! Mildly flavoured.
Packet $3.59 | 25 g $22.50 | 250 g $73.15

Fordhook Giant • 2175
50 days
175 seeds per packet. A dependable, cold-tolerant variety that delivers abundant harvests even through hot weather. It produces large, glossy, dark green, deeply savoyed leaves supported by sturdy greenish-white stalks. The leaves have a mild, pleasant flavour, making this one of our top choices for fresh, nutritious greens.
Packet $2.19 | 25 g $7.50 | 125 g $12.50 | 500 g $32.50

Peppermint • 2172
55 days
110 seeds per packet. Peppermint is in a class by itself. Bright white petioles dressed with pink stripes from bottom to top contrast brilliantly with dark green savoyed leaves. Peppermint creates a visual delight with it's bright-pink stems fade to white in the middle. Perfect for specialty markets and home gardeners alike. Bolt tolerant.
Packet $2.99 | 500 seeds $8.95 | 1,000 seeds $15.35

Rhubarb • 2180
60 days
60 seeds per packet. A stunning looking plant! The leaves resemble rhubarb in both shape and colour; dark green, slightly crumpled and crimson veined. The ribs are narrow but fleshy with the main stems being a bright, candy-apple red. Rhubarb chard is great to eat and makes a wonderful ornamental too! Moderate bolt tolerance.
Packet $2.49 | 25 g $7.90 | 125 g $17.50 | 500 g $45.50

Organic Rainbow • 4197
55 days
100 seeds per packet. AAS winner. An eye-catching mix of vibrant stems in shades of yellow, crimson, orange, violet, white, green, and pink, topped with dark green, lightly savoyed, crinkled leaves. The tender leaves offer a milder flavour than traditional Swiss chard. Ideal for garden beds or containers, this vigorous variety produces generous harvests and readily regrows after cutting.
Packet $3.59 | 25 g $30 | 500 g $97.50

Tomatoes

Solanum lycopersicum – 350 seeds per gram

Tomato Disease Quick Reference Guide

CODE	DISEASE	IMPACT	CONDITIONS
V	*Verticilium Wilt*	*Destroys water flow from the soil up, leading to stunted yields*	*Thrives in cooler, wet spring weather followed by summer heat.*
N	*Root nematodes*	*Parasitic worms that choke root absorption and cause severe wilting*	*Most damaging in warm, sandy soils.*
LS	*Leaf Spot (Septoria)*	*Causes rapid defoliation and risks fruit sunscald*	*Thrives and spreads quickly in warm, rainy, or humid weather.*
F	*Fusarium Wilt*	*Completely blocks the plant's vascular tissue, causing rapid death*	*Thrives in hot, dry midsummer conditions.*
TMV	*Tobacco Mosaic Virus*	*Highly contagious virus that stunts growth and ruins fruit quality*	*Spreads easily in any weather via touch or tools.*
ASC	*Alternaria Stem Canker*	*Girdles and kills the main stem, cutting off all nutrients*	*Develops rapidly in warm, high-humidity environments.*
ST	*Stemphyllium*	*Strips the plant of foliage, severely reducing vigour*	*Thrives during warm, humid summer periods.*
TYLCV	*Tomato Yellow Leaf Curl*	*Halts fruit production entirely and causes severe stunting*	*Transmitted primarily during hot weather when whitefly populations peak.*

Sow indoors *March to April, 6 mm deep and 8 cm apart. Keep at 21-24 °C for prompt germination.*

Transplant outdoors *late May to June after danger of frost is passed, 90 cm apart in rows 90 cm apart.*

Pro Tip *Water at the soil, avoiding leaves to prevent blight. Consistent watering is essential to avoid blossom end rot and fruit splitting.*

Indeterminate vs Determinate: *Indeterminate plants grow slower, flower and set fruit successfully over many days until killed by frost. Staking or using tomato cages is necessary. Determinate plants grow to a predetermined size, then begin to set flower and fruit within a very short time. Staking is not required.*

Bush

Celebrity Plus Hybrid • 2315
70 days
15 seeds per packet. AAS Winner. Determinate. Our favourite for yield, disease tolerance and garden performance. Consistently produces beautifully rounded, rich red, 280 g fruits on very healthy plants. Flesh is sweet and juicy with the perfect texture. Resistant to: V, F, N, TMV, ASC, ST.
Packet $3.99 | 100 seeds $21.25 | 250 seeds $39.95

Patio Hybrid • 2320
50 days
15 seeds per packet. Determinate. A perfect tomato for patio containers or smaller gardens. The bushy, miniature plants are loaded with dark red, 115 g medium size fruit. Fruits may be small but you'll love their big, juicy tomato flavour. Resistant to ASC, ST.
Packet $3.49 | 100 seeds $16.25 | 250 seeds $31.25

Cherry Tomatoes

Organic Sweetie • 4205
50 days
20 seeds per packet. One of the sweetest cherry tomatoes you'll ever taste due to its high sugar content! Early producing, vigorous semi-determinate plants are loaded with up to 100 small 2.5 cm size fruits formed in clusters along its long branches. Sugar content runs as high as 12-14%. Perfect for preserves, salads or eating right off the vine. Stake for maximum production.
Packet $3.59 | 5 g $45 | 25 g $112.50

Sweetie • 2350
50 days
30 seeds per packet. Indeterminate. Early producing, vigorous, semi-determinate plants are loaded with up to 100 small 2.5 cm size fruits formed in clusters along its long branches. Sugar content runs as high as 12-14%. Perfect for preserves, salads or eating right off the vine. Stake for maximum production.
Packet $2.49 | 5 g $11.90 | 10 g $19 | 25 g $35.65

Sweet Million Hybrid • 2351
62 days
20 seeds per packet. The name pretty well says it all! Offers an incredible high yield of uniform, bright red, very sweet, cherry tomatoes to 2.5 cm in diameter and weighing in around 15 g size. This is a tomato you can eat like candy! Indeterminate growth.
Packet $2.99 | 100 seeds $18 | 250 seeds $31.50

Tiny Tim • 2355
45 days
30 seeds per packet. Determinate. This standard dwarf cherry tomato introduced in 1945 is ideal for pots and windowsill containers. Compact 45 cm high plants are loaded with clusters of sweet, scarlet red 2.5 cm diameter fruits. Resistant to: AST and ST.
Packet $2.99 | 5 g 22.50 | 10 g $36 | 25 g $67.50

Tumbling Tom Yellow Hybrid • 2357
45 days
10 seeds per packet. The perfect cherry tomato for hanging baskets and containers. Cascading branches are loaded with small, yellow, 2.5-5 cm fruits. Delightfully fresh and deliciously sweet! Semi-determinate plants produce all summer long.
Packet $3.99 | 100 seeds $18 | 250 seeds $34.50

Currant Tomato

Candyland Red Hybrid • 2317
55 days
10 seeds per packet. Indeterminate. AAS Winner. This currant tomato produces long clusters of tiny, red, 1 cm fruits that pack a powerful, super sweet flavour. Earlier ripening and more compact plant habit than other currant types making it easier to harvest the 100 plus fruits per plant.
Packet $3.49 | 100 seeds $16.25 | 250 seeds $31.25

Grape

Lucia Hybrid • 2368
62 days
10 seeds per packet. Ultra sweet and delicious bright red grape tomatoes 2.5 cm in diameter with no cracking. In our taste tests these are the sweetest tomatoes going! Fruit is borne in long clusters for easy harvesting. Requires staking to support the heavy yield. An excellent container variety.
Packet $3.99 | 100 seeds $39
250 seeds $66

Ground Cherry

(Physalis pruinosa)

Ground Cherry • 2395
65 days
30 seeds per packet. Small, cherry-like fruits grow inside the lantern shaped, thin, papery husks and turn from green to tan colour when ripe and ready to eat. The fruit makes excellent pies, jams, preserves and can be dried and eaten like raisins. Very prolific plants with branching habit, matures to 60 x 60 cm.
Packet $2.99 | 10 g $18 | 25 g $33.75

Heirloom

Big Rainbow • 2373
80 days
25 seeds per packet. Variety originated in Germany. Eye catching, large fruit that matures to a beautiful golden yellow, highlighted with red striping through the solid flesh! Beefsteak type fruits, weigh up to 900 g size. Taste is rich, sweet and juicy. Indeterminate growth.
Packet $2.99 | 5 g $18.75 | 10 g $30

Aunt Ruby's German Green • 2370
95 days
30 seeds per packet. Heirloom. Indeterminate. Large round fruit with a delicious spicy flavour. Green when ripe with some yellow and pink blushing. Bushy strong plants with fruit that averages between 225-300 g in weight.
Packet $3.49

Manitoba

Manitoba • 2372
65 days
30 seeds per packet. Canadian bred for our shorter growing seasons. Bright red, smooth skinned, 150 g size tomatoes have a firm, meaty flesh making them ideal for salads or canning.
Packet $3.49 | 100 seeds $9.95
250 seeds $19.95

Black Krim • 2374
80 days
30 seeds per packet. Flattened, dark reddish purple fruits with delicate skin and green shoulders. Very juicy and solid green-tinted flesh. Fruits average 227-340 g weight and 10-13 cm diameter.
Packet $3.49 | 100 seeds $9.95
250 seeds $19.95

Brandywine • 2385
80 days
10-15 seeds per packet. Heirloom. Indeterminate. Very vigorous plants with distinct potato plant like foliage. Produces deeply lobed, green shouldered, slightly purple-red fruit weighing on average 250 g to 350 g size. Larger fruits weighing upwards of 700 g are not uncommon. Has the old-fashioned tomato taste!
Packet $2.99 | 5 g $23.75 | 10 g $38
25 g $71.25

Organic Brandywine • 4200
80 days
15 seeds per packet. Heirloom. Very vigorous plants with distinct potato plant like foliage. Produce deeply lobed, green shouldered, slightly purplish-red fruit weighing on average 250 g to 350 g size. Larger fruits weighing upwards of 700 g are not uncommon. Has that old-fashioned tomato taste! Indeterminate.
Packet $2.99 | 5 g $45 | 25 g $112.50

Cherokee Purple • 2390
72 days
30 seeds per packet. Heirloom. Indeterminate. One of the earliest recognized types of the 'black' coloured tomatoes. Large, oval, deep purple-pink fruits are dense and juicy with a superb, sweet taste! Fruit average 300 g in weight. Interior colour ranges from purple to brown with a touch of dark green.
Packet $3.49 | 5 g $23.75
10 g $38 | 25 g $71.25

Old German • 2400
75 days
30 seeds per packet. Heirloom. Indeterminate. Deliciously sweet, juicy fruits with a "nostalgic" tomato taste. Produces golden yellow fruits with red and pink inclusions, up to 900 g in weight. A great slicing tomato and a traditional Mennonite favourite.
Packet $3.49 | 5 g $23.75 | 25 g $71.25

Low Acid

Golden Queen/Jubilee • 2340
75 days
30 seeds per packet. Heirloom. Introduced in the early 1880's. Indeterminate. Rich orange-yellow, nicely shaped, thick walled tomatoes weigh on average 200-300 g size. Fruits have a very mild, pleasing taszte, low acid content and some disease resisxtance.
Packet $2.49 | 5 g $15 | 10 g $24 | 25 g $45

Pink Ponderosa • 2345
85 days
30 seeds per packet. Heirloom. Indeterminate. Large, 450-900 g, flat-topped, purplish-pink, smooth skinned fruits form on tall, robust plants. Fruits have small seed cavities, lots of meat and a gentle yet mild, sweet taste. Makes °a great slicer or canning variety.
Packet $2.99

Open Pollinated

Beefsteak • 2330
62 days
25 seeds per packet. Heirloom. Indeterminate. Our most popular main season tomato! Large solid, meaty, red fruits often weighing up to 400 g size and larger. Fruits have a pronounced rib and sweet, juicy old-fashioned tomato flavour.
Packet $2.49 | 5 g $8 | 10 g $12.80 | 25 g $24

Organic Beefsteak • 4198
62 days
20 seeds per packet. Heirloom. Our most popular, main season tomato because of it's consistent performance and heavy yields! Large solid, meaty, red fruits often weighing up to 400 g size and more. Fruits have a pronounced rib and sweet, juicy old-fashioned tomato flavour. Indeterminate plants require staking.
Packet $2.99 | 5 g $18 | 25 g $45

Bonny Best • 2335
72 days
25 seeds per packet. Heirloom. Indeterminate. Early prolific and continuous production are the hallmarks of this tomato. Clusters of globe-shaped, medium sized 225 g deep red fruit are uniform in size with a great tomato taste. Flesh is solid with fewer seeds.
Packet $2.19 | 5 g $10 | 10 g $16 | 25 g $30

Costoluto Genovese • 2336
70 days
25 seeds per packet. Variety originated in Italy. Deep red, heavily ribbed with and somewhat flattened fruits that grow to 200 g size, will not win a beauty contest. It is the delightfully tangy, richly flavoured taste that makes it a winner! Superb fresh, canned, juiced or preserved. Indeterminate growth.
Packet $2.99 | 5 g $15 | 10 g $24 | 25 g $45

Organic | Heirloom (Time-tested variety) | Container (Great for pots)

Paste

Principe Borghese •2359
70 days
25 seeds per packet. Variety originated in Italy. Large clusters of small, grape sized fruits to 60 g size have few seeds and are especially suited to sun drying. Eat fresh or oven roasted. Fruits burst with sweetness when dried. Indeterminate growth.
Packet $2.99 | 5 g $12.50 | 10 g $20

Roma VF • 2360
75 days
30 seeds per packet. Heirloom. Determinate. The essential "Italian paste tomato" Roma is prized for its tangy rich taste and dense walled, juicy, meaty fruits. Plum-shaped, bright red fruits average 60 g in size with few seeds making them perfect for canning or tomato paste. Resistant to V.F.
Packet $2.49 | 5 g $5.65 | 10 g $9
25 g $16.90 | 125 g $56.25

San Marzano • 2361
75 days
15 seeds per packet. Variety originated in Italy. Classic plum or paste tomato for sauces and canning. Large, bright red fruits with few seeds and slightly flattened sides, average 150 g weight. Outer skin is crack resistant, interior flesh is meaty and mild. Indeterminate growth.
Packet $2.99 | 100 seeds $9.95
250 seeds $19.95

Organic San Marzano • 4201
80 days
12 seeds per packet. Classic Italian "plum tomato". Ideal for sauces or canning. Large, slightly flattened, right red fruits average 150 g size. Interior flesh is meaty and mild with very few seeds. Crack resistant outer skin. Indeterminate plants require staking.
Packet $2.99 | 5 g $30 | 25 g $75

Stake

Better Boy Plus Hybrid • 2305
70 days
15 seeds per packet. Indeterminate. Outstanding bright red, nicely rounded, meaty fruits often weighing up to 450 g or more with a delightful juicy, mild flavour. Incredibly heavy yielding with just the right firmness and texture – you can often find up to 30 tomatoes on the plant at one time. Resistant to: V, F, N.
Packet $3.99 | 100 seeds $15.95 | 250 seeds $29.95

Big Beef Plus Hybrid • 2310
70 days
15 seeds per packet. Indeterminate. Italian Beefsteak Type and an AAS winner. Better tomato flavour, garden performance and all around higher quality than most. Big, beefy fruits average 260-350 g with a deep, oblate shape and meaty, juicy sweet flesh – easily twice as much fruit as a regular beefsteak! Produces right up until frost. Resistant to: V, F, ASC, ST, N, TMV.
Packet $3.99 | 100 seeds $19.95
250 seeds $39.95

Tomatillo *(Physalis ixocarpa)*

Tomatillos require a second plant to enhance pollination and guarantee fruit set.

Toma Verde • 2405
65 days
30 seeds per packet. Heirloom. A Mexican favourite for making traditional green salsa sauce and other dishes! Grow these interesting, great tasting fruits as you would tomatoes but harvest them right out of the paper-like husk when they turn from green to light beige in late summer. Small green fruits are sweet and tasty. Start transplants about eight weeks before the last frost date in your area.
Packet $2.99 | 10 g $22 | 25 g $41.25

A FACT TO GROW BY

Sprinkling a little baking soda around the base of your tomato plants can help boost tomato yield and help prevent late blight, powdery mildew and anthrachnose which are common issue gardeners face with their tomato plants.

Check out our Totally Tomato Collection on page 55 and SAVE 20%

Climbing (Requires staking/cage) | Disease Resistant | Premium Variety

Mignonette

Strawberry

(Fragaria vesca alpine) – 3,000 seeds per gram

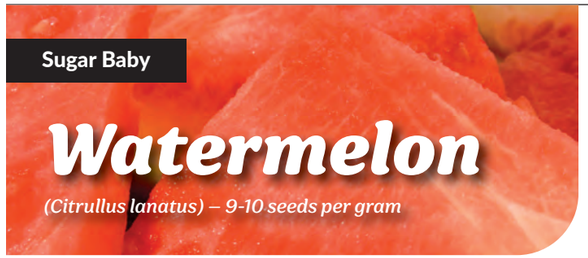
Cold stratification required. *Place the seed packet in a sealed plastic bag and freeze for 3-4 weeks. Remove the sealed container and keep closed for 24 hours until it has warmed to room temperature. Seeds will then be ready to sow.*

Sow indoors *1 mm deep in pots or trays, keeping soil 18-24 °C.*

Transplant outdoors *June when danger of frost is passed, spacing 20 cm apart.*

Pro Tip: *Strawberries can be tricky to germinate and can take anywhere from 10 days to 6 weeks to emerge after sowing.*

Mignonette • 2302
80 days
15 seeds per packet. A French delicacy. Mignonette alpine strawberry produces bright red, deliciously perfect little fruits the first summer from seed. Compact, perennial plants grow in pretty, leafy mounds and are perfect for hanging baskets or the garden. Naturalized throughout much of North America as wild strawberries, they are rewarding to grow and easy to care for. Grows best in full sun with a rich, moist, well-drained soil.
Packet $2.99 | 100 seeds $17.95 | 500 seeds $54.95



Sugar Baby

Watermelon

(Citrullus lanatus) – 9-10 seeds per gram

Sow indoors *April to May. 2.5 cm deep.*

Transplant outdoors *late May, 60 cm apart in rows 2.4 m apart.*

Sow outdoors *late May, 2.5 cm deep, spacing 40 cm apart in rows 2.4 m apart. Thin to 60 cm apart.*

Pro Tip: *Warm soil is required for proper germination. Do not sow into soil cooler than 21 °C, ideally waiting until soil warms to 24 °C.*

Crimson Sweet • 2410
85 days
25 seeds per packet. Slightly elongated, light green melons about 25 cm in diameter by 30 cm long with traditional darker green stripes. The fruits average a hefty 9 kg with a dark green rind and sweet, crisp flesh. Good tolerance to Fusarium and Anthracnose.
Packet $2.49 | 25 g $9 | 125 g $30

Organic Sugar Baby • 4207
75 days
30 seeds per packet. A dependable variety that produces round, sweet watermelons about 20 cm in diameter and weighing roughly 4-5 kg. The flesh is crisp, red, sweet and juicy with very few seeds. The thin hard skin turns dark green/red when fully ripe.
Packet $3.59 | 25 g $18.75

Sugar Baby • 2415
75 days
60 seeds per packet. A high-yielding watermelon variety known for its consistently sweet flavour and uniform, round fruit. Each melon typically grows to about 20 cm across and weighs between 4 and 5 kg. The bright red flesh is firm, crisp, and exceptionally juicy, with only a few seeds.
Packet $2.49 | 25 g $6.40 | 125 g $21.25

Tendersweet Orange • 2420
85 days
25 seeds per packet. It's back! This long-time favourite will delight with its luscious, bright orange flesh. Very tender and sweet oblong fruits weigh in at 7 kg or more! More than a novelty, this variety will compete with any watermelon on sweetness and taste.
Packet $2.49 | 25 g $9 | 125 g $30

Slice into summer!

Crimson Sweet

Seed Starting | Tips for Success!

Starting seeds is exciting, but a few common challenges can leave gardeners scratching their heads. Here are some simple tips to help your seedlings thrive!

Leggy seedlings?
Give seedlings plenty of bright light as soon as they emerge. Insufficient light causes tall, weak stems.

Seeds not sprouting?
Check the recommended germination temperature and keep the growing medium consistently moist, but not soggy.

Mould on the soil?
Avoid overwatering and provide good air circulation. A little surface mould can be a sign that conditions are too damp.

Seedlings falling over?
Good airflow, proper watering, and clean growing containers help reduce damping-off, a fungal disease that can kill young seedlings.

When should you transplant?
Wait until seedlings have developed a few sets of true leaves and are sturdy enough to handle.

Remember: Every seedling grows at its own pace!
Follow the instructions on your seed packet, be patient, and enjoy watching your garden grow.

Asian Vegetables

Bitter Gourd 亮绿苦瓜 *(Momordica charantia)* • 2565
75 days
7-10 seeds per packet. 5-7 seeds per gram. Heavily warted, slim, 25 cm green-skinned fruits have thick white flesh and bitter flavour. Packed with nutrients. Enjoy them raw, steamed, or baked. Harvest as you would cucumbers.
Packet $2.99 | 10 g $18.70 | 25 g $33

Blue Jade Hybrid Chinese Broccoli/Gai Lan • 1282
(Brassica rapa var. parachinensis)
50 days
140 seeds per packet. 250 seeds per gram. Vigorous plant with uniform growth. Thick green stems with rounded, glossy blue-green to deep green leaves. Produces small flower buds when mature. Flavour is quite similar to broccoli. Tender young shoots and leaves can also be harvested.
Packet $2.99 | 10 g $18 | 25 g $37.50

Edible Chrysanthemum *(Glebionis coronaria)* • 2551 ***NEW FOR 2027***
45 days
1,000 seeds per packet. 500 seeds per gram. Fast-growing, vigorous annual with tender, deeply serrated, dark green leaves and a distinctive aromatic flavour. Popular in Asian cuisine, the young leaves are delicious in salads, soups, stir-fries and hot pots. Can also be grown for baby greens or microgreens.
Packet $2.99 | 25 g $7.50 | 125 g $25 | 500 g $65

Garland Round Leaved *(Chrysanthemum coronarium)* • 2550
40 days
375 seeds per packet. 625 seeds per gram. A juicy, tender Japanese green with broad serrated leaves and white rib. Great for salads; tolerant of cool weather.
Packet $2.19 | 125 g $20.95 | 500 g $65.65

Mitsuba 三叶芹芽苗菜 *(Cryptotaenia japonica)* • 2575
50 days
375 seeds per packet. 300 seeds per gram. Japanese herb with a flavour reminiscent of celery and parsley. Use leaves, roots and stems raw in salads or steamed.
Packet $2.19 | 25 g $10 | 125 g $44

Organic Mizuna *(Brassica rapa subsp. nipposinica)* • 4122
40 days
500 seeds per packet. 450 seeds per gram. A beautiful Japanese green! Vigorous, high yielding plants are loaded with broad, light green, deeply serrated leaves with white ribs. Mild and crunchy with a hint of horseradish. Plants have good cold tolerance. A great addition to mesclun mixes or stir-fries.
Packet $3.59 | 25 g $25

Mizuna *(Brassica rapa subsp. nipposinica)* • 1800
40 days
750 seeds per packet. 450 seeds per gram. An attractive Japanese green with vigorous, high-yielding plants bearing broad, light green, deeply cut, serrated leaves with striking white ribs. The mild, crunchy leaves have a delicate horseradish flavour and excellent cold tolerance. Perfect for fresh mesclun mixes or stir-fried dishes.
Packet $2.49 | 25 g $8.75 | 125 g $17.50 | 500 g $45.50

Tianjin Hybrid Chinese Celery 天津实心绿唐芹
(Apium graveolens var. secalinum) • 1461
60 days
500 seeds per packet. 3,000 seeds per gram. Smaller and more delicate than standard celery. Stems are thin, hollow, and quite crisp. Medium-green young leaves and stems are used to add both flavour and aroma to stir-fries, soup and sauces.
Packet $2.99 | 25 g $17.50 | 125 g $52.50

Tsoi Sim *(Brassica rapa var. parachinensis)* • 2595
40 days
550 seeds per packet. 500 seeds per gram. Thick, shiny leaves on flowering stalks similar to Italian rapini. Has a mild mustard pungency.
Packet $2.49 | 25 g $7.50 | 125 g $25

Organic Heirloom (Time-tested variety) Container (Great for pots)

Chinese Cabbage
(Brassica rapa, Pekinensis group) - 300 seeds per gram

Sow outdoors *May, 5 mm deep and 2.5 cm apart in rows 75 cm apart.*

Thin to *45 cm apart for full-sized plants and 10 cm apart for baby greens.*

Pro Tip: *Garden pests like caterpillars and beetles love these delicious cabbages as much as we do! Floating row covers can help keep out unwanted visitors.*

Organic Baby Pak Choi • 4027
45 days
300 seeds per packet. A rapidly maturing Asian favourite with heavy, uniform, dark green leaves on spoon-shaped celery-like stalks that are very tender and crisp. An excellent variety for use in salads and stir-fries. Grows best in cool weather and can be used as a spring or fall crop.
Packet $2.99 | 25 g $11.25 | 500 g $97.50

Michili • 1340
70 days
475 seeds per packet. Dark green exterior leaves hide a solid interior of beautifully blanched spicy tasting leaves that are tender and crisp. Heads have a pronounced taper towards the tip and average 45 cm high and 10 cm in diameter. Very large, spicy leaves are produced prior to heading-up. Best grown late summer into fall. Optimum growing conditions are cool days 12-21 °C with cool to cold nights 4-10°C.
Packet $2.19 | 25 g $6.85 | 125 g $18.10 | 500 g $38.20 | 1 kg $54.55

Pak Choi • 1345
45 days
475 seeds per packet. A rapidly maturing Asian favourite with heavy, uniform, dark green leaves on spoon-shaped celery-like stalks that are very tender and crisp. An excellent variety for use in salads and stir-fries. Grows best in cool weather and can be used as a spring or fall crop.
Packet $2.99 | 25 g $6.85 | 125 g $18.10 | 500 g $38.20 | 1 kg $54.55

Pak Choi Mei Quing Hybrid • 1341
40 days
50 seeds per packet. Variety originated in Japan. Visually enticing compact vase-like plants grow to 25 cm in height. Tightly whorled, flattened, pale green stems, mature into oval, deeper green leaves. Texture is crisp yet tender with a slightly sweet taste.
Packet $2.99 | 500 seeds $6.60 | 1,000 seeds $11.40

Toy Choi • 1350
35 days
150 seeds per packet. The small 15 cm stalks with white petioles contrast sharply with succulent dark green leaves of this mini-Pak Choi.
Packet $2.49 | 500 seeds $6.60 | 1,000 seeds $11.40

Mustard *(Brassica juncea) – 450 seeds per gram*

Sow outdoors *April to August, 1 cm deep and 2.5 cm apart in rows 60 cm apart.*

Thin to *15 cm apart when seedlings have 3-4 true leaves.*

Pro Tip: *Harvest as baby greens, or leaves from mature plants as needed.*

Giant Red • 2580
45 days
800 seeds per packet. Large, deep purple-red leaves with white mid-rib are tender and thick with a mustard pungency. Great in salads. Sow spring or fall.
Packet $2.19 | 125 g $20.95 | 500 g $65.65

Southern Giant Curled • 1795
30 days
500 seeds per packet. Fast-growing plants reach approximately 40 cm tall and produce abundant deeply frilled, finely cut, medium green leaves. Young leaves have a mild flavour that develops into a pungent mustard taste as they mature. An excellent addition to fresh salads.
Packet $2.49 | 25 g $8.75 | 125 g $17.50 | 500 g $45.50

Beet Nobel • 1000
63 days
50 seeds per packet. Dark red, globe-shaped roots, smooth crown and very short top. Quick to mature, very consistent shape and delicious, sweet flavour. Good tolerance to bolting. The neat, small leaves are an excellent addition to baby leaf salads. Perfect for summer or fall harvests.
Packet $4.49

Organic Carrot Red Cored Chantenay • 4210
72 days
100 seeds per packet. One of our most popular storage varieties. Orange-scarlet roots are smooth, even-shaped, full of essential vitamins and are an excellent source of dietary fibre. These meaty carrots average 15 cm long and 2.5 cm thick with a juicy, sweet taste. A good choice for heavier soils.
Packet $4.99

Carrot Mercurio Hybrid • 1005
70 days
130 seeds per packet. Bright orange Nantes-type carrots with a distinct blunt-ended root that averages 15-20 cm long. Holds its sweet, tender quality for a long time. A great tasting carrot! Sow early for later summer picking or mid summer for fall storage.
Packet $4.49

Lettuce Salad Bowl • 1010
45 days
100 seeds per packet. Medium green leaves are long and deeply lobed with a tender texture and sweet taste. Salad Bowl shows good resistance to bolting and is relatively heat tolerant. Good for both spring and late summer plantings!
Packet $4.49

Organic Kale Siberian • 4211
70 days
100 seeds per packet. One of the most ornamental kales you'll ever grow. Full, non-heading plants are 30 cm with a 40 cm spread. Packed with tightly curled rich, blue-green leaves that are full of vitamins and antioxidants. Taste improves when touched by fall frosts!
Packet $4.99

Organic Mesclun French Salad Mix • 4212
45-50 days
200 seeds per packet. An enticing combination of flavours. Contains Arugula, Endive plus six scrumptious lettuces – May King, Hilde, Green Salad Bowl, Lollo Rossa, Red Salad Bowl, Marveille Four Seasons.
Packet $4.99

Mesclun Mix • 1012
25 days
200 seeds per packet. The ultimate in salad greens and lettuces all in one special blend. Contains three mixed chicories, one endive and a dozen different lettuces, plus arugula. Heat tolerant and vitamin-rich. Sow in late spring and again in late summer for fall crops.
Packet $4.49

Organic Onion White Lisbon Bunching • 4213
65 days
130 seeds per packet. A hardy, mildly flavoured, fast-growing spring onion or scallion that does not produce the "traditional bulb". Thin skinned, green tops are perfect for salads and stir-fries.
Packet $4.99

Organic Parsley Moss Curled • 4214
70 days
200 seeds per packet. Upright-growing plants form a dense rosette of finely-cut, rich green, double-curled aromatic leaves. Makes an attractive garnish or eat as a natural breath freshener.
Packet $4.99

Radish Cherry Belle • 1015
21 days
100 seeds per packet. A delightful cherry red root that has solid, crisp, very sweet and mild tasting, white flesh. An extra early variety that forces well under glass and maintains its good eating quality for an extended period. Ideal for late spring to early summer plantings.
Packet $4.49

Organic Radish Sparkler • 4215
23 days
100 seeds per packet. A beautiful round radish. The top half is a fine scarlet colour with a rosy edge bordering a pure white bottom half. Tender yet crisp flesh on what is possibly the finest market radish. This variety tastes best when harvested around 2.5 cm in diameter.
Packet $4.99

Spinach Viking • 1020
50 days
100 seeds per packet. A wonderful home garden variety producing heavy yields of glossy, dark green, savoyed leaves, rich in vitamins and all-around goodness! A long-standing, heat-tolerant variety. Sow early spring or late fall. Keep well watered.
Packet $4.49

Organic **Heirloom** (Time-tested variety) **Container** (Great for pots)

Pre-Spaced SEED DISCS

Starting your own fresh herb garden on a sunny windowsill or patio container has never been easier! ***We're thrilled to introduce our brand-new Pre-Spaced Seed Discs*** *– a clean, effortless way to grow a rich collection of kitchen herbs without the hassle of handling tiny seeds or thinning out crowded sprouts.*

Fresh Kitchen Herbs Made Easy — No Thinning, No Fuss!

Each biodegradable disc is precision-planted with a perfectly balanced mix of high-quality seeds. Designed specifically to fit standard 10–12 cm pots, these discs take all the guesswork out of indoor and container gardening. Just set the disc on pre-moistened potting soil, cover lightly with 6 mm of fine soil, water gently, and watch your garden grow.

Annual Herb Mix • 1030
45-60 days
A classic kitchen garden selection that sprouts quickly for fresh, continuous harvests all season long! Perfect for kitchen windowsills and balcony containers. Enjoy aromatic leaves ready to snip fresh into salads, sauces, and teas all summer. Plant in full sun, plant heights range from 14-45 cm. Contains: Sweet Basil, Cilantro, Arugula, Chamomile, and Parsley.
Collection: 5 Discs $6.95

Perennial Herb Mix • 1036
60-90 days
A hardy, long-lasting collection designed for year-round indoor pots or returning outdoor containers! Plant once and enjoy savory, perennial flavor year after year. Plant in full sun, plant heights range from 20-60 cm. Contains: Oregano, Mint, Rosemary, Thyme, and Chives.
Collection: 5 Discs $6.95

Simple Growing Tips

Watering: Water gently using a fine spray bottle or light trickle to avoid dislodging the disc beneath the soil. Keep evenly moist and place in a warm, sunny location.

Harvesting: Harvest leaves regularly once plants are established to encourage full, bushy, continuous growth.

An easy way to start a kitchen garden!

Anise *(Pimpinella anisum)* • 3000
75 days
100 seeds per packet. 100 seeds per gram. Seeds are used in cakes, bread, soups, stews and teas. Freshly chopped leaves are also appealing in salads. Grows 45-60 cm tall. May self-sow and establish persistent stands. Annual.
Packet $2.19 | 125 g $23.75 | 500 g $61.75

Organic Arugula/Roquette *(Erica sativa)* • 4000
40 days
125 seeds per packet. 400 seeds per gram. Has a delicious nutty flavour that is perfect in salads or cooked like spinach. Pick young shoots when 5-15 cm long for best fresh flavour while the older foliage makes an interesting steamed vegetable. Note: plants vary in leaf shape and earliness of flowering. Plants can mature to 90 cm tall. Annual.
Packet $3.59 | 250 g $35.50 | 500 g $65

Arugula/Roquette *(Erica sativa)* • 3085
40 days
300 seeds per packet. 400 seeds per gram. Strong tasting, spinach-like greens with delicious nut-like flavour. Delicious in salads or cooked like spinach. We recommend picking young shoots whe n 5-15 cm long for best flavour, while the older foliage makes for a delightful, steamed vegetable. It is interesting to note the plants vary in leaf shape and earliness of flowering and, as with many greens, a cool season is best for this plant. Plants can mature to 90 cm tall. Annual.
Packet $2.19 | 25 g $7.50 | 125 g $25 | 500 g $65

Wild Arugula *(Diplotaxis tenuifolia)* • 3086
45 days
1,000 seeds per packet. 4,000 seeds per gram. Variety originated in Italy. Deeply lobed leaves have a sweet, pungent taste and an intense peppery bite. Best used in mixed salads or in sauces, stews and soups.
Packet $2.99 | 25 g $7.50 | 125 g $25 | 500 g $65

Borage *(Borago officinalis)* • 3010
60 days
Borage seeds produce loads of pretty blue flowers that help to attract beneficial bees to your garden. Flowers are used as a garnish for salads or are candied, while the leaves are used to flavour claret punch. Annual.
Packet $2.19 | 125 g $20 | 500 g $52

Caraway *(Carum carvi)* • 3015
70 days
350 seeds per packet. 400 seeds per gram. Fresh leaves make a perfect garnish, seeds add a spicy zest to salads, breads, meat dishes or soups. Slender roots can be eaten like carrots/parsnips. Matures to 30-45 cm height. Biennial.
Packet $2.19 | 125 g $25 | 500 g $65

Catnip *(Nepeta cataria)* • 3020
75 days
700 seeds per packet. 1,500 seeds per gram. Cats love it...but the green-grey leaves are tasty in salads, teas and soups. Works well as a pollinator plant for the bees! Matures to 90 cm. Perennial.
Packet $2.49 | 25 g $9.40 | 125 g $31.25 | 500 g $81.25

Organic Cilantro/Coriander *(Coriandrum sativum)* • 4055
50 days
100 seeds per packet. 65 seeds per gram. Fresh leaves have a sharp, citrusy, nutty flavour that complement many dishes while the seeds spice up salsas, soups and stews. Uniform, upright 45-60 cm plants are slow bolting and heavy yielding. Sow every few weeks for summer long harvest. Annual.
Packet $3.59 | 250 g $45 | 500 g $65

Cilantro/Coriander *(Coriandrum sativum)* • 3045
55 days
100 seeds per packet. 100 seeds per gram. Fresh leaves have a sharp, citrus, nutty flavour that complement many dishes while the seed spices up salsas, soups and stews. Uniform, upright 45-60 cm plants are slow bolting and heavy yielding. Sow every few weeks for summer long harvest. Annual.
Packet $2.19 | 125 g $11.25 | 500 g $29.25

Organic **Heirloom** (Time-tested variety) **Container** (Great for pots)

Garlic Chives

Garlic Chives *(Allium tuberosum)* • 3040
75 days
150 seeds per packet. 300 seeds per gram. Thin, flat leaves possess a delicate garlic flavour in any dish. Edible white flowers spice up salads or make a great addition to bouquets. Dry/freeze extra cuttings for winter use. Matures to 20 cm height. Long lived perennial with late summer flowers.
Packet $2.19 | 25 g $11.65 | 125 g $38.75 | 500 g $100.75

Organic Chives *(Allium schoenoprasum)* • 4050
60 days
400 seeds per packet. 840 seeds per gram. Grows as tufts of grassy, tubular-shaped leaves much like miniature onion leaves. Use the delicate, mild onion-flavoured leaves in salads, soups, omelettes and dips. Plants grow in clusters to 20 cm high and produce pretty, edible, purple, ball-shaped flowers about 2.5 cm in diameter. Often, gardeners find chives spreading throughout the garden, easily on their own. Despite this, chives can be a fussy germinator, with the seed sometimes taking much longer to emerge than expected. Perennial.
Packet $3.59 | 25 g $41.25

Chervil *(Anthriscus cerefolium)* • 3030
60 days
225 seeds per packet. 400 seeds per gram. A delicate-leaved herb with aromatic, finely cut, bright green leaves used in salads and seasoning. Chervil is used in the 'fines herbes' mixture made famous by French cuisine. When chervil is used alone it is best with cold dishes or just prior to presentation of cooked foods to enjoy its hint of licorice. In the garden, chervil is sometimes used as a decoy plant for slugs and other garden pests. Height 30 cm. Annual.
Packet $2.19 | 125 g $12.50 | 500 g $32.50

Chamomile *(Matricaria chamomilla)* • 3025
80 days
600 seeds per packet. 16,000 seeds per gram. Harvest and steep the aromatic, daisy-like flowers for a relaxing, soothing tea or other medicinal uses. The fresh/dried flowers are delightful in potpourris. Chamomile is very easy to grow and makes a great plant for the back of the rock garden! Also known as Kamille or Mayweed. Matures to 30-45 cm. Annual.
Packet $2.19 | 25 g $9.40 | 125 g $31.25 | 500 g $81.25

Cumin *(Cuminum cyminum)* • 3047
70 days
200 seeds per packet. 240 seeds per gram. Fragrant, ferny foliage and tiny white flowers that bloom during the hot summer months adorn this robust 50 cm plant. One of the most popular spices worldwide, it is an essential part of curry spiced dishes, soups and sauces. Grows best in warmer climates but will produce seeds in northern gardens when started early. Annual.
Packet $2.19 | 125 g $21.25 | 500 g $55.25

Dill Fernleaf *(Anethum graveolens)* • 3052
70 days
75 seeds per packet. 330 seeds per gram. AAS Winner. A beautiful dwarf dill growing only 30-45 cm. Tidy, bright yellow umbels producing loads of seeds. Makes a great border or container plant. Annual.
Packet $2.99 | 2,000 seeds $14.50 | 5,000 seeds $24.15
15,000 seeds $49.50

Organic Dill "Mammoth" *(Anethum graveolens)* • 4060
70 days
1,000 seeds per packet. 720 seeds per gram. Early blooming, feathery foliaged plants produce large seed umbels of yellow flowers that are the essential picking herb for pickles and vinegars. Sow at the back of the garden as plants can reach 1.5 m height. Annual.
Packet $3.59 | 250 g $45 | 500 g $65

Climbing (Requires staking/cage) **Disease Resistant** **Premium Variety**

Dill "Mammoth" *(Anethum graveolens)* • 3050
70 days
500 seeds per packet. 900 seeds per gram. Early blooming, feathery foliaged plants produce large seed umbels of yellow flowers that are the essential picking herb for pickles and vinegars. Sow at the back of the garden as plants can reach 1.5 m height. Annual.
Packet $2.49 | 125 g $15 | 500 g $39

Florence Fennel *(Foeniculum vulgare azoicum)* • 3055
90 days
175 seeds per packet. 280 seeds per gram. Florence Fennel seeds produce a plant with a swollen, bulbous base that has a pleasing anise-like flavour. It is absolutely superb when used raw in salads or cooked in chicken dishes. Above the bulbous root, lacy carrot-like foliage grows to about 75 cm high and makes a great garnish. Fennel, like dill, also attracts a range of beneficial insects to the garden. Annual.
Packet $2.19 | 125 g $21.25 | 500 g $55.25

Lavender *(Lavandula officinalis)* • 3060
100 days
160 seeds per packet. 800 seeds per gram. Lavender seeds are a Mediterranean native that grow as a short, shrubby, multi-stemmed herb. Lavender, once established, will do best in full sun with well-drained soil. Blooms for a long time. Flowers are dried and used in sachets and potpourri. The foliage, when disturbed, produces a wonderfully fragrant addition to any garden. The flowers provide a very important food source for bees. Perennial.
Packet $2.19 | 10 g $20 | 25 g $37.50

Lavender

Lemon Balm

Lovage

Okra

Lemon Balm *(Melissa officinalis)* • 3005
70 days
300 seeds per packet. 1600 seeds per gram. Leaves have a delightful lemon fragrance and make a wonderful tea. Grows to 30 cm tall in containers and to 60 cm in height when planted in the garden. We suggest growing this herb in partial shade on droughty soils. Lemon Balm, which is a member of the mint family, may self-sow and establish adventive stands. The nectar-filled white flowers are a major attractant for bees. Perennial.
Packet $2.49 | 25 g $23.65 | 125 g $78.75

Lovage *(Levisticum officinale)* • 3065
90 days
175 seeds per packet. 280 seeds per gram. Young leaves and seeds with a celery-like flavour are an essential ingredient in soup stocks and stews. Crushed seeds are used in poultry dressings and cheese spreads, while the roots are best suited for roasting or sauteing. A great plant for attracting beneficial insects to the garden. Perennial.
Packet $2.49 | 25 g $22.50 | 125 g $75

Organic Okra *(Abelmoschus esculentus)* • 4124
52 days
30 seeds per packet. 17 seeds per gram. Rich in flavour and protein the dark green, fleshy, tender pods add body and flavour to soups and stews. Tasty as a cooked vegetable too. Pods are at their best when 15-20 cm long, 2.5 cm diameter. Enjoys warm soil. Frequent picking encourages extended production. Annual.
Packet $3.59 | 25 g $15.65 | 500 g $81.25

Okra *(Abelmoschus esculentus)* • 3070
52 days
40 seeds per packet. 17 seeds per gram. Rich in flavour and protein the dark green, fleshy, tender pods add body and flavour to soups and stews. Tasty as a cooked vegetable too. Pods are at their best when 15-20 cm long, 2.5 cm diameter. Plants enjoy warm soil. Frequent picking encourages extended production. Annual.
Packet $2.19 | 125 g $8.75 | 500 g $22.75

Organic Oregano *(Origanum heracleoticum)* • 4065
90 days
500 seeds per packet. 7,000 seeds per gram. Essential for Italian and Mediterranean cooking. Bright green leaves have a strong aroma with a spicy, intense flavour that goes well with a variety of tomato dishes, pizzas or soups. Beautiful in the garden with its white flowers and irresistible to bees. Perennial.
Packet $3.59 | 2 g $24.50 | 5 g $52.50

Oregano *(Origanum heracleoticum)* • 3075
90 days
500 seeds per packet. 7,000 seeds per gram. Essential for Italian and Mediterranean cooking. Bright green leaves have a strong aroma and spicy, intense flavour that goes well with a variety of tomato dishes, pizzas or soups. Beautiful in the garden with its white flowers and irresistible to bees. Perennial.
Packet $2.99 | 10 g $22 | 25 g $41.25

Rosemary *(Rosmarinus officinalis)* • 3090
100-200 days
100 seeds per packet. 800 seeds per gram. Rosemary seeds grow into a coarse, upright, bushy plant with pale blue flowers. An incredibly pleasing fragrance is released when the leaves are handled. There is no doubt that rosemary is an important (almost compulsory) component of poultry stuffing but it also goes hand-in-hand with lamb and pork dishes. Start indoors, as it is slow to germinate. Mature plants reach 60-90 cm tall. Tender perennial.
Packet $2.99 | 2 g $19.60 | 5 g $45 | 10 g $71

Organic Sage *(Salvia officinalis)* • 4067
85 days
75 seeds per packet. 100 seeds per gram. Sage seeds produce a fragrant, slightly bitter herb plant used extensively for flavouring meats, soups and cheese dishes. Another member of the mint family. Sage seeds grow greyish coloured leaves that are used either fresh or dried. Flowers shade from blue to purplish-blue in colour. Plants can grow to 60 cm tall and can spread out at least as wide. Mature plants often become woody so prune out some of the older wood to stimulate new growth. Perennial.
Packet $3.59 | 5 g $19.50 | 25 g $56.90

Sage *(Salvia officinalis)* • 3095
80 days
75 seeds per packet. 130 seeds per gram. Sage seeds produce a fragrant, slightly bitter herb plant used extensively for flavouring meats, soups, omelettes and cheese dishes. Another member of the mint family. Sage seeds grow greyish coloured leaves that are used either fresh or dried. Flowers shade from blue to purplish-blue in colour. Plants can grow to 60 cm tall and can spread almost as wide. Mature plants often become woody so prune out some of the older wood to stimulate new, tastier growth. Perennial.
Packet $2.19 | 25 g $15 | 125 g $50 | 500 g $130

Sorrel *(Rumex acetosa)* • 3100
70 days
500 seeds per packet. 1,000 seeds per gram. Large, thick, spinach-like leaves add a lemony zest to salads, soups, jellies and sauces. Sorrel is naturally high in oxalic acid, so avoid eating large amounts if you suffer from kidney ailments. This herb can be a vigorous grower, so to help rejuvenate your planting, we suggest you divide the roots every three years. Sorrel is also known as Spinach Dock, Soup Weed and Ambada Bhaji. Perennial.
Packet $2.49 | 125 g $27.50 | 500 g $71.50

Spearmint *(Mentha spicata)* • 3080
80 days
700 seeds per packet. 10,500 seeds per gram. Fast and easy to grow. Mildly flavoured and an aggressive grower. Control it by growing in containers. Dried leaves make a refreshing tea and add zest to jellies, salads or summer drinks. Mature plants reach 60 cm height. (Taste test the plants grown from seed and pick the ones you enjoy most. Propagate by root division or rooted cuttings). Perennial.
Packet $2.49 | 5 g $30 | 10 g $48 | 25 g $90

Summer Savory *(Satureja hortensis)* • 3105
60-70 days
500 seeds per packet. 1,400 seeds per gram. A delicate little plant with slender, bronze-green leaves suitable for fresh or dried use in teas, dressings, salads, pasta and stews. Easy to grow plants reach 30-45 cm height. Ideal for container growing. Annual.
Packet $2.19 | 125 g $21.25 | 500 g $55.25

Sweet Marjoram *(Origanum onites)* • 3145
85 days
1,500 seeds per packet. 3,200 seeds per gram. Pale green bushy plants are filled with mild, sweet, aromatic leaves similar in flavour to oregano. Absolutely delicious in sauces, soups and salads and a must-have herb when cooking strong meats. Vigorous growing plants often reaching 60 cm in height. Also known as Pot Marjoram, French Marjoram or Cretan Oregano. Tender perennial best grown as an annual.
Packet $2.19 | 25 g $18.75 | 125 g $62.50

Organic Thyme *(Thymus vulgaris)* • 4085
90 days
700 seeds per packet. 2,800 seeds per gram. Sometimes known as English thyme. It's also an excellent grilling herb with zucchini squash, eggplant and mushrooms. Compact plants reach 30 cm height. The pretty pink flowers are treasured by honey bees! Perennial.
Packet $2.99 | 5 g $24 | 25 g $100

Thyme *(Thymus vulgaris)* • 3155
90 days
700 seeds per packet. 2,800 seeds per gram. Sometimes known as English thyme. There is no other herb that complements as many roasted meat dishes as thyme. It's also an excellent grilling herb with zucchini squash, eggplant and mushrooms. Compact plants reach 30 cm height. The pretty pink flowers are treasured by honey bees! Perennial.
Packet $2.19 | 25 g $30 | 125 g $100 | 500 g $260

Lemon

Sweet Marjoram

Thyme

Basils *(Ocimum basilicum) – 500-700 seeds per gram*

***Sow indoors** March, 4 mm deep and 6 mm apart.*

***Transplant out** late May to June when danger of frost is passed, 30 cm apart.*

***Pro Tip:** Can be sown outdoors late May to June for a later summer harvest.*

Organic Culinary Blend • 4072
50 days
200 seeds per packet. Enjoy our gourmet blend of our four favourite basil varieties – Corsican, Genovese, Lemon and Lime.
Packet $3.59 | 5 g $18 | 25 g $56.25

Dark Opal • 3130
50 days
250 seeds per packet. AAS Winner. Slightly ruffled plants are loaded with lush, purplish-bronze foliage. Valued for its sweet licorice-like flavour and its stunning lilac flowers. Makes a pretty ornamental plant as well. Excellent for seasoning or use in homemade vinegars. It is not uncommon for a small proportion of the leaves to turn green. Height 45 cm. Annual.
Packet $2.49 | 10 g $11.90 | 125 g $42.50 | 500 g $110.50

Everleaf Emerald Towers • 3122
50 days
20 seeds per packet. Traditional Genovese flavour and perfect for eating fresh, in Caprese salads or chopped in your favourite recipe! Dark green, glossy foliage and tidy columnar habit. Height 60-90 cm. Annual.
Packet $2.99

Organic Genovese • 4075
45 days
250 seeds per packet. You will make perfect pesto every time with this very popular Italian basil variety! Extremely tender, fragrant, large 5 cm long, luscious looking, dark green leaves. Slow to bolt. Annual.
Packet $3.59 | 5 g $10 | 25 g $31.25

Genovese • 3125
45 days
250 seeds per packet. A great addition to any herb garden. You will make perfect pesto every time with this very popular Italian basil variety! There is a very spicy taste just waiting to get out of the extremely tender, fragrant, large 5 cm long, luscious looking, dark green leaves. Slow to bolt. Annual.
Packet $2.19 | 125 g $35 | 500 g $91

Lemon • 3115
60 days
150 seeds per packet. AAS Winner. Flavourful and fragrant with up to 75% more essential oils than standard lemon basils. Works wonders with fish, salad dressings, sauces and oils. Upright, medium green plants mature to 40 cm in height. Ideal for gardens or containers. Annual.
Packet $2.99 | 125 g $25 | 500 g $65

Organic Red Rubin • 4071
57 days
250 seeds per packet. Originated in India. Very similar to Dark Opal but with a spicier flavour and deeper red-purple leaves. Matures to 45 cm in height.
Packet $3.59 | 5 g $22 | 25 g $68.75

Siam Queen (Thai) • 3135
90 days
250 seeds per packet. Authentic spicy Thai basil. Purple stemmed, pink flower plants with contrasting long, green leaves and a pungent, anise-clover flavour. Pretty as an herb or a beautiful ornamental in the garden or containers. Mature plants reach 60 cm height and width.
Packet $2.99 | 10 g $17.50 | 25 g $18.75 | 125 g $62.50

Spicy Globe • 3140
45 days
250 seeds per packet. Tidy mound-shaped, very bushy, little plants are filled with 1 cm long leaves. Enriched with a great spicy taste that will jazz up salads, herb vinegar, pasta and pesto dishes. Flowers make an elegant garnish. A superb basil for growing in containers on hot, sunny patios. It doesn't tolerate frost so grow as an annual.
Packet $2.99 | 10 g $12.60 | 125 g $45 | 500 g $117

Blue Spice Bush • 3142
50 days
250 seeds per packet. Vigorous plants with spikes of light purple-blue flowers backed by deep purple bracts. Heavily fragrant with spicy vanilla tones! An excellent addition to fruit salads, poultry dishes and more. Makes a great pot plant too for windowsills or patio gardens.
Packet $2.49 | 10 g $12.60 | 25 g $13.50 | 125 g $45

Organic Sweet • 4070
45 days
400 seeds per packet. Common large-leaf basil with strongly aromatic leaves on early, slow bolting plants. The most important herb in flavouring tomato sauces and pesto! We recommend continually harvesting leaves to delay flower production, as flowers normally signal an end to vegetative growth. Plants typically grow to 30-45 cm in height. Annual.
Packet $3.59 | 5 g $8 | 25 g $25

Packet $2.19 | 125 g $18.75 | 500 g $48.75

Parsley *(Petroselinum crispum) – 530 seeds per gram*

***Sow outdoors** May to July, 5 mm deep and 5 mm apart in rows 40 cm apart.*

***Thin to** 10 cm when seedlings reach 5-7 cm.*

***Pro Tip:** Soak overnight in water to speed up germination!*

Forest Green • 1865
70 days
750 seeds per packet. Long, stiff, upright growing stems hold the dark green, finely cut and beautifully curled leaves well above the soil. This variety has broader leaves and is more flavourful than plain leaved parsley. Holds its fresh look and deep colour quite well and resists browning and bleaching. The best variety for garnishing and a superb ornamental in combination with flowers for use in containers and planters.
Packet $2.49 | 25 g $7.90 | 125 g $21.90 | 500 g $49

Hamburg Root • 1870
90 days
750 seeds per packet. For over 400 years, the slender 15 cm parsnip-like roots with their delicate parsley taste have been used for flavouring soups and stews. This variety stores very well through the winter. A great dual-purpose plant as the coarse leaves contribute a parsley flavour and can be used as a garnish.
Packet $2.49 | 25 g $7.90 | 125 g $21.90 | 500 g $49

Organic Italian Plain Leaved • 4132
78 days
750 seeds per packet. The attractive leaves of this aromatic parsley are flat, deeply cut and a vibrant, glossy dark green. Their rich flavour makes them an excellent culinary garnish for seasoning dishes like fish, sauces or pastas! Widely used in European cuisine for centuries.
Packet $3.59 | 25 g $12.50

Italian Plain Leaved • 1875
78 days
750 seeds per packet. The attractive leaves of this aromatic parsley are flat, deeply cut, with a vibrant glossy dark green. Their rich flavour makes them an excellent culinary garnish for seasoning dishes like fish, sauces or pastas! Widely used in European cuisine for centuries.
Packet $2.49 | 25 g $7.90 | 125 g $21.90 | 500 g $49

Organic Moss Curled • 4130
70 days
750 seeds per packet. Upright growing plants form a dense rosette of finely cut rich green, double-curled aromatic leaves. Has a milder flavour than flat leaf types. Makes an attractive garnish for dishes like fish, sauces or pastas! Widely used in European cuisine for centuries.
Packet $2.99 | 25 g $12.50

Our History

OSC Seeds traces its roots back to the 1890s, in a small Waterloo shop known as Uffelmann's Dry Goods. Over time, the shop expanded into neighbouring store-fronts, eventually growing into our present retail home at 16 King Street South. For decades, our entire operations ran right out of this location, complete with Ballard seed packing machines tucked up in the rafters of the second floor. Even today, it is not uncommon to uncover a decades-old seed packet hidden behind vintage shelving during renovations.

As demand grew, we expanded across Regina Street into warehouse space positioned directly along the railroad tracks, allowing us to unload raw seed shipments straight from train cars. When Waterloo expanded, we grew along with it, moving packaging operations to 330 Phillip Street – then considered the edge of the city, right beside the newly established University of Waterloo. Though we added several outbuildings for warehousing, we eventually outgrew the Phillip Street site as well. In 2011, we relocated production to our current facility on Wellington Street South in Kitchener.
The Kitchener-Waterloo region is a tight-knit urban fabric, and all three of our sites sit within just a few kilometres of each other. We also continue to maintain our experimental farm down the road from the St. Jacobs Farmers' Market – a location held dear by generations of employees who remember summer company picnics at the OSC Farm.

More than 135 years later, we remain a fifth-generation family business, with multiple generations of the Uffelman family coming to work every day. That sense of family extends to our entire team, including a few dedicated team members who have worked here for over 50 years – spanning all three of our locations.

Our local landscape has evolved from saddlemakers to tech developers, and our logistics have shifted from railcars and horse-drawn wagons to trucks and couriers. Through every era, our commitment to offering quality seed at a fair price has remained constant.

Our Seeds & Selection

Today, as Canada's largest Canadian-owned and operated seed packet company, OSC Seeds offers a wide selection of quality seeds for every kind of garden. Whether you are looking to expand your flower beds, grow your own food, maintain a healthy lawn, or sow native grasses and wildflowers, we are here to help you get growing.

Our Standards & Sustainability

OSC Seeds is committed to providing exceptional seed.
We partner with accredited seed laboratories to ensure purity and vitality, while also conducting hundreds of in-house germination tests every year – a process that becomes clear to anyone who visits our rooftop garden!

Our facility roof is also home to two managed beehives, producing honey that we share with our staff. We are deeply mindful of our environmental impact, actively reusing operational materials to minimize waste. Many components of our retail seed displays–including corrugated packet trays, clip strips, wireframe racks, and display pockets–are collected, refurbished, and reused year after year.

Our Community Initiatives

Giving back is a big part of what we do. Through seed donations to food banks, community gardens, and by supporting garden projects across Canada and overseas, we work to improve access to fresh, homegrown food. Supporting growing initiatives helps strengthen food security, bring communities together, and makes a lasting difference.

Annual Flowers

Brighten your garden with our beautiful selection of annual flowers. Annuals provide vibrant colour all summer long but are not frost hardy, so they must be replanted each year. Some varieties are best started indoors, while others can be direct sown after all danger of frost has passed.

Annual Mixtures

Bloom time *July to September.*

Sow outdoors *mid May to mid June, 3 mm deep in a sunny site.*

Sow indoors *March to April for earlier blooms.*

Thin to *20 cm when seedlings have their first set of true leaves.*

Annual Special Mix • 5025
60 cm height
400 seeds per packet. Enjoy a blend of our most popular varieties to give you blooms all summer long! A good choice for beginner gardeners and for filling in gaps between perennials and foundation plantings. Some plants will reseed themselves the second season. Contains: Asters, Marigolds, Bachelor Buttons, Clarkia, Cosmos, Forget-Me-Nots, African Daisy, Baby's Breath, Candytuft, Lavatera, Poppies, Zinnias, and more.
Packet $2.49 | 25 g $18.75 | 125 g $56.25

Blue Splendor • 5026
50-70 cm height
Try something different this year with this attractive mix of annual flowers in an array of rich pastel blues. Sure to delight! Contains: Sweet Pea, Love-in-a-Mist, Dwarf Morning Glory, China Aster, Chinese Forget-Me-Not, Painted Sage, Rocket Larkspur, Phacelia, Perennial Flax, Bachelor Buttons, Meadow Sage, Sweet Pea, Alpine Forget-Me-Not, Love-in-a-Mist, Blue Gilia, Wild Lupine, and Ageratum.
Packet $2.99 | 25 g $18.75 | 125 g $56.25

Everlastings • 5217
60 cm height
350 seeds per packet. A blend of easy-to-grow annual flowers and grasses. These varieties are colourful in the garden and are specially selected for their excellent performance in dried arrangements. Contains: African Daisy, Bachelor Buttons, Bells of Ireland, Calendula, Gomphrena, Gypsophila, Lunaria, Scabiosa, Statice Art Shades Mix, Russian Statice, Strawflower, Angel Hair, Briza-Quaking Grass, Bunny Tails, and more.
Packet $2.19 | 25 g $16.90

Rock Garden • 6030
25-60 cm height
125 seeds per packet. An outstanding blend of low growing, heat and drought tolerant varieties perfect for rock gardens. Tolerates partial shade. Contains: Aster, Siberian Wallflower, Forget-me-Not, Gilia, Sweet Alyssum, Five Spot, Moss Rose, Catchfly, Nodding Catchfly, Zinnia, English Daisy, Johnny Jump Up, Globe Candytuft, Baby Blue Eyes, Pot Marigold, Mignonette, Rocket Candytuft and more.
Packet $2.19

Annual Special Mix

Rock Garden

Blue Splendor

Agastache *(Agastache aurantiaca) – 2,400 seeds per gram*

Bloom time *July to September.*

Sow indoors *March, barely covering seed. Keep at 18 °C for the 14-21 day germination period.*

Transplant outdoors *late May to June, 30 cm apart.*

Fragrant Delight Mixed • 5002
60 cm height
35 seeds per packet. Tall, long-lasting, brightly coloured flower spikes of raspberry, lilac and orange. Very attractive to beneficial insects and hummingbirds. Foliage is wonderfully aromatic. An excellent plant for borders or for containers.
Packet $3.99

Ageratum *(Ageratum houstonianum) – 7,500 seeds per gram*

Bloom time *July to September.*

Sow indoors *March, in plantable peat pots, barely covering seed.*

Transplant outdoors *June after danger of frost is passed, 30 cm apart in sun or partial shade.*

Blue Mink • 5000
20-25 cm height
500 seeds per packet. Giant trusses of fluffy, true-blue flowers. Plants are upright, early flowering and vigorous yet compact in habit. Great for borders or for using as a cut flower. Ageratum resents transplanting. If starting early indoors, sow seeds in plantable pots.
Packet $2.49 | 25 g $31.90 | $125 g 95.65

Alyssum *(Lobularia maritima) – 2,800 seeds per gram*

Bloom time *July to September.*

Sow outdoors *late May, 5 mm deep in a sun to partial shade.*

Thin to *10 cm when seedlings have their first set of true leaves.*

Carpet of Snow • 5005
10-12 cm height
1,000 seeds per packet. Our most popular white flowering plant for edging or groundcover. Has a delightful, honey-like fragrance! Mound-shaped plants spread to 30 cm across. A dainty but robust annual. An excellent fodder plant for bees and other pollinators!
Packet $2.49 | 25 g $25.50 | 125 g 76.50

Royal Carpet • 5010
15 cm height
500 seeds per packet. Vibrant purple-red blooms with a tiny white bee smother the compact, densely branched plants from spring to fall. Early to bloom with vigorous growth. A butterfly favourite!
Packet $2.19 | 25 g $18.75 | 125 g $56.25

Amaranthus *(Amaranthus caudatus) – 1,600 seeds per gram*

Bloom time *July to September.*

Sow outdoors *late May to June, 6 mm deep in a sunny site. Can be started indoors early April for earlier blooms.*

Thin to *45-60 cm apart when seedlings are 7 cm tall.*

Love-Lies-Bleeding • 5020
60-90 cm height
175 seeds per packet. Stunning pendants of red blooms trail from the thick main stems. Large, light green leaves complement the flowers, which appear in early summer and carry through to frost. Excellent for back of the border, drying, or for use as a cut flower. A very useful plant for attracting numerous butterflies and pollinators.
Packet $2.19

Red Garnet • 5015 ***NEW FOR 2027***
2 m height
1,000 seeds per packet. Produces striking deep red foliage and rich burgundy flower plumes on tall, upright plants. A fast-growing annual that adds bold colour and texture to garden beds and borders. Excellent for fresh or dried floral arrangements, and the young leaves and seeds are edible.
Packet $2.99

Powderpuff Bouquet

Giant Crego Mixed

OSC Mixed Colours

Brilliant Mix

Green Bells

Fairy Mixed

Aster *(Callistephus chinensis) – 400 seeds per gram*

Bloom time *July and August.*

Sow outdoors *mid to late May, 5 mm deep in a sunny site.*

Sow indoors *March to April for earlier blooms.*

Thin to *20 cm when seedlings are 7 cm tall.*

Note: *Germination can be irregular and ranges from 50-80%.*

Giant Crego Mixed • 5030
60 cm height ✂️ 🪴
150 seeds per packet. Also known as Ostrich Feathers because of the loose, gracefully curled arrangement of the petals. Fragrant, immense, double flowers averaging 10-15 cm in size. Colours include white, pink, crimson, salmon, rose, blue and purple. A reliable old favourite that is not invasive and a superb cut flower that can be used in beds, borders or containers.
Packet $2.49 | 25 g $18.75 | 125 g $56.25

Powderpuff Bouquet • 5035
60 cm height ⏳
150 seeds per packet. A wonderful balance of pinks, purples, and reds on perfectly shaped, upright plants, only 30 cm across. Fully double, 6 cm wide, fragrant blooms are produced in such numbers that they almost hide the foliage of the plant! Wilt resistant.
Packet $2.49 | 25 g $18.75 | 125 g $56.25

Bachelor Buttons *(Centaurea cyanus) – 220 seeds per gram*

Bloom time *July to September.*

Sow outdoors *mid April to mid May, 1 cm deep in a sunny site.*

Thin to *20 cm apart when seedlings are 5 cm tall.*

Jubilee Gem • 5040
25-30 cm height ⏳
250 seeds per packet. Charming, brightly coloured, blue blossoms fill these compact plants. Very easy to grow and requires little, if any, care!
Packet $2.19 | 25 g $11 | 125 g $24.75

OSC Mixed Colours • 5045
30 cm height ⏳
250 seeds per packet. Robust plants are filled with papery, double flowers in pinks, purples and blues. Uniform, bushy plants make this variety a real dandy! Pretty in the garden or in dried arrangements. Great pollinator plant too!
Packet $2.19 | 25 g $11 | 125 g $24.75

Balsam *(Impatiens balsamina) – 125 seeds per gram*

Bloom time *July to September.*

Sow indoors *mid April, leave seed uncovered as light helps germination.*

Transplant outdoors *late May, 30 cm apart in a sunny site.*

Brilliant Mix • 5050
60 cm height ⏳
75 seeds per packet. A classic favourite with double and semi-double flowers carried above bushy, green foliage. This mixture contains a range of colours including red, white, pink, and purple. Once flowers start, the plants will bloom all summer. Mature flower capsules will harmlessly 'explode' when handled.
Packet $2.19 | 25 g $15 | 125 g $45

Jubilee Gem

✂️ **Cutting** ⏳ **Heirloom** (Time-tested variety) 🪴 **Container** (Great for pots)

Purple Moon

Flowering Beans

Bloom time *July to September.*

Sow outdoors *late May to June, 6 mm deep and 8 cm apart in rows 60 cm apart.*

Purple Moon Hyacinth Bean *(Lablab purpureus)* • 5377 ***NEW FOR 2027***
3-6 m height 🪜
10 seeds per packet. This fast-growing ornamental vine is a showstopper in the garden! Beautiful purple-tinged foliage, fragrant rosy-purple flowers, and striking glossy purple pods add vertical interest, attract pollinators, and create a colourful living screen. Ornamental use only; pods are not edible.
Packet $2.99 | 100 seeds $10.50

Scarlet Runner Pole Bean *(Phaseolus coccineus)* • 1225
3 m height ⏳ 🪜
30-45 seeds per packet. This vigorous, beautiful ornamental is also a delicious food source! Its fast-growing vines create a stunning living screen, while the abundance of bright scarlet flowers provides a spectacular visual display. A sure-fire hummingbird attractant. Young pods are tender, stringless, and a delight to eat, making this a rewarding and multi-functional addition to any space.
Large Packet $3.49 | 250 g $12 | 2 kg $64 | 10 kg $208 | 25 kg $400

Bells of Ireland *(Moluccella laevis) – 150 seeds per gram*

Bloom time *July and August.*

Sow outdoors *mid April, on the surface of the soil.*

Sow indoors *April to May for an early start after pre-chilling seed at 0 °C for 10 to 12 days.*

Transplant outdoors *after danger of frost is passed, 25 cm apart in a sunny site.*

Be patient as Bells of Ireland is a sporadic germinator.

Green Bells • 5065
60 cm height ✂️ ⏳
75 seeds per packet. Interesting looking plant with flower stems composed of shells of green bells closely set around the central stalk. Often, the bells are placed so tightly on the stalk, there is little room for leaves. The tiny, white flowers are found at the base of the green bells. Perfect to add to fresh arrangements. When dried, the bells will turn a light brown colour. When the weather is hot, bells will grow further apart on stalks.
Packet $2.19 | 25 g $15 | 125 g $45

Cactus Mixed

Candytuft *(Iberis umbellata) – 350 seeds per gram*

Bloom time *July to September.*

Sow outdoors *late April to May, 6 mm deep in a sunny site with well-drained soil.*

Thin to *20 cm apart after germination.*

Fairy Mixed • 5105
25 cm height
250 seeds per packet. Pretty, flat-topped clusters of fragrant flowers in pink, rose, white, crimson and scarlet on mounding plants. Most often used as an edging plant and in sunny rock gardens. Attractive to butterflies.
Packet $2.19 | 25 g $11.25 | 125 g $33.75

Cactus

Sow indoors *on the surface of a mixture of sandy loam and vermiculite.*

Germinate *at 23 °C for 14-30 days, keeping soil moist.*

Mixed • 5075
variable heights
125 seeds per packet. This attractive mix of miniature desert plants is easy to grow, perfect for adding to your houseplant collection! Contains a blend of saguaro, barrel, cluster and cereus cacti.
Packet $3.99

Canary Creeper *(Tropaeolum peregrinum) – 8 seeds per gram*

Bloom time *July to September.*

Sow outdoors *late May, 6 mm deep in a sunny site with light afternoon shade.*

Thin to *30 cm apart after germination.*

Canary Creeper • 5100
3 m height 🪜
12 seeds per packet. A vigorous climber loaded with tons of yellow, 2-3 cm wide, nasturtium-like flowers. The flowers resemble a canary with its wings spread. Try this unique flowering vine in the background behind rambling nasturtiums. For best performance, do not fertilize when planted in the garden.
Packet $2.99 | 25 g $11.25

🪜 **Climbing** (Requires staking/cage) **Disease Resistant** ⭐ **Premium Variety**

Calendula *(Calendula officinalis) – 100 seeds per gram*

Bloom time *July and August.*

Sow outdoors *mid to late May, 6 mm deep in a sunny spot with well-drained soil.*

Sow indoors *April to May for earlier blooms.*

Transplant outdoors *after danger of frost is passed, 20 cm apart in the garden.*

Pacific Beauty Mixed • 5080
45 cm height
60 seeds per packet. Spectacular 10 cm blooms in a delightful range of yellow, orange, apricot and cream. Flowers freely throughout the summer on well-branched plants. Calendula can reseed itself but it is not invasive. Easy to grow and perfect for beginner gardeners! Adaptable to poor soil and will tolerate light shade.
Packet $2.19 | 25 g $7.90

California Poppy
(Eschscholzia californica) – 600 seeds per gram

Bloom time *July to September.*

Sow outdoors *mid May, 2 mm deep in a location with full sun and light, sandy soil.*

Thin to *20 cm after germination.*

Pro tip: *California poppy is intolerant of transplanting so do not start indoors.*

Eschscholzia • 5090
30 cm height
275 seeds per packet. Masses of dainty, double flowers in pink, scarlet, copper, orange and yellow are produced on this free-flowering heirloom flower. Finely cut grey-green foliage nicely complements the flowers. Superb for use in bouquets and arrangements. Amazing results in the driest of conditions!
Packet $2.19 | 25 g $9 | 125 g $27

Mission Bells Mixed • 5097
30 cm height
150 seeds per packet. Rugged, drought resistant plants are loaded with a bright contrasting mix of gold, orange, red and white flowers atop finely cut, light green foliage. Perfect for mass plantings and xeriscaping. A bee and butterfly favourite too! Often reseeds itself the second season.
Packet $2.19 | 25 g $18.75 | 125 g $56.25

Cardinal Climber *(Ipomoea quamoclit) – 8 seeds per gram*

Bloom time *July and August.*

Sow outdoors *late May, 6 mm deep in a full sun location. Soak seeds overnight before planting to encourage germination.*

Thin to *30 cm apart after germination.*

Cardinal Climber • 5110
3 m height
18 seeds per packet. An extremely attractive climbing vine. Produces bright crimson-red, white-throated flowers that typically face up and out from the foliage. Makes for a pretty picture as it climbs on fences and arbours. The flowers are quite attractive to hummingbirds. For best performance, do not over fertilize. Prefers slightly acidic soils.
Packet $2.99 | 25 g $11.25

Carnation *(Dianthus barbatus) – 500 seeds per gram*

Bloom time *July to September.*

Sow indoors *April, 3 mm deep.*

Transplant outdoors *early June, 30 cm apart in a sunny site.*

Chabauds Giant • 6395
45 cm height
75 seeds per packet. Spicy fragrance and lots of colour make carnations ideal for the border or cutting garden. Beautiful double flowers are well presented on solid stalks in bright red, snow white, sunshine yellow and intense scarlet.
Packet $2.19 | 25 g $24.40 | 125 g $81.25

Catgrass *(Avena sativa) – 30 seeds per gram*

Sow indoors *5 mm deep, spacing seed 5 mm apart in indirect sunlight. Can be sown anytime of the year for indoor use.*

Sow outdoors *May to August.*

Pro tip: *Mist regularly until germination, then water from the bottom if possible.*

Catgrass • 6700
5-15 cm height
300 seeds per packet. This quick-to-germinate grass is grown as a digestive aid for cats. Your four-legged furry friends will enjoy meow-nching down on this enticing, irresistible treat. Provides a fresh, healthy treat for your furry friends, satisfying their natural urge to chew on grass.
Packet $2.19 | 500 g $5.99 | 2 kg $16.99

Pacific Beauty Mixed

Eschscholzia

Celosia *(Celosia argentea var. plumosa) – 1,300 seeds per gram*

Bloom time *July and August.*

Sow outdoors *mid May, 3 mm deep in a sunny site.*

Sow indoors *April for earlier blooms.*

Transplant outdoors *after danger of frost is passed, 20 cm apart in a sunny site.*

Plumosa Mixed • 5120
90 cm height
500 seeds per packet. Bushy, green plants are topped with brilliantly coloured, feathery plumes in a full range of colours, from intense red to bright yellow. Blooms midsummer to frost. Tolerant of poor soil and dry weather.
Packet $2.49 | 25 g $28.15 | 125 g $84.40

Chrysanthemum
(Chrysanthemum carinatum) – 500 seeds per gram

Bloom time *July to September.*

Sow indoors *March, 3 mm deep.*

Transplant outdoors *late May, spacing 30 cm apart. Tolerates sun and partial shade.*

Formula Mixed • 5185
60 cm height
125 seeds per packet. An intriguing blend of bright colours on extra large single blooms that include many pink, yellow and purple bi-colours. With its extra long, strong stems, this variety makes a superb cut flower! Also a good plant for butterflies and bees. Pinch back plants when they reach 10-15 cm high to promote full flowering later in the season.
Packet $2.19 | 25 g $22.50 | 125 g $67.50

Cineraria *(Senecio cineraria) – 5,200 seeds per gram*

Bloom time *July and August.*

Sow indoors *April, 3 mm deep.*

Transplant outdoors *mid to late May, 25 cm apart in a sunny site.*

Dusty Miller • 5125
25 cm height
250 seeds per packet. Frosty, ice white, deeply serrated, velvety foliage helps to make this an outstanding contrast plant for garden borders and planters. Quite tolerant of high temperatures and drought conditions. Performs well into late fall.
Packet $2.19 | 5 g $16.25 | 25 g $48.75

Clarkia *(Clarkia amoena) – 1,300 seeds per gram*

Bloom time *July and August.*

Sow outdoors *mid May, 3 mm deep in a sunny or mostly sunny location.*

Thin to *25 cm apart when seedlings are 5 cm tall.*

Double Mixed • 5130
60 cm height
700 seeds per packet. Delightful, pink, red, salmon, and white dainty double and semi-double flowers about 2.5 cm wide that resemble hollyhocks. An elegant statement in the garden and a wonderful cut flower. For better flowering, keep plants slightly crowded and go easy on fertilizing.
Packet $2.19 | 125 g $33.75

Cleome *(Cleome hassleriana) – 500 seeds per gram*

Bloom time *July to September.*

Sow outdoors *mid to late May, 3 mm deep in a sunny location.*

Sow indoors *mid March for earlier blooms. Sow seed in moistened growing medium and chill at 4-7 °C for 5-10 days before continuing under grow lights.*

Transplant outdoors *40 cm apart after danger of frost is passed.*

Pink Queen • 5135
90-120 cm height
350 seeds per packet. Large, graceful flower heads with petals in a progression of shades from dark pink to almost white – a real eye-catcher! An excellent choice for dry sites. They make a beautiful cut flower and are very attractive to hummingbirds and other pollinators.
Packet $2.19 | 25 g $11.25 | 125 g $33.75

Coleus *(Solenostemon scutellarioides) – 3,500 seeds per gram*

Bloom time *July to September.*

Sow indoors *April, 5 mm deep, keep at 24 °C for the 8-12 day germination period.*

Transplant *outdoors late May to June, 25 cm apart in a shady spot.*

Rainbow Mixed • 5140
25 cm height
250 seeds per packet. A splash of vivid colour for shady gardens. Colourful leaves feature red, pink and burgundy centres with green edging. Coleus is extremely popular for bedding, window boxes and containers. Very colourful and attractive – simply keep them well-watered and enjoy the show!
Packet $2.19 | 1 g $17.25 | 5 g $52.25

Bright Lights

Annual Coreopsis – *3,640 seeds per gram*

Bloom time *June to August.*

Sow outdoors *late May, on the surface of the soil.*

Sow indoors *mid March to early April for earlier blooms.*

Transplant outdoors *late May, 30 cm apart in a full sun location.*

Corusco Cream-Red *(Coreopsis hybrida)* • 6907
30 cm height
25 seeds per packet. Beautifully compact, dome-shaped annuals are loaded with creamy white flowers with distinctive mahogany rings and large button-like centres. With such unique beauty it's no wonder it's a Fleuroselect Gold Medal winner!
Packet $2.99 | 250 seeds $16

Tinctoria Dwarf *(Coreopsis tinctoria)* • 6895
40 cm height
500 seeds per packet. A compact plant for the front of the border. It features vibrant bicoloured flowers with sunny yellow around dark red centres. This self-seeding annual has good heat tolerance and prefers sandy, well-drained soil.
Packet $2.99 | 125 g $40 | 250 g $65.35 | 500 g $110

Cosmos *(Cosmos bipinnatus) – 70 seeds per gram*

Bloom time *July to September.*

Sow outdoors *late May, 2.5 mm deep in a sunny location.*

Thin to *30-40 cm apart when seedlings are 5-8 cm tall.*

Apricotta • 5153
120 cm height
25 seeds per packet. A tall, free-flowering Cosmos with an exceptional colour combination. Adorable shades of apricot with some pink and a lovely soft pink centre. Makes a wonderful display in tall borders or as cut flowers.
Packet $2.99 | 250 seeds $9.50

Bright Lights • 5150
75 cm height
95 seeds per packet. A rich mixture of bright, double-petalled blooms in shades of warm rich yellow, orange, gold and red about 5 cm in diameter. Pretty, dense plants with finely cut foliage.
Packet $2.19 | 25 g $6.75 | 125 g $20.25 | 500 g $58.50

Carpet Formula Mixed • 5155
30 cm height
95 seeds per packet. Delightful mini-Cosmos for bedding and pots. Compact, well-branched plants are covered in brilliant semi-double flowers in a range of yellows, oranges and reds. Flowers will remain vibrant when dried and pressed.
Packet $2.99 | 25 g $9.40 | 125 g $28.15

Corusco Cream-Red

Apricotta

Packet $2.99 | 250 seeds $9.50

Cupcakes Mixed • 5177
90 cm height
25 seeds per packet. A delightful new shape of Cosmos with extra-large, single and semi-double flowers in white and pale pink up to 12 cm across. Petals are fused together forming a unique bowl shape around a bright yellow centre. Charming plants for any landscape and a butterfly favourite!
Packet $2.99 | 250 seeds $16

Sensation Mix • 5160
90 cm height
120 seeds per packet. A rich mixture of bright, clear blooms in shades of pink, white and red averaging 5 cm in diameter. Pretty, dense, finely cut foliage. While Cosmos prefer full sun they will still flower nicely in partial sun. Spectacular as cut flowers and a must-have for any fresh bouquet!
Packet $2.19 | 25 g $6.75 | 125 g $20.25 | 500 g $58.50

Sensation Pink • 5165
90 cm height
120 seeds per packet. Beautiful pink blooms averaging 5 cm across stand out against dense, finely cut foliage. An outstanding cut flower and a beautiful addition to fresh bouquets.
Packet $2.19 | 25 g $6.75 | 125 g $20.25 | 500 g $58.50

Sensation White • 5175
90 cm height
120 seeds per packet. Pure white, 5 cm blooms are carried above delicate, finely cut foliage for an elegant display all summer long.
Packet $2.19 | 25 g $11.25 | 125 g $33.75 | 500 g $97.50

Xanthos • 5170
25 cm height
15 seeds per packet. Beautiful rounded, 7.5 cm single flowers feature pale yellow centres with a hint of white at their tips. These early flowering dwarf plants are perfect for containers or garden sowing.
Packet $2.99 | 100 seeds $12.60

Cosimo Purple, Red-White

Annual Forget-Me-Not
(Cynoglossum amabile) – 170 seeds per gram

Bloom time *July to September.*

Sow outdoors *mid April to mid May, 5 mm deep. Prefers full sun but will tolerate partial shade.*

Thin to *30-35 cm apart when seedlings are 7 cm tall.*

Chinese Forget-Me-Not • 5190
40 cm height
250 seeds per packet. Very fast-growing plant that produces clusters of sweetly scented, clear indigo-blue flowers. Foliage is an attractive silvery-grey. Plants generally finish flowering by late July to early August and will often reseed themselves for the following season. Can provide some welcome early spring colour in partially shady sites. Bees absolutely love the flowers!
Packet $2.19 | 25 g $7.50 | 125 g $22.50

Dahlia *(Dahlia variabilis) – 100 seeds per gram*

Bloom time *July and August.*

Sow outdoors *mid May, 5 mm deep in a sunny spot.*

Sow indoors *April for earlier blooms.*

Transplant outdoors *late May, spacing 20 cm apart.*

Unwins Dwarf Mixed • 5195
60 cm height
65 seeds per packet. Large double and semi-double flowers 7.5 cm across adorn these pretty plants. Colours include soft pink, deep rose, yellow, orange, scarlet and crimson. Plants typically flower from early July until frost arrives.
Packet $2.49 | 15 g $26.65 | 25 g $40

Sensation Pink

Chinese Forget-Me-Not

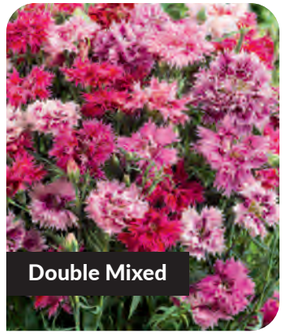
Unwins Dwarf Mixed

Climbing (Requires staking/cage) Disease Resistant Premium Variety

Aurantica Hybrids



Double Mixed

Baby Blue

Flowering Kale

Flowering Cabbage

African Daisy

(Dimorphotheca aurantiaca) – 150 seeds per gram

Bloom time *July to September.*

Sow outdoors *mid May, 6 mm deep in a full sun location.*

Sow indoors *mid April for earlier blooms.*

Transplant outdoors *late May, spacing 30 cm apart.*

Aurantica Hybrids • 5200
45 cm height
250 seeds per packet. Pretty, single daisy-like flowers in shades of orange, buff and yellow are held above fuzzy, silver-grey foliage. An excellent border plant. prolific bloomer once flowering starts. Pinch out growing points on young plants to stimulate bushy growth. A good plant for sunny, dry areas.
Packet $2.49 | 25 g $20.65 | 125 g $61.90

Dianthus

(Dianthus chinensis) – 850 seeds per gram

Bloom time *July and August.*

Sow outdoors *mid May, 3 mm deep in full sun.*

Sow indoors *early March for earlier blooms.*

Transplant outdoors *mid to late May, spacing 23 cm apart.*

Double Mixed • 5205
40 cm height
400 seeds per packet. Also known as pinks. An old-fashioned favourite with deeply frilled and sweetly scented double flowers. Tidy plants produce their fragrant flowers in clusters with pinks, reds and white predominating. Deadhead spent blooms to encourage continuous flowering.
Packet $2.49 | 25 g $17.25 | 125 g $51.75

Eucalyptus

(Eucalyptus spp.) – 1,500 seeds per gram

Sow indoors *March and April, 6 mm deep in separate peat pots.*

Transplant outdoors *June after all danger of frost is passed.*

Baby Blue • 5212
60-90 cm height
15 seeds per packet. Perfect as a container plant or grown as a point of interest in the garden. Beautiful silvery blue foliage makes a pretty contrast in fresh or dried flower arrangements. Leaves have a lovely mint or menthol-like fragrance. It can be brought indoors in early fall and is often grown on as a houseplant through the fall and winter.
Packet $3.99

Flowering Cabbage & Kale

(Brassica oleracea) – 250 seeds per gram

Bloom time *July to September.*

Sow outdoors *mid May to mid June, 1 cm deep in full sun.*

Sow indoors *mid April for earlier blooms.*

Transplant outdoors *late May, spacing 60 cm apart.*

Flowering Cabbage • 5220
30 cm height
50 seeds per packet. Looks like a miniature cabbage with a stunning mix of wavy leaved red and white types. Expect considerable variation in colour and leaf forms. Perfect for the fall and early winter garden. Try interplanting with garden mums.
Packet $2.19 | 5 g $15.75

Flowering Kale • 5225
30 cm height
50 seeds per packet. A cabbage-like kale that highlights any garden with its rose or purple-coloured frilly leaves. Taller and wider than our flowering cabbage variety. A must for late season colour in every landscape.
Packet $2.19 | 5 g $15.75

Flowering Tobacco

(Nicotiana sylvestris) – 27,000 seeds per gram

Bloom time *July and August.*

Sow outdoors *late May, 1 mm deep in full sun to partial shade.*

Sow indoors *mid April for earlier blooms.*

Transplant outdoors *late May, spacing 45 cm apart.*

Only the Lonely • 5227
150 cm height
100 seeds per packet. This old-school favourite makes a very stately plant in the flower garden. An ideal choice for the back of the border. Numerous long, pendulous, white, trumpet-shaped flowers hang in clusters from the top of the plant. Flowers have an intoxicating fragrance that is particularly inviting on still, warm summer nights.
Packet $2.99

Four O' Clocks

(Mirabilis jalapa) – 10 seeds per gram

Bloom time *July and August.*

Sow outdoors *mid May to early June, 1 cm deep in full sun to partial shade.*

Sow indoors *mid April for earlier blooms.*

Transplant outdoors *late May, spacing 60 cm apart.*

Marvel of Peru Mixture • *5230*
60 cm height
30 seeds per packet. Bright, clear flowers of white, red, yellow, rose and lilac open later in the day, although they will open somewhat earlier on cloudy days. Flowers are fragrant and attractive to butterflies, hummingbirds and bees. Due to their size and bushiness, Four O' Clocks are quite suitable as an informal flowering hedge.
Packet $2.49 | 25 g $7.50 | 125 g $22.50 | 500 g $65

Marvel of Peru Mixture

Rose • 5240
30 seeds per packet. Beautiful rose-coloured blooms open late in the afternoon, earlier on cloudy days. Lightly fragrant and rich in nectar, they are a favourite of butterflies, hummingbirds and bees.
Packet $2.49 | 25 g $7.50 | 125 g $22.50 | 500 g $65

Yellow • 5235
30 seeds per packet. Masses of cheerful yellow blooms open in the late afternoon. Lightly fragrant and rich in nectar, they attract butterflies, hummingbirds and bees throughout the season.
Packet $2.49 | 25 g $7.50 | 125 g $22.50 | 500 g $65

Gaillardia

(Gaillardia pulchella) – 600 seeds per gram

Bloom time *July and August.*

Sow outdoors *late May, 6 mm deep in a sunny site with well-drained soil.*

Sow indoors *mid April for earlier blooms.*

Transplant outdoors *late May, spacing 25 cm apart.*

Picta Double Mixed • 5245
40 cm height
175 seeds per packet. A fully double mixture with well-rounded flower heads that can grow up to 12.5 cm across. Plants produce bold, brightly coloured flowers from summer through to early autumn. May self-sow, but it is not invasive.
Packet $2.49 | 15 g $17.45

Cutting **Heirloom** (Time-tested variety) **Container** (Great for pots) **Climbing** (Requires staking/cage) **Disease Resistant** **Premium Variety**

Gazania *(Gazania x hybrid) – 400 seeds per gram*

Bloom time *July and August.*

Sow outdoors *mid May, 6 mm deep in a sunny site.*

Thin to *20 cm apart when plants are 2.5 cm tall.*

Sunshine Hybrids Mixed • 5250
30 cm height
150 seeds per packet. Brilliantly coloured, eye-catching, daisy-like flowers that are perfect for hot, dry, sunny sites. Decorative silvery foliage complements the dazzling blooms! Intense shades of orange, gold, yellow, russet and white as well as gorgeous bicolour flowers make quite a statement! Blooming slows during excessively hot and damp, humid weather but bounces back when conditions moderate. These plants are great for containers or gardens.
Packet $2.99 | 1 g $15

Geraniums *(Pelargonium x hortorum)*

Bloom time *July and August.*

Sow indoors *January to February, 6 mm deep.*

Transplant outdoors *late May to early June after all danger of frost is passed, 45 cm apart in a sunny spot.*

Maverick Series
35-40 cm height
10 seeds per packet. These early blooming multi-branched plants are loaded with delicate, rounded, 12-16 cm vibrantly coloured flowers on plants with deep green zonal leaves. Consistent and uniform performers!
Packet $3.99

Coral • 5265 **Mixed** • 5275 **Orange** • 5280
Pink • 5285 **Red** • 5290 **Salmon** • 5295
Scarlet • 5300 **Violet** • 5305 **White** • 5310

Hardy *(Geranium sanguineum)* • 5315
45 cm height
10 seeds per packet. Brilliant rosy-purple flowers 5 cm across are produced from June through to September. The mound-shaped plants have bright green foliage. Though this geranium is considered hardy, we recommend you treat Sanguineum as an annual in most climatic zones of Canada.
Packet $3.99

Godetia *(Godetia whitneyi) – 1,800 seeds per gram*

Bloom time *July and August.*

Sow outdoors *mid May, 3 mm deep in a sunny spot. Sow every two weeks for continuous blooms.*

Thin to *25 cm apart when seedlings are 10 cm tall.*

Azalea Flowered Mixture • 5325
30 cm height
400 seeds per packet. During the cool temperatures of late spring and early summer, the bushy mound-shaped plants are almost completely covered with 2.5 cm double flowers. Colours include white, pink, red, purple, and mauve to name a few. Flowering will tail off somewhat through the heat of summer but will still carry on until well into late summer.
Packet $2.19 | 25 g $31.25

Gomphrena *(Gomphrena globosa) – 350 seeds per gram*

Bloom time *July and August.*

Sow outdoors *late May, 2 mm deep in a sunny site. Soak seed for 24 hours before sowing.*

Sow indoors *April for earlier blooms.*

Transplant outdoors *late May after danger of frost is passed, spacing 45 cm apart.*

Mixed Colour Blend • 5330
45-60 cm height
30 seeds per packet. Attractive, small, ball-shaped, clover-like blooms. Perfect for rock gardens and borders. White, pink, rose, and red flowers are long-lasting both in the garden and when dried. Thrives in both hot weather and poor soil. Butterflies are often attracted to the flowers. It is best to harvest flowering stems at the onset of blooming if your intention is to dry them, as older flowers often fall apart after drying.
Packet $2.99 | 25 g $25

Gourds *(Cucurbita spp.) – 5-7 seeds per gram*

Harvest time *September to October.*

Sow outdoors *early June, 6-13 mm deep, in a full sun location with well-drained, rich soil.*

Sow indoors *late April to early May for an earlier harvest. Sow in plantable peat pots as gourds are resistant to transplanting.*

Transplant outdoors *early June, in hills 2.4 m apart, with 3 plants per hill.*

Birdhouse/Bottle • 5335
10-11 seeds per packet. Smooth-skinned gourds that cure to a hard shell, making them perfect for creating unique birdhouses and decorative projects.
Packet $2.49 | 125 g $33.75

Preparing Gourds for Birdhouses: Harvest after the vines have withered but before frost, leaving a short stem attached. Wash with a solution of 1 part bleach to 10 parts water, then cure in a warm, dry location for 3–6 months, turning occasionally. Surface mold is normal and can be wiped off with the same bleach solution. When the gourd rattles when shaken, it is fully cured and ready to use.

Caveman's Club • 5337
10-11 seeds per packet. Named for its unique, large, club-shaped gourd. The fruit dries to a woody colour and texture, typically reaching 45 cm in length, but can be up to 1 m in areas with long growing seasons
Packet $2.49 | 125 g $33.75

Crown of Thorns • 5340
10-11 seeds per packet. Unique claw-like projections form on small colourful, 10 cm gourds. This is a good selection for small gardens as the vines are quite compact. Fruit colour includes mixtures of cream, yellow, orange and green with stripes.
Packet $2.49 | 125 g $33.75

Ornamental Mixed • 5355
10-11 seeds per packet. A delightful mixture of ornamental gourds in an assortment of shapes, sizes and colours. Perfect for fall displays, centrepieces and seasonal decorating.
Packet $2.19 | 125 g $33.75

Speckled Swan • 5336
10-11 seeds per packet. Distinctive, speckled gourds with long, curved necks that resemble a swan. Excellent for fall décor, dried arrangements and creative craft projects.
Packet $2.49 | 125 g $33.75

Luffa • 5345
6 m height
10-11 seeds per packet. Rambling vines require a sturdy trellis or other support. Luffa thrives in long, warm growing seasons and is challenging to mature in cooler regions. The fibrous interior of mature fruits can be dried and used as a natural sponge. Approximately 150 days to harvest.
Packet $2.49 | 125 g $33.75

Luffa harvests are difficult to achieve in zones with short growing seasons. Best started indoors in March to April, planting out once danger of frost is passed and nighttime temperatures are above 12 °C.

Gypsophila *(Gypsophila muralis) – 6,900 seeds per gram*

Bloom time *July and August.*

Sow outdoors *early May, 3 mm deep in a sunny spot. Sow every two weeks for continuous blooms.*

Thin to *30 cm apart after plants have established true leaves.*

Covent Garden *(Baby's Breath)* • 5360
90 cm height
1,500 seeds per packet. Beautiful sprays of white, airy flowers about 2 cm across, form on these multi-stemmed plants. The first time you grow Baby's Breath you may find it a bit persnickety. Try it a couple of times to get used to its ways and you will come to love this very useful cut flower. Performs best in calcium rich soil.
Packet $2.49 | 125 g $22.50

Heliotrope *(Heliotropium arborescens) – 1,800 seeds per gram*

Bloom time *July to September.*

Sow indoors *March to April, barely covering seeds.*

Transplant outdoors *late May, 30 cm apart in a sunny site with moist soil.*

Marine • 5375
30-45 cm height
100 seeds per packet. Look for heavy clusters of sweet, vanilla-scented, stunning deep violet-blue flowers on dark green, bushy plants. Great for borders or containers and the flowers are a butterfly magnet. Drought and heat tolerant. All parts of the plant are poisonous if eaten.
Packet $3.99

Impatiens *(Impatiens walleriana) – 1,400-2,100 seeds per gram*

Bloom time *June to September.*

Sow indoors *January to February on surface of growing medium. Germinate at 21-24 °C for 10-21 days.*

Transplant outdoors *late May after danger of frost is passed, 20-25 cm apart in a shady to partially shady spot.*

Imara
25 cm height
20 seeds per packet. Imara Impatiens are stronger and more resistant to powdery mildew than ever before.
Packet $3.99

Athena Double Mixed • 5440
30-60 cm height
20 seeds per packet. Athena covers the shady garden with double and semi-double blooms of apple blossom, orange, red, bright purple, red-white and orange-white bi-colours. Dark green leaves will bring out the flower colours on these robust plants which spread 45-60 cm.
Packet $3.99

Choice Mixed F2 Hybrid *(Dwarf Bedding)* • 5550
25 cm height
35 seeds per packet. An economical mix for larger mass plantings, containers or hanging baskets. Compact plants in a range of colours including pinks, salmon, rose, orange and white.
Packet $2.99 | 1 g $26.55

Florific Sweet Orange *(Impatiens hawkeri)* • 5562
60 cm height
10 seeds per packet. 600 seeds per gram. This New Guinea Impatiens is an AAS Award Winner. Perfect for brightening gardens or patio containers in partial to full shade all summer long. Naturally branching plants are loaded with large, uniquely bi-colored flowers in shades of light salmon to deep orange. 45 cm wide at maturity, it quickly fills beds and is perfect for planting en masse.
Packet $3.99

Larkspur *(Consolida ambigua) – 325 seeds per gram*

Bloom time *June to September.*

Sow outdoors *late April to early May, 3 mm deep in a sunny site.*

Thin to *20 cm apart when seedlings are 5-7 cm in height.*

Imperial Strain • 5565
90 cm height
250 seeds per packet. Vigorous, branching plants with unusually long stems and large double florets spaced closely together. Shatter resistant blooms come in lovely, clear colours including dark blue, pink shades, white and more. Towering height makes an impressive statement for the back of the border. May self-sow and establish persistent stands.
Packet $2.19 | 25 g $21.90

Livingston Daisy
(Cleretum bellidiforme) – 800 seeds per gram

Bloom time *June to August.*

Sow outdoors *late May, 3 mm deep and 2.5 cm apart in a sunny location with well-drained soil.*

Sow indoors *February to March for earlier blooms, 3 mm deep in a soilless mix.*

Transplant outdoors *late May, spacing 15 cm apart.*

Radiant Mix • 5583
10-15 cm height
350 seeds per packet. A beautiful, low-growing succulent, filled with brilliant daisy-like blooms 2.5 cm across that provide a carpet of colour all summer long. Perfect for the hottest, driest spots in the garden. Loves full sun!
Packet $2.99

Radiant Mix

Looking for perennial lupine? Check out page 110

Lobelia *(Lobelia erinus) – 35,000 seeds per gram*

Bloom time *June to September.*

Sow indoors *March, leave seeds uncovered on the surface of the growing medium.*

Transplant outdoors *late May, 10-15 cm apart in partial sun.*

Cascade Mix • 5585
10 cm height
500 seeds per packet. A full colour range of pink, red, purple, white, blue, and lilac that will tumble out of containers and hanging baskets. Flowers are small at 2.5 cm across but there are plenty of them. Germination is sometimes slow but you will be rewarded with an eye-catching spectacle.
Packet $2.19

Trailing Sapphire • 5595
10 cm height
500 seeds per packet. A charming cascading lobelia filled with cool deep blue flowers with white eyes. A perfect addition to any mixed container or hanging basket!
Packet $2.99

Lupine *(Lupinus luteus) – 40 seeds per gram*

Bloom time *July.*

Sow outdoors *mid to late May, 1 cm deep and 10 cm apart.*

Sow indoors *March to April, soaking seed for a few hours, or scarifying with sandpaper before sowing.*

Transplant outdoors *late May, 30 cm apart in full sun to partial shade.*

Primrose • 5625 **Mixed** • 5635
Yellow • 5630

Tall Marigolds

Crackerjack • 5640
60-90 cm height
35 seeds per packet. Very popular open pollinated African type with huge 10-12 cm flowers in brilliant shades of yellow and orange. Ideal for mass plantings at the back of the border!
Packet $2.19 | 25 g $9.40 | 125 g $30

Yellow Treasure • 5645
45-60 cm height
35 seeds per packet. Very uniform, bright, lemon-yellow, double blooms. Extremely prolific and weather tolerant!
Packet $2.19 | 25 g $9.40 | 125 g $30

French Marigolds

More compact and bushier than African types. Perfect for edgings and low border planting.

Durango Outback Mix • 5605
15-30 cm height
35 seeds per packet. Compact, bushy plants are loaded with double blooms, 5-7 cm across. Extra strong stems, great branching habit, and excellent tolerance to summer heat. Festive colours include red tipped yellows, deep reds, rich yellows and tangerine.
Packet $2.99 | 100 seeds $9.15

Dwarf Petite Mixed • 5650
15 cm height
35 seeds per packet. Fully crested, double flowers only 2.5 cm across literally cover these bushy plants. Flowers come in a full range of oranges, mahogany shades, reds and yellows.
Packet $2.19 | 25 g $10.95 | 125 g $35

Dwarf Petite Yellow • 5655
15 cm height
35 seeds per packet. Fully crested, pure yellow, double flowers only 2.5 cm across on bushy plants.
Packet $2.19 | 25 g $10.95 | 125 g $35

Sparky • 5665
20-25 cm height
35 seeds per packet. Larger than the petites with bigger flowers too! A striking combination of gold blooms highlighted with a blazing red. Early and continuous flowering.
Packet $2.19 | 25 g $10.95 | 125 g $35

Mignonette

(Reseda odorata) – 780 seeds per gram

***Bloom time** June to August.*

***Sow outdoors** mid May to mid June, 3 mm deep in a partially shady site.*

***Thin to** 15-30 cm apart when seedlings reach 8 cm tall.*

Sweet Scented • 5720
45 cm height
500 seeds per packet. Trusses of creamy salmon-white blooms produce the overwhelming fragrance that mignonette is known for. Performs best in partial shade. To take full advantage of the fragrance, plant mignonette near windows, decks and patios.
Packet $2.49 | 25 g $12.50

Yellow Treasure

Mimosa

(Mimosa pudica) – 150 seeds per gram

***Sow indoors** 3 mm deep in a fine, almost sandy mix. Choose a bright spot away from cool drafts.*

***Transplant outdoors** once temperatures are consistently above 26 °C. (Typically grow indoors as a houseplant.)*

Sensitive Plant • 6070
25 cm height
45-50 seeds per packet. The fern-like leaves fold up when blown on or touched, then reopen a short time later. If you listen carefully, you will hear a whispering noise accompanying their closing. The flowers, which occur more often with plants grown outdoors in summer are pink or purple fluffy globe-shaped balls.
Packet $2.99 | 15 g $15.70

Monarda

(Monarda citriodora) – 1,800 seeds per gram

***Bloom time** July to August.*

***Sow indoors** March, on the surface of the growing medium.*

***Transplant outdoors** late May, 25 cm apart in a sunny spot.*

Lemon Mint • 5725
60 cm height
500 seeds per packet. Lavender-white flowers are produced in whorled clusters at the top of strong, high stems. Both the leaves and flowers release a delightful lemon fragrance when bruised. The nectar in the flowers is very attractive to bees, butterflies and hummingbirds.
Packet $2.99 | 25 g $9.40

Moonflower

(Ipomoea alba) – 4 seeds per gram

***Bloom time** July to September.*

***Sow outdoors** mid May, 2 cm deep and 10 cm apart in a sunny site. Soak seed for 24 hours before sowing.*

***Thin to** 30 cm apart when seedlings are 5 cm tall.*

Moonflower • 5755
5 m height
15 seeds per packet. A robust climber, covered in beautiful, fragrant, pure white flowers up to 12.5 cm across. Flowers open during the night and last through to late morning. Each flower only lasts for a short time, but once flowering starts it continues right through to late summer. Quick growing vines will readily wrap themselves around any decent support.
Packet $2.99 | 125 g $22.50

Morning Glory

(Ipomoea tricolor) – 25 seeds per gram

***Bloom time** June to September.*

***Sow outdoors** mid May, 6 mm deep and 7.5 cm apart in a full sun to partial shade location. Soak seed for 12-24 hours before sowing.*

***Thin to** 15 cm when vines are 7 cm tall.*

***Pro Tip:** Avoid high-nitrogen fertilizers, as they encourage rampant vegetative growth at the expense of flowering.*

Crimson Rambler • 5730
2-4 m
25-30 seeds per packet. Deep crimson-red with a contrasting white throat. Absolutely stunning!
Packet $2.49 | 125 g $22.50

Dacapo Light Blue • 5735
2-4 m
25-30 seeds per packet. Exquisite light blue flowers with a soft purple vein and creamy white throat.
Packet $2.49 | 125 g $33.75

Flying Saucers • 5740
2-4 m
25-30 seeds per packet. Clear soft white flowers, marbled with sky blue and purple swirls.

Heavenly Blue

Milky Way

Empress of India

Mixed Colours

Nasturtium
(Tropaeolum majus) – 6 seeds per gram

***Bloom time** July to September.*

***Sow outdoors** late May to early June, 3 cm deep and 5 cm apart in a full sun location with dry, sandy soil.*

***Thin to** 20 cm apart when seedlings are 5-7 cm tall.*

These edible blooms have a peppery taste and are quite popular as a salad garnish!

Dwarf Jewel Mixed • 5780
30 cm height
25 seeds per packet. Glorious masses of tropical-looking flowers are produced well above the foliage on this non-trailing variety. Semi-double flowers are produced in numerous combinations of red, yellow and orange.
Packet $2.19 | 125 g $16.90 | 500 g $48.75

Empress of India • 5785
30-40 cm height
25 seeds per packet. Brilliant, crimson-red flowers 6 cm across with a low growth habit. Makes a great border plant and a sure-fire hummingbird magnet.
Packet $2.49 | 125 g $22.50

Out of Africa • 5790
1.5 m height
25 seeds per packet. A trailing variety with mottled, variegated foliage. Blooms in beautiful shades of yellow, red, cream, and peach-pink. Can be used to hang down over walls, twine its way up a small trellis, or ramble over the garden creating a thick carpet of flowers.
Packet $2.49 | 125 g $22.50

Peach Melba • 5795
25 cm height
25 seeds per packet. Uniquely coloured flowers in a blend of primrose-cream flecked with pearly-red markings. Makes for a very striking plant!
Packet $2.49 | 125 g $33.75

Peach Melba

Phoenix • 5807
30 cm height
20 seeds per packet. A unique flower type with split petals in fiery shades of gold, orange and red. Beautiful foliage resembles ivy.
Packet $2.19 | 125 g $39.40

Tall Climbing Mixed • 5800
2 m height
25 seeds per packet. Colourful combination of red, yellow and orange flowers on strong vines. Perfect for walls or fences.
Packet $2.49 | 125 g $18 | 500 g $52

Whirlybird Mixed • 5805
30 cm height
25 seeds per packet. Large, spur-less, single and semi-double blooms sit open-faced atop bushy plants. Bright colours of red, orange and yellow. An excellent nasturtium for hanging baskets, rock gardens or flower beds.
Packet $2.49 | 125 g $22.50

Nemophila – *3,000 seeds per gram*

***Bloom time** July to September.*

***Sow outdoors** early to mid May, in a sunny to partially shaded area, barely cover seeds with soil.*

***Thin to** 20 cm apart when plants are 5 cm tall.*

Baby Blue Eyes *(Nemophila menziesii)* • 5820
20 cm height
200 seeds per packet. These compact plants are covered in a cloud of cup-shaped, sky-blue flowers. Mildly fragrant at night. A perfect border plant that only stops flowering when the killing frosts of fall arrive!
Packet $2.19 | 125 g $33.75

Five Spot *(Nemophila maculata)* • 6920
20 cm height
200 seeds per packet. Produces cup-shaped, five-petalled pure white blossoms about 2.5 cm wide with each petal highlighted with a dark blue spot on the tip – hence the name Five Spot! This perfect border plant only stops flowering when killing frosts arrive.
Packet $2.99 | 25 g $9.25 | 125 g $32.45

Whirlybird Mixed

Nicotiana
(Nicotiana alata) – 6,200 seeds per gram

***Bloom time** June to September.*

***Sow outdoors** mid to late May, 20 cm apart on the surface of the soil.*

***Sow indoors** March for earlier blooms. Water carefully with a mister to not wash away the tiny seed.*

***Transplant outdoors** late May, spacing 40 cm apart.*

Sensation Mixed • 5825
60-90 cm height
500 seeds per packet. Scarlet, crimson, rose, lavender and yellow flowers predominate in this nicely balanced mix. Unlike older Nicotiana varieties, the star-shaped flowers stay open all day long. Easy to grow in partial shade to full sun.
Packet $2.19 | 25 g $23.45

Nigella
(Nigella damascena) – 385 seeds per gram

***Bloom time** June and July.*

***Sow outdoors** early May, 3 mm deep in a sunny site. Sow again in 3 weeks to prolong blooms.*

***Thin to** 30 cm apart when seedlings are 7 cm tall.*

Love-in-a-Mist • 5835
45 cm height
125 seeds per packet. A popular, old-fashioned annual that paints a pretty picture in the garden or as a cut flower. Gorgeous, cornflower blue flowers have a delicate, feathery fringe. Pretty in the garden and loved by bees and butterflies!
Packet $2.19 | 25 g $20.35

Inspire True Blue

Super Swiss Giant

Dwarf Bedding Mix

Purple Wave

Pansy

(Viola wittrockiana) – 700 seeds per gram

Bloom time *May to July.*

Sow indoors *February to March, covering the seed very lightly.*

Transplant outdoors *early May, 20 cm apart in a full sun to partial shade location.*

Inspire True Blue • 5890
17.5 cm height
20 seeds per packet. Glamorous large, blue flowers 7 cm across with tiny yellow eyes cover these compact plants and look outstanding in planters or flower borders. Stays tight and uniform all summer long.
Packet $2.99 | 100 seeds $12.70

Super Swiss Giants • 5885
20 cm height
125 seeds per packet. Extra large, 8-10 cm brightly coloured, gracefully waved, flat-faced blooms in combinations of mahogany, purple, orange, yellow, deep blue and creamy white. Flowers have a thick, velvety texture with smiling faces or artistic blotches. They're also edible and look great in salads.
Packet $2.99 | 5 g $11 | 25 g $25

Petunia

(Petunia x hybrida) – 8,500-10,000 seeds per gram

Bloom time *July and August.*

Sow indoors *March, on the surface of the growing medium and lightly misting until the seed coating disappears.*

Transplant outdoors *late May, spacing 25 cm apart in a sunny site.*

Open Pollinated

Dwarf Bedding Mix • 6000
30-35 cm height
125 seeds per packet. A showy blend of smaller flowered Grandiflora types for larger mass plantings or bedding plant sales. Solid, bi-coloured, veined and picotee flowers all in one blend.
Packet $2.19 | 2 g $15 | 25 g $53.15

Wave Series
15 cm height
8 seeds per packet. These trailing petunias are low-growing, wide-spreading, incredibly robust, and smothered in 6 cm flowers! They require no pinching and a single plant can spread to up to 1.5 m across and will hug the ground, making it an excellent bedding plant. Pelleted seed for easier handling.
Packet $5.99

Carmine Velour (Red) • 5990
Lavender • 5975 **Pink** • 5980
Purple • 5985

Shock Wave Series
20-25 cm height
8 seeds per packet. The earliest to flower of our spreading petunias. Shock Wave produces masses of 4 cm flowers, quickly spreading to cover 60-90 cm. These lush, self-cleaning plants recover from rain faster than all other petunias.
Packet $5.99

Coral Crush • 5964 **Pink** • 5953
Purple Tie Dye • 5965 **White** • 5967

Super Cascade Series
12-30 cm height
40 seeds per packet. Huge 12 cm wavy flowers in abundance! These compact plants are the perfect addition to the patio, hanging baskets, or the garden.
Packet $3.99

Blue • 5895 **Burgundy** • 5900
Mixed • 5920 **Pink** • 5905
Red • 5910 **White** • 5915

Specialty Varieties

Celebrity Yellow • 5942
25 cm height
25 seeds per packet. These multiflora petunias produce stunning, pure yellow-centered flowers that fade to a soft creamy edge. Superb outdoor performance, early and extended bloom time and an abundance of 7.5 cm wide flowers. Pelleted for ease of handling.
Packet $3.99

Picobella Mixed • 5940
25 cm height
25 seeds per packet. These ultra-compact multiflora petunias have better garden performance, greater vigour, and more weather tolerance. Ideal for mass plantings, hanging baskets and containers. Flowers average 2.5 cm across in a blend of seven pretty colours.
Packet $3.99

Sugar Daddy • 5927
25-38 cm height
25-30 seeds per packet. Beautiful trumpet-shaped, 10-12 cm purple flowers with pronounced darker veins bloom from early summer to fall on these very robust, compact plants. Excellent disease resistance, weather tolerance, and outstanding garden performance!
Packet $3.99

Tidal Wave • 5995
50 cm height
8 seeds per packet. These beautiful silver flowers, accented with purple throats and delicate purple veining, are borne on the tallest and most vigorous of the Wave Petunias. Masses of 8 cm blooms are produced through the entire season. Height is influenced by spacing. Plants grown closer together will grow taller, while those spaced farther apart will develop a lower, spreading habit.
Packet $5.99

Double Petunia

Impressive, fragrant, double flowers often up to 10 cm across. Compact mounding plants are quite early flowering with excellent weather tolerance.

Cascade Double Burgundy • 5950
35 seeds per packet. Big, burgundy-coloured double blooms resembling carnations.
Packet $3.99

Glorious Mixed • 5930
35 seeds per packet. An impressive blend of solid and bi-coloured double blooms in white, red, pink, and burgundy.
Packet $3.99

Phlox

(Phlox drummondii) - 500 seeds per gram

Bloom time *July to September.*

Sow outdoors *late May, 3 mm deep in a sunny site.*

Sow indoors *April for earlier flowers, sow in peat pots as phlox dislike root disturbances.*

Transplant outdoors *early June, spacing 20 cm apart.*

Drummond II Mixed • 6005
20 cm height
200 seeds per packet. A wide range of colours, many with contrasting eyes, burst out from the compact plants. Individual florets are very large and the colours include rare lavender-blue and deep blue colours, as well as shades of pink, buff, white and more. Plants can spread to 35 cm across. Germination and seedling establishment is improved with high humidity.
Packet $2.19 | 25 g $25

Poppy

(Papaver rhoeas) – 7,000 seeds per gram

Bloom time *July to August.*

Sow outdoors *May, 2 mm deep in a sunny spot. Keep moist until germination occurs.*

Thin to *20 cm apart when seedlings are 5-10 cm tall.*

Double Shirley Mixed • 6010
30-60 cm height
1,200 seeds per packet. Soft, crinkled, delicate petals in shades of pink, red and salmon shading to white in the centre. Strong plants, tolerant to heat and drought. An excellent border plant or cut flower.
Packet $2.19 | 25 g $10.95 | 125 g $35

Flanders • 6015
45-60 cm height
1,200 seeds per packet. Long-lasting, brilliant crimson-red, single flowers with black centres. Stunning in mass plantings. Drought-tolerant plants are self-seeding and deer resistant. Naturalized throughout much of Europe and North America.
Packet $2.19 | 25 g $10.95 | 125 g $35

Portulaca Double Mixed

Autumn Forest

Looking for Perennial Rudbeckia? Check out our selection on page 103

Cherry Brandy

Portulaca

(Portulaca grandiflora) – 10,000 seeds per gram

Bloom time *July to September.*

Sow outdoors *mid May to early June, barely covering seed in a sunny site.*

Thin to *30 cm apart after seedlings grow their first set of true leaves.*

Double Mixed • 6020
12 cm height
500 seeds per packet. Super dwarf plants are filled with double flowers in a wide range of red, yellow, pink, orange, and white shades. Succulent leaves always look fresh and healthy. Outstanding in rock gardens, beds, or as an annual ground cover. When other plants languish, these feisty plants thrive, offering brilliant colour all summer long!
Packet $2.19 | 25 g $28.15

Annual Rudbeckia

(Rudbeckia hirta) – 3,700 seeds per gram

Bloom time *June to September.*

Sow outdoors *late May to June, on the surface of the growing medium.*

Sow indoors *March to early April for earlier blooms.*

Transplant outdoors *30 cm apart in a sunny spot.*

Autumn Forest • 6620
45 cm height
100 seeds per packet. Brilliant autumn shades of red, mahogany, and yellow bi-colour with darker centres. Large flowers up to 12.5 cm in size have unusual, pointed petals.
Packet $2.99 | 25 g $30

Cherry Brandy • 6032
60 cm height
15 seeds per packet. Bright cherry red blooms with dark burgundy to black centres. Flowers approximately 6 cm across bloom all summer long, enduring heat and drought. Impressive in the garden or large containers.
Packet $2.99

Chocolate Orange • 6033
45 cm height
15 seeds per packet. Chocolate-mahogany flowers up to 10 cm wide, are highlighted with beautifully contrasting orange-yellow tips. Blooms profusely from mid summer to frost. Strong stems make this wonderful, long-lasting variety a great addition to garden beds or cut flower arrangements.
Packet $2.99

Maya Double • 6615
25 cm height
15 seeds per packet. Fleuroselect Gold Medal in 2005. The world's first double-flowering Rudbeckia, producing large, 10 cm wide bright yellow flowers on durable plants. Spectacular in borders, flower beds and containers.
Packet $3.99

Prairie Sun • 6600
100 cm height
50 seeds per packet. AAS and Fleuroselect Winner 2003. Prized for its unique bicolour pattern and sturdy plant habit. Very large 12 cm flowers with light yellow tips on golden yellow petals that encircle a soft green centre. A short-lived perennial that should be treated as an annual in Canadian gardens.
Packet $5.99

Salvia *(Salvia spp.)*

Bloom time *July to September.*

Sow outdoors *late May in a full sun location with well-drained soil. Barely cover seed.*

Sow indoors *March to April for earlier blooms.*

Transplant outdoors *late May, spacing 30 cm apart.*

Blue Bedder • 6035
45 cm height
25 seeds per packet. 750 seeds per gram. Large, intense, violet-blue spikes on bushy plants. Creates a huge visual impact when loaded with flowers. Use as cut flowers, in patio containers or as bedding plants. Drought-tolerant, low maintenance and deer resistant.
Packet $2.99

St. John's Fire • 6045
30 cm height
75 seeds per packet. 500 seeds per gram. Intense, scarlet-red blooms contrast beautifully with the dark green foliage. Very early flowering, uniform, compact plants are outstanding in mass plantings or pots.
Packet $2.99

Chocolate Orange

Scabiosa

(Scabiosa atropurpurea) – 200 seeds per gram

Bloom time *July to September.*

Sow outdoors *late May, 2 mm deep in a sunny, well-drained site.*

Sow indoors *March for earlier blooms.*

Transplant outdoors *late May, spacing 30 cm apart.*

Imperial Giants Mixed • 6060
75 cm height
130 seeds per packet. Big, slightly irregular ball-shaped flowers 6 cm across in a full colour range of blue, white, rose, pink and lavender. Flowers sit atop tall stems, making them perfect for cut flower arrangements. Attractive to hummingbirds, butterflies, and other pollinators.
Packet $2.49 | 25 g $14.10

Snow on the Mountain

(Euphorbia marginata) – 88 seeds per gram

Bloom Time *July to September.*

Sow outdoors *mid to late May, 5 mm deep and 17 cm apart in a sunny site.*

Thin to *30 cm apart when seedlings are 4 cm tall.*

Art Shades Mixed • 6100
75 cm height
80 seeds per packet. A full palette of apricot, blue, yellow, purple, and white blossoms. These paper-like flowers are lovely in the garden, in a fresh bouquet, or in dried arrangements. Highly heat and drought-tolerant.
Packet $2.99 | 5 g $12

Stocks *(Matthiola incana)*

Bloom Time: *July to September.*

Sow indoors: *April to May, 3 mm deep, in full sun to partial shade*

Transplant out *late May to June, 30 cm apart in a slightly shaded location.*

Ten Weeks Dwarf *(Matthiola incana)* • 6115
30 cm height
175 seeds per packet. 600 seeds per gram. An incredible fragrance meets stunning shades of pink, red, mauve, and white in this must-have garden favorite! The double florets begin blooming when the plant is just 15 cm tall and keep going all season long. Though the delicate blooms are sensitive to frost, they will easily self-sow in milder climates.
Packet $2.19 | 25 g $19.70

Evening Scented • 6120
(Matthiola bicornis)
45 cm height
225 seeds per packet. 1,250 seeds per gram. A graceful display of lilac-coloured, single, four-petaled flowers that open at night to release their wonderful fragrance. Their sweet perfume is especially noticeable on still summer evenings. Cut after first flowering to enjoy a second flush of colour.
Packet $2.19 | 25 g $12.50

Strawflower

(Helichrysum bracteatum) 1,500 seeds per gram

Bloom Time: *July to September.*

2 m height
30 seeds per packet. Our earliest flowering, most heat tolerant, climbing sweet pea with a long blooming window. Developed for cut flower use, they can grow in low-light and cool greenhouse conditions but also show superior heat tolerance. These large flowers with an enticing scent are a spectacular addition to any garden!
Packet $2.49 | 125 g $33.75

Royal Blue

Elegance Mid-Blue

Bijou Mixed

Black Eyed Susan Vine

Thunbergia *(Thunbergia alata) – 40 seeds per gram*

Bloom time *July to September.*

Sow indoors *April, 6 mm deep in plantable pots. Soak seed in water overnight before sowing.*

Transplant outdoors *late May, spacing 30 cm apart in a sunny site.*

Black Eyed Susan Vine • 6270
2 m height
25 seeds per packet. A beautiful climbing vine perfect for training on fences and trellises or use in hanging planters and window boxes, allowing vines to gracefully trail downward. Captivating flowers are a mix of orange, yellow, or white – all with a black centre. Heat tolerant and attractive to hummingbirds.
Packet $2.99 | 25 g $22

Tithonia *(Tithonia rotundifolia) – 125 seeds per gram*

Bloom time *July and August.*

Sow outdoors *late May, on the surface of the soil in a full sun location with good air circulation.*

Sow indoors *mid-April for earlier blooms.*

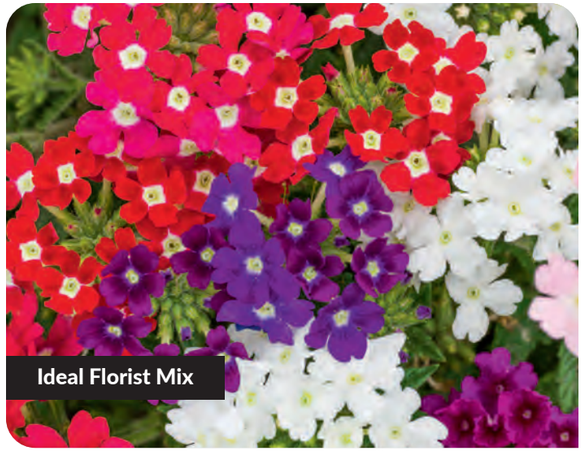
Transplant outdoors *late May, spacing 60 cm apart.*

Torch • 6275
1-2 m height
75 seeds per packet. Huge, vivid orange dahlia-like flowers up to 9 cm across are freely produced over the long summer season. A real eye-catcher that makes an excellent cut flower and attractive to butterflies. Also known as Mexican sunflower.
Packet $2.99 | 25 g $10

Torch

Cutting **Heirloom** (Time-tested variety) **Container** (Great for pots)

Climbing (Requires staking/cage) **Disease Resistant** **Premium Variety**



Verbena *(Verbena x hybrida) – 350 seeds per gram*

Bloom Time *July to August.*

Sow outdoors *mid-May on the surface of the soil in a sunny, well-drained site. Chill seed for 10 days before sowing. Germination can be erratic so heavy sowing is recommended.*

Thin to *20 cm apart after germination.*

Ideal Florist Mix • 6277
30 cm height
125 seeds per packet. A beautiful, spreading plant in a colourful mix of burgundy, peach, pink, purple-red, and white. The multi-branching plants are perfect for hanging baskets or containers. Heat tolerant, adaptable to poorer soils and enjoys full sun. The fuzzy foliage helps to prevent deer from eating the plants.
Packet $2.99 | 25 g $20

Zinnia *(Zinnia elegans) – 100-200 seeds per gram*

Bloom time *July and August.*

Sow outdoors *late May after soil has warmed, 2 mm deep in a sunny site with well-drained soil.*

Thin to *25-35 cm apart when seedlings are 7.5 cm tall.*

Cactus Flowered Mix • 6280
90 cm height
100 seeds per packet. An extra-large zinnia with immense, ruffled blooms up to 15 cm across. Colours include pink, orange, red and creamy white. Stocky, upright plants first start to bloom when roughly 40 cm tall. Plants produce large quantities of flowers on numerous side branches all season long.
Packet $2.49 | 25 g $12 | 125 g $27

Giant Lime • 6285
100-125 cm height
10 seeds per packet. Very tall, extra thick stems, support fully double, 10 cm blooms of a unique, bright lime green. A great addition to fresh bouquets. Better tolerance to powdery mildew than open-pollinated varieties.
Packet $3.99 | 100 seeds $10.50

Giants of California Mixed • 6290
90 cm height
100 seeds per packet. Immense, double flowers 12 cm across form on tall plants. Colours include red, pink, orange, yellow, and white. The overlapping petals are more loosely placed than the dahlia-flowered types. The flowers themselves are much flatter, generally about 2.5 cm thick.
Packet $2.49 | 25 g $11 | 125 g $24.75

Ice Queen • 6311
15-40 cm height
15 seeds per packet. A beautiful, bi-coloured zinnia with 7.5 cm semi-double to double flowers. The inner half of the petals are rose while the outer half are white to pale pink. Fast growing and long-blooming they make an excellent cut flower or bedding plant. Especially attractive to butterflies and other pollinators.
Packet $2.99

Oklahoma Mix • 6309 ***NEW FOR 2027***
75-100 cm height
25 seeds per packet. This vibrant zinnia mix produces an abundance of large, fully double blooms in a stunning range of rich, cheerful colours. Long, sturdy stems make it an excellent choice for cut flower arrangements, while its prolific flowering habit provides continuous colour throughout summer. Easy to grow and a favourite of butterflies and other pollinators.
Packet $2.49 | 100 seeds $6.50

Pom Pom or Lilliput Mixed • 6295
60 cm height
100 seeds per packet. A miniature Dahlia-flowered mixture. These dainty little Pom Pom zinnias have been garden favourites for many years. Flowers bloom early from seed sown outdoors and continue in great profusion until the frosts of fall. Red, pink, yellow, and orange flowers average 2.3 cm in diameter on hardy plants.
Packet $2.49 | 25 g $11 | 125 g $24.75

Thumbelina Mixed • 6305
15 cm height
50 seeds per packet. This truly dwarf zinnia is just loaded with 4 cm semi-double and double flowers set just above the mounded foliage. Flowers early and continues blooming all season long in shades of pink, scarlet, yellow, orange, red and white.
Packet $2.49 | 25 g $15 | 125 g $33.75

Zinderella Mixed • 6310
60 cm height
15 seeds per packet. Unique, scabiosa-like blooms in a beautiful array of colours. These frilly, crested, 5.5 cm double flowers are loaded with eye-catching layers of petals so thick they are often as wide as they are tall. Occasional single flowers may occur but do not detract from the beauty of this blend. A European Fleuroselect Novelty Award winner!
Packet $3.99 | 100 seeds $10.50

Gladiolus Bulbs *(Gladiolus communis)*

Bloom time *July to August.*

Plant outdoors *late May after danger of frost is passed, 6 cm deep. Plant every two weeks for continuous blooms.*

Gladiolus Bulbs • 6312
60 cm height
A splendid mixture of colours to brighten any garden and one of the easiest and most rewarding flowers to grow. Requires consistent watering for successful growth. Colours include pink, white, red, burgundy, and more.
Package of 10 | Package of 25

Perennial Ground Covers

Arabis *(Arabis caucasica) – 4,800 seeds per gram*

Bloom time *June.*

Sow indoors *January to February, on the surface of the growing medium.*

Transplant outdoors *June, 15 cm apart in full sun to partial shade.*

Snow Cap • 6320
15 cm height
350 seeds per packet. Also known as Rock Cress. Masses of tiny, snow-white, fragrant flowers appear in spring against a background of silvery-green foliage. Compact plant habit. Hardy to Zone 4.
Packet $2.99 | 5 g $16

Arenaria *(Arenaria montana) – 800 seeds per gram*

Bloom time *May and June.*

Sow indoors *January to March, on the surface of the growing medium.*

Transplant outdoors *late May to June, 20 cm apart in a sunny spot.*

Mountain Sandwort • 6330
5-10 cm height
60 seeds per packet. These easy-to-grow, moss-like creeping plants form dense grey-green mats of narrow leaves, topped with attractive white flowers. Blooms are 2.5 cm across, sit just above the foliage. Flowers early to mid May and tolerates moderate foot traffic. Hardy to Zone 4.
Packet $3.99 | 500 seeds $12.95

Armeria *(Armeria maritima) – 1,700 seeds per gram*

Bloom time *May and June.*

Sow outdoors *late August, for bloom the following year.*

Sow indoors *March, 3 mm deep. Soak seed in water for several hours before sowing. Germination may take up to 28 days.*

Transplant outdoors *late May to June, 20 cm apart in a sunny spot.*

Maritima Splendens • 6335
20 cm height
250 seeds per packet. Also known as Thrift or Sea Pink. Enjoyed for its abundant, rose-coloured blooms in late spring and early summer. Low evergreen foliage. This plant is very drought tolerant which makes it an excellent choice for xeriscaping or other sunny, dry areas. Hardy to Zone 3.
Packet $3.99 | 2 g $18 | 5 g $32.30

Aubrieta *(Aubrieta cultorum) – 2,500 seeds per gram*

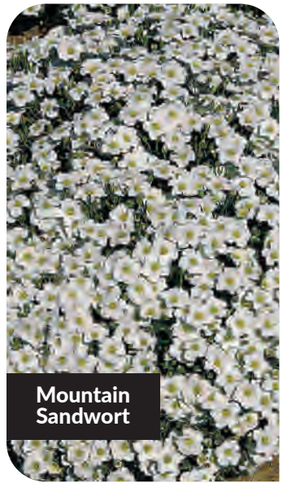
Bloom time *mid-April to June.*

Sow outdoors *early spring or late summer for flowers the following year.*

Sow indoors *April, barely covering seed.*

Transplant outdoors *late May to June, 25 cm apart in a sunny spot.*

False Rock Cress • 6340
15 cm height
300 seeds per packet. Low-growing carpet of dense, evergreen foliage smothered with flowers in pink, crimson and blue shades. Vigorous and free-flowering, False Rock Cress is ideal for rock gardens or for tumbling over walls. Grows best in full sun but will tolerate some shade. Hardy to Zone 4.
Packet $3.99 | 5 g $18.85 | 25 g $53.50



Mountain Sandwort

Maritima Splendens

Snow Cap

Cutting **Heirloom** (Time-tested variety) **Container** (Great for pots)

Cerastium *(Cerastium tomentosum) – 2,100 seeds per gram*

Bloom time *June and July.*

Sow outdoors *mid to late May for blooms the following year.*

Sow indoors *March, 3 mm deep. Keep at 18 °C for the 30 day germination period.*

Transplant outdoors *late May, 10 cm apart in a location with full sun to partial shade.*

Snow–in-Summer • 6345
20 cm height
75-100 seeds per packet. Beautiful snow-white flowers and silvery foliage cover this nicely spreading plant. Snow-in-Summer is one of the best evergreen ground covers for hot, dry areas with poor soil conditions. Hardy to Zone 3.
Packet $3.99 | 5 g $19.60 | 25 g $55

Edelweiss *(Leontopodium alpinum) – 7,500 seeds per gram*

Bloom time *June.*

Sow outdoors *late fall for germination the following spring.*

Sow indoors *January to February on the surface of the growing medium. To improve germination, wrap in plastic and place in the refrigerator for 3 weeks before growing on.*

Transplant outdoors *May, 15 cm apart in a sunny spot.*

Edelweiss • 6347
15-25 cm height
75-100 seeds per packet. Native to the Himalayas and Siberia, this hardy plant is naturalized in many Alpine countries throughout Europe. An excellent addition to rock gardens. Woolly, tufted dwarf plants have a silvery-white appearance and lovely star-shaped flowers. It grows slowly so flowering will begin the second year.
Packet $3.99

Sedum *– 8,000-10,000 seeds per gram*

Bloom time *June to September.*

Sow indoors *February on the surface of the growing medium. Mist until seed pellet is completely dissolved.*

Transplant outdoors *May, 30 cm apart in a sunny spot.*

Spirit *(Sedum ellacombianum)* • 6348
10-15 cm height
25 seeds per packet. First-year flowering from early indoor sowings. Bright yellow, star-shaped flowers with succulent green leaves are perfect for low borders and rock gardens.
Packet $2.99

Voodoo *(Sedum spurium)* • 6349
10-15 cm height
25 seeds per packet. A great container plant or grow as a dense ground cover in the garden bed. Produces an abundance of intense rose-coloured flowers from June onward. When grown in full sun leaves turn an exceptionally deep red.
Packet $2.99

Soapwort *(Saponaria ocymoides) – 440 seeds per gram*

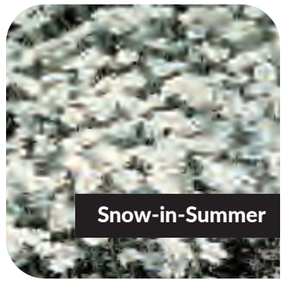
Bloom time *June to July.*

Sow outdoors *early May or late fall.*

Sow indoors *March, barely covering seed with soil. Use plantable pots as soapwort resents transplanting.*

Transplant outdoors *May, 30 cm apart in a sunny spot.*

Soapwort • 6350
10-15 cm height
110 seeds per packet. Small, pink flowers, 1 cm across smother the low, semi-evergreen spreading plants. A perfect plant for hot, full sun areas, walls and rockeries. Flowers from early to mid-June through July. You can trim plants back after flowering to induce a second flush of fall blooms. Hardy to Zone 3.
Packet $2.99 | 25 g $12.50



Snow-in-Summer

Spirit

Edelweiss

False Rock Cress

Voodoo

Climbing (Requires staking/cage) **Disease Resistant** **Premium Variety**

Creeping Thyme *(Thymus serpyllum) – 5,100 seeds per gram*

***Bloom time** June to August.*

***Sow outdoors** early May or late October for germination the following spring.*

***Sow indoors** April, 6 mm deep.*

***Transplant outdoors** late May, 10-15 cm apart for lawn substitutes, 30 cm apart for general borders. Thrives in full sun.*

Creeping Thyme • 6355
15 cm height
150 seeds per packet. Small purple or white flowers appear in early July. Foliage produces a nice lemon scent when brushed. It thrives in dry, sunny locations and may be lightly mowed from time to time to keep plants low and encourage a second flush of flowers. Excellent for filling in between patio stones or as a lawn substitute. Offers excellent walkability and a pleasant scent. Hardy to Zone 4.
Packet $2.99 | 5 g $12.95 | 25 g $43.95

Alyssum *(Alyssum saxatilis) – 1,200 seeds per gram*

***Bloom time** May and June.*

***Sow outdoors** September, 3 mm deep.*

***Sow indoors** March, to improve germination sow on moistened growing medium and pre-chill for 10-15 days.*

***Transplant outdoors** late May, 25 cm apart in a location with full sun to partial shade.*

Saxatile • 6370
15 cm height
150 seeds per packet. Also known as Rock Madwort. A popular dwarf alpine species that's loaded with vivid yellow blooms through May and June. This native of Turkey and central and south-western Europe is perfect for rock gardens, rock walls and borders. The foliage is a pleasing light grey-green. Hardy to Zone 4.
Packet $2.19 | 25 g $22.50 | 125 g $75

Lawn Alternatives

These lawn alternatives are a great choice for gardeners looking for low maintenance lawns that require less water.

Looking to cover a larger area? Call us for bulk options!

White Clover *(Trifolium repens)* • 6735
7-10 cm height
A robust, adaptable, drought-resistant legume that is also somewhat shade tolerant. White clover is often seeded into established lawns or in areas where turf grasses tend to struggle. Requires regular mowing to maintain a height of 10 cm. Benefits from little to no nitrogen fertilizer. A superb plant for sowing into rough, unmaintained areas, for land stabilization projects, and as honeybee fodder. An excellent choice for use as a green manure. Hardy to Zone 4. Sow at: 500 g/279 m².
500 g $15.49 | 2 kg $54.99

Microclover/Pipolina *(Trifolium repens)* • 6737
5-7 cm height
This dwarf white clover is a great choice for overseeding into lawns and sports turf. It requires regular mowing to a height of 5-7 cm to maintain its dwarf, low-growing, spreading habit. Reduce or eliminate nitrogen fertilizer for best results. New lawn: 2 kg/90 m². Overseeding: 25 g/50 m².
25 g $11.95 | 125 g $44.95 | 500 g $89 | 1 kg $130

Buffalo Grass *(Buchloe dactyloides)* • 8315
10-20 cm height
This hardy North American prairie native is a great choice for low-maintenance, drought-resistant lawns. Forms a dense, resilient sod by spreading through stolons. While it greens up about a month later than Kentucky Bluegrass in the spring, it stays vibrant all season with minimal care before going dormant after the first killing frost. Not recommended for high-traffic areas or sports fields. Sow at: 500 g/22.5 m²
500 g $95

Crownvetch *(Securigera varia)* • 8320
45 cm height
This groundcover is ideal for steep slopes and other problem areas. It never needs fertilizer or mowing and grows in almost any soil in full sun. The dense, lush foliage chokes out weeds once the plants become established. Plants produce pink to white flowers from early spring into mid summer. Seed can take up to 6 months to germinate and plants can take 3 years to establish. Avoid mowing. Sow at: 250 g/180 m². Kit includes: 250 g crownvetch, 500 g annual ryegrass to use as a nurse crop.
Kit $39.99

Mixtures

Flowering Ecological Lawn • 8325
40 cm height
Perfect for those who want a colourful, no maintenance lawn. A blend of hardy, drought-resistant, perennial, biennial, and annual grasses and flowering plants. Will flower best in full sun. Sow at: 1 kg/90 m². Contains: English Daisy, Soapwort, White Clover, Birdsfoot Trefoil, Chamomile, Sheep's Fescue, and Creeping Red Fescue.
1 kg $65

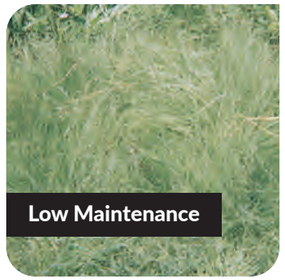
Mini Mow • 8335
15-25 cm height
Hardy perennials and self-seeding annuals that are perfect for those who want an ecologically friendly lawn without regular maintenance. Typically needs to be cut only twice a season to maintain its performance. Sow at: 500 g/150 m². Contains: White Yarrow, Birdsfoot Trefoil, White Clover, Perennial Alyssum, and California Poppy.
500 g $95

Xeriscaping Lawn • 8350
7-15 cm height
This drought-tolerant blend requires no fertilizer, survives with little moisture, and tolerates substandard soil too! Sow seed very shallow, as it requires light for germination. Keep the soil moist until foliage is obvious. Will tolerate mowing if desired. Hardy to Zone 4. Sow at: 1 kg/300 m². Contains: 25% Yarrow, 75% White Clover.
1 kg $126.50

A FACT TO GROW BY

Enjoy a succession of perennial blooms throughout the season. With variations in flowering times, bloom duration, and a wide range of colours, your garden will be as ever-changing as the seasons. Adding a few annuals will provide additional blooms over a longer period while your perennials gradually mature and fill in the garden.

Cutting **Heirloom** (Time-tested variety) **Container** (Great for pots) **Climbing** (Requires staking/cage) **Disease Resistant** **Premium Variety**



OSC Lawn Seed

***Sow outdoors** in spring once the soil has warmed, or from mid-August to late September.*

***Apply seed** at half the sowing rate over the area twice in a crisscross pattern. Rake soil lightly to cover and roll once with roller at half capacity if soil is light. Keep soil moist for 2-3 weeks until germination occurs.*

***Pro Tip:** Mow for first time when seedlings reach 8 cm in height.*

Looking to seed a large area? Call us at 519-886-0557 for bulk sizes!

Canada No. 1 Lawn Seed Mixtures

Beach & Cottage • 7055
This mixture thrives in poor, dry soils and tolerate heavy traffic once established. Tolerates partial shade. Contains: Turf Type Perennial Rye, Chewings Fescue. New lawn: 1 kg/25 m². Existing lawn: 1 kg/50 m².
1 kg $14.99

Bungalow • 7060
A splendid all-purpose mix. Ideal for use in larger areas as well as on sloped land where quick establishment is beneficial. Contains: Kentucky Bluegrass, Creeping Red Fescue, Annual Ryegrass. New lawn: 1.5 kg/50 m². Existing lawn: 1.5 kg/100 m².
1.5 kg $17.99

Low Maintenance "Eco Lawn" • 8340
An economical blend for a wilder meadow look. This blend is perfect for areas where soil is less than idea. Very heat and drought resistant. Contains: Creeping Red Fescue, Hard Fescue, Chewings Fescue and Perennial Rye. New lawn: 1.5 kg/60 m². Existing lawn: 1.5 kg/90 m².
1.5 kg $21.95

Shady Nook • 7065
This fast germination mixture is great for areas under trees, along the side of your house, or anywhere you experience trouble growing turf due to shade. While no grass can thrive in total darkness, Shady Nook significantly expands the range where you can cultivate a beautiful lawn. Contains: Perennial Ryegrass, Fescues, and Bluegrass. New lawn: 1.5 kg/50 m². Existing lawn: 1.5 kg/100 m².
1.5 kg $19.99

Ultra Lawn Mix • 7070
Ideal for areas that do not receive much water or where watering may be irregular. Produces a fine textured lawn in full sun or partial shade. Contains: Perennial Ryegrass, Chewings Fescue, Creeping Red Fescue, Kentucky Bluegrass. New lawn: 1.5 kg/50 m². Existing lawn: 1.5 kg/100 m².
1.5 kg $24.99

Victoria Park • 7075
Create a beautiful, durable lawn with this excellent all-purpose turf blend. Designed for everyday use, this hard-wearing mixture produces a lush, resilient lawn that stands up well to regular foot traffic while maintaining an attractive appearance. Contains: Perennial Ryegrass, Kentucky Bluegrass and Creeping Red Fescue. New lawn: 1.5 kg/50 m². Existing lawn: 1.5 kg/100 m².
1.5 kg $19.99

Individual Turf Varieties

Annual Ryegrass • 7115
A good nurse crop and thrives in poor soils and full sun. Due to its fast germination, it is exceptionally useful on slopes where it helps reduce erosion and quickly stabilizes the area. It can also be used where quick seasonal cover is required. Seasonal cover: 500 g/20 m². Nurse crop: 500 g/200 m².
500 g $4.50 | 2 kg $11.99

Jumpstart Kentucky Bluegrass • 7100
While slower to germinate, it thickens into a fine, lush green turf and withstands a very low mowing height. It has excellent wear tolerance and a high self repairing capacity due to its sod forming ability. New lawn: 1 kg/40 m². Existing lawn: 1 kg/100 m².
1 kg $19.50

Right Kentucky Bluegrass • 7090
A beautiful turf grass with good resistance to leaf spot and aggressive in growth once it becomes established. Great colour and excellent turf quality due to its sod forming ability. Kentucky Bluegrass is an excellent base for any home lawn or athletic playing surface. New lawn: 1 kg/40 m². Existing lawn: 1 kg/100 m².
1 kg $23.50

Chewings Fescue • 7110
Thrives in both poor soils and shady conditions and is tolerant of heavy foot traffic. Ideal for children's play areas and where erosion is a problem. New lawn: 1 kg/50 m². Existing lawn: 1 kg/100 m².
1 kg $15.99

Creeping Red Fescue • 7095
A very hardy fine bladed grass that is ideal for dry, sandy soils. Very drought resistant and recovers quickly when supplemental moisture is unavailable. Good shade tolerance. New lawn: 2 kg/50 m². Existing lawn: 2 kg/100 m².
2 kg $29.99

Turf Type Tall Fescue • 7085
A very drought-resistant fescue that is especially tolerant to a common lawn problem known as brown patch. Requires little fertilizer and thrives in hot weather and poor soils. Perfect for cottagers with sandy soils and along roadsides as it resists salt damage. Fine bladed grass with a low growing habit. Good shade tolerance. New lawn: 2 kg/50 m². Existing lawn: 2 kg/100 m².
2 kg $25.99

Next Evolution Perennial Ryegrass • 7106
This fast germinating, fast growing, resilient ryegrass is very popular for use on athletic fields and heavy traffic areas. An excellent choice for overseeding established lawns and quick repair. Pleasing dark green colour and upright growth habit. New lawn: 2 kg/66 m². Existing lawn: 2 kg/150 m².
2 kg $25.99

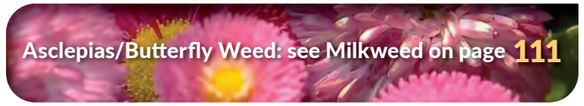
Perennial Flowers

Perennial flowers are a long-lasting addition to any garden, returning year after year with increasing beauty and minimal maintenance. Many varieties multiply over time, providing reliable colour, attracting pollinators, and offering excellent value season after season.

DID YOU KNOW?

Many perennials spend their first year developing a strong root system and will bloom in their second year.



Aster *(Aster novae-angliae) – 2,400 seeds per gram*

Bloom time *August to October.*

Sow outdoors *late fall for natural stratification.*

Sow indoors *early March, 3 mm deep. Moisten the growing medium and refrigerate container for 2-3 weeks before bringing it back into the warmth.*

Transplant outdoors *late May, 30 cm apart in sun to partial shade. Prefers moist soil but will tolerate a range of conditions.*

New England Aster • 6940
60-120 cm height
300 seeds per packet. Irresistible to songbirds, pollinators and butterflies. It features showy 3.75 cm wide violet-purple blooms with yellow-orange eyes. Typically flowers in the second year. Ontario native wildflower.
Packet $3.99 | 2 g $18.75

Bergamot *– 2,800 seeds per gram*

Bloom time *July to September.*

Sow outdoors *late fall for natural stratification.*

Sow indoors *March, 6 mm deep. Keep at 15-21 °C for 30 day germination window.*

Transplant outdoors *late May, 45-60 cm apart to ensure good air circulation. Prefers full sun to light shade and well-drained soil.*

Wild Bergamot *(Monarda fistulosa)* • 6863
1 m height
250 seeds per packet. Also known as Bee Balm, this showy native perennial is the perfect ornamental plant with a high pollinator value. Makes a great tea too. Summer blooming plant with pink to lavender flowers and often found in open, dry fields, thickets and clearings. Ontario native wildflower.
Packet $2.99 | 5 g $15.70 | 25 g $62.80

Panorama Red *(Monarda didyma)* • 6864
75-90 cm height
25 seeds per packet. Outstanding red to scarlet flowers in June and July. Its wonderfully fragrant flowers and foliage are attractive to bees, butterflies and hummingbirds. These short-lived perennials (4-6 years) benefit from being lifted and divided every 3 years to help perpetuate.
Packet $2.99 | 100 seeds $9.95

Black Eyed Susan
– Seeds per gram varies between varieties

Bloom time *July to September.*

Sow outdoors *late fall for natural stratification.*

Sow indoors *February to March, 1 mm deep.*

Transplant outdoors *late May, 45 cm apart in a sunny spot.*

Black Eyed Susan *(Rudbeckia hirta)* • 6865
60-90 cm height
200 seeds per packet. 3,700 seeds per gram The most recognizable native wildflower with golden yellow blooms and dark chocolate-brown to black centres. Easy to grow, adaptable to most soils, trouble-free and tolerant of heat and drought. Blooms well in full sun or light shade. Blooms from July through to September. Hardy to Zone 3. Ontario native wildflower.
Packet $2.19 | 25 g $11.50 | 125 g $40 | 250 g $65.10 | 500 g $110

Goldsturm *(Rudbeckia fulgida)* • 6605
70 cm height
325 seeds per packet. 1,150 seeds per gram. Bold, golden yellow flowers with dark buttons flourish from mid July through September. Heat and drought tolerant and good for cut flowers too! Perfect for mass plantings or with other later blooming perennials. Hardy to Zone 3.
Packet $2.99

Blazing Star *(Liatris spicata) – 285 seeds per gram*

Bloom time *July to September.*

Sow outdoors *late fall for natural stratification.*

Sow indoors *March, 3 mm deep. Freeze tray for 10 days before bringing back into warmth. Transplant outdoors late May, 30 cm apart in a full sun location with moist soil.*

Gayfeather • 6960
60-120 cm height
100 seeds per packet. Produces a spectacular show of purple spikes. Plants have good frost and wind tolerance and excel as dried or fresh flowers. Perfect for beds, borders or rock gardens, and pollinator gardens. In the wild, Blazing Star is typically found growing in moist prairie or sedge meadow habitats. Perennial hardy to Zone 4. Ontario native wildflower.
Packet $5.99 | 5 g $13.60

Canterbury Bells
(Campanula medium) – 4,200 seeds per gram

Bloom time *May to June.*

Sow outdoors *May 2 mm deep, and again in September.*

Sow indoors *January for a chance at first season blooms.*

Transplant outdoors *late May, spacing 30 cm apart in a sunny t o partially shaded site with well-drained soil.*

Cup & Saucer Mixed • 6385
75 cm height
500 seeds per packet. Beautiful, bell-shaped flowers with a flat base, form on strong flowering stems in a myriad of colours including white, pink, deep blue and rose. Bells are biennials, which means they grow from seed through the first season, overwinter as a plant, then flower the second season before going to seed and dying. We recommend sowing seed in two consecutive years to ensure yearly flowering. Hardy to Zone 5.
Packet $2.19 | 25 g $31.90

Candytuft *(Iberis sempervirens) – 425 seeds per gram*

Bloom time *May to June.*

Sow outdoors *late May, 3 mm deep in sun to partial shade.*

Sow indoors *March for a chance at earlier blooms.*

Transplant outdoors *late May, 15-20 cm apart.*

Candytuft • 6390
15-30 cm height
75 seeds per packet. Compact, low-spreading plants produce a white carpet of bloom through late spring to early summer. The flowers are so profuse, even the rich green foliage is almost hidden. Candytuft is an evergreen perennial in milder winter areas. It will become woody with age, we suggest shearing immediately after flowering to promote compactness. Shearing will also improve bloom density the following spring. Hardy to Zone 3 when sheltered.
Packet $2.99 | 5 g $24.75 | 25 g $82.50

Catchfly *(Silene armeria) – 7,800 seeds per gram*

Bloom time *June to August.*

Sow outdoors *April to May, or early fall. Plant 3 mm deep and 6 cm apart in a sunny spot.*

Thin to *25 cm apart when seedlings are 5 cm tall.*

Catchfly • 6885
60 cm height
700 seeds per packet. While not native to Canada, Catchfly has naturalized throughout much of North America. This hardy plant produces clusters of large, globe-shaped, deep rose-pink blooms on long stems. Very hardy in poor soils and performs well under extreme heat.
Packet $2.19 | 125 g $40 | 250 g $65.35 | 500 g $110

Cutting **Heirloom** (Time-tested variety) **Container** (Great for pots) **Climbing** (Requires staking/cage) **Disease Resistant** **Premium Variety**

Catmint *(Nepeta faassenii) – 1,000 seeds per gram*

Bloom time *June to September.*

Sow outdoors *late May to June on the surface of the soil, 10 cm apart.*

Sow indoors *March for blooms in the first year.*

Transplant outdoors *late May, 25 cm apart. Prefers full sun but will tolerate some shade.*

Catmint • 6400
60 cm height
400 seeds per packet. Bushy, spreading plants with a delicate, grey-green foliage topped with lavender-blue to deep pink blooms. Mature plants reach 40 cm across. Like its relative Catnip, Catmint will attract cats. Deer resistant plants can be aggressive so many gardeners confine this plant with some form of edging. Hardy to Zone 4.
Packet $2.99 | 5 g $15.75

Chinese Lantern

(Physalis alkekengi var. franchetii) – 600 seeds per gram

Bloom time *July, characteristic orange pods form August to October.*

Sow indoors *mid February on the surface of the growing medium.*

Transplant outdoor*s late May, 60 cm apart in rich soil.*

Chinese Lantern • 6405
60 cm height
100 seeds per packet. Bushy plants are filled with orange lantern-shaped, papery pods which are as attractive in the garden as they are in dried bouquets. A very unusual but attractive plant! Hardy to Zone 4.
Packet $2.19 | 25 g $28.15

Columbine *– 800 seeds per gram*

Bloom time *June.*

Sow outdoors *early June or late fall, leaving seeds uncovered.*

Sow indoors *March, chilling seeds 3-4 days prior to sowing.*

Transplant outdoors *late May, 30 cm apart in light shade, tolerates full sun except for hot, dry areas.*

Mckana Giants *(Aquilegia caerulea)* • 6415
75 cm height
60 seeds per packet. Large 10 cm cup-and-saucer shaped flowers with long, lush spurs fill these sturdy plants. Solid and bicoloured flowers include white, cream, rose, violet, yellow and red. An excellent border or cut flower plant. Hardy to Zone 3.
Packet $2.19 | 5 g $13.50 | 25 g $45

Earlybird Series *(Aquilegia x hybrida)*

Red-Yellow • 6411
25 cm height
10 seeds per packet. A first-year flowering perennial that's more compact than Mckana Giants and filled with abundant blooms in unique and very vibrant colours. Short-stemmed, well mounded plants have a rich green foliage for a beautiful garden show. This colour is rare among the hybrid aquilegia.
Packet $3.99 | 25 seeds $8.50

Purple-White • 6412
25 cm height
10 seeds per packet. A first-year flowering perennial that's more compact than Mckana Giants and filled with abundant blooms in unique and very vibrant colours. Short-stemmed, well mounded plants have a rich green foliage for a beautiful garden show.
Packet $3.99 | 25 seeds $8.50

Coneflower *(Echinacea purpurea) – 265 seeds per gram*

Bloom time *July and August.*

Sow outdoors *September, 2 mm deep in a sunny spot.*

Sow indoors *January and February for first year blooms.*

Transplant outdoors *late May, 60 cm apart.*

Purple • 6420
100 cm height
60 seeds per packet. Pretty, long-lasting, daisy-like blooms of light purple with contrasting centres of dark maroon. A little afternoon shade seems to help flower persistence in the garden. Tolerates a wide range of soil conditions except continually wet soil. Hardy to Zone 3.
Packet $2.99 | 125 g $40 | 250 g $68.75 | 500 g $104

Pow Wow Wildberry • 6422
60 cm height
10-12 seeds per packet. AAS Winner 2010. Intense, rose-coloured flowers and loads of them! Compact, upright plants with an excellent branching habit; perfect for even the smallest garden. Drought tolerant, suitable for containers or cut flowers and very pollinator friendly! Hardy to Zone 3.
Packet $5.99

White Coneflower • 6425
60 cm height
30 seeds per packet. An attractive, white version of the popular purple coneflower. Hardy plants are topped with white, daisy-shaped flowers with yellowish-grey pincushion-shaped centres. A reliable, late summer flower for borders or for cutting. Less tolerant of continually wet soil than the purple flowering form. Hardy to Zone 3.
Packet $2.99 | 5 g $13.50 | 15 g $36

Paradiso Mixed • 6427
30-40 cm height
10 seeds per packet. First-year blooming from early indoor sowings, with an incredible array of colours from red to yellow, orange and purple blooms. Improved vigour, with consistent garden performance. A dependable perennial hardy to Zone 4.
Packet $3.99

Dwarf Yellow Prairie *(Ratibida columnifera)* • 6910
1 m height
500 seeds per packet. 1,800 seeds per gram. This pretty, native North American wildflower is sturdy and drought tolerant. Flowers are up to 7.5 cm across with bright yellow reflexed petals and a pronounced dark brown tubular centre. Flowers are a butterfly favourite and the seed produced by this plant is preferred by many birds and small mammals. Hardy to Zone 4.
Packet $2.99 | 25 g $16.75

Coreopsis *– 350 seeds per gram*

Bloom time *June to September.*

Sow outdoors *April to June or early September, 3 mm deep in a sunny spot.*

Sow indoors *March for blooms the first year.*

Transplant outdoors *late May, 30 cm apart.*

Tinctoria Tall *(Coreopsis tinctoria)* • 6905
45-60 cm height
350 seeds per packet. Native to the central plains of North America and has become naturalized in much of eastern North America. A bushy, multi-branched plant that produces large numbers of bright yellow flowers with maroon highlights. While this plant will tolerate drier conditions, it grows best in years with average to above average rainfall. A good plant to attract pollinators.
Packet $2.19 | 125 g $40 | 250 g $65.35 | 500 g $110

Sunfire *(Coreopsis grandiflora)* • 6432
45 cm height
20-25 seeds per packet. Guaranteed to brighten any garden! Pollinator friendly, golden yellow flowers 5 cm across are centred by red-burgundy eyes. The plants themselves are quite compact and bushy, spreading to 45-60 cm in width. A reliable, first-year flowering perennial. Blooms from late June well into October. Deer resistant.
Packet $3.99

Lance Leaved *(Coreopsis lanceolata)* • 6900
60 cm height
70 seeds per packet. 440 seeds per gram. A favourite of many pollinators, as well as butterflies. It is often used for quick colour in native wildflower mixes and for borders in formal beds. It also makes a nice cut flower. Brilliant yellow flowers 2.5-5 cm across bloom all summer long. Lance-leaved coreopsis also self-seeds very easily and tolerates both heat and drought. Hardy to Zone 4. Native Ontario wildflower.
Packet $2.19 | 25 g $11.50 | 125 g $40 | 250 g $65.35 | 500 g $110

Daisy *– 750 seeds per gram*

Bloom time *June and July.*

Sow outdoors *May, and again in September for blooms the following year.*

Sow indoors *March, 4 mm deep for bloom the first year.*

Transplant outdoors *late May, 45 cm apart in a sunny spot.*

Shasta *(Leucanthemum maximum)* • 6625
50-70 cm height
225 seeds per packet. Naturalized throughout much of North America, these free-flowering plants are filled with large, snow-white, single flowers with yellow centres. Long blooming, deer resistant and a butterfly favourite! Tolerant of most soils. Please note: seed is not sold to addresses in British Columbia and Alberta. Hardy to Zone 3.
Packet $2.49 | 25 g $16.50 | 125 g $55

Crazy *(Leucanthemum x suberbum)* • 6630
60-70 cm height
25 seeds per packet. Robust plants are filled with mostly double white flowers all with yellow eyes. The many quill-type petals giving them a unique, fluffy look. Flowers average 6.5 cm in diameter. An extremely eye-catching display when this variety is massed in the garden. Hardy to Zone 4.
Packet $2.99

Cutting **Heirloom** (Time-tested variety) **Container** (Great for pots) **Climbing** (Requires staking/cage) **Disease Resistant** **Premium Variety**

English Daisy Bells
(Bellis perennis) – 4,800 seeds per gram

Bloom time *April and May.*

Sow outdoors *May to June, or August on the surface of the soil in a sunny spot.*

Sow indoors *February for blooms the first year.*

Transplant outdoors *May, 15 cm apart.*

Giant Double Mixed • 6450
15 cm height
400 seeds per packet. Small, double daisy-like flowers with 15 cm stems, rising from tufts of shiny green foliage. A great plant for early colour, as it blooms from early April into May. Beautiful as an edging for borders or the rock garden. Sow yearly for continuous bloom. Biennial, hardy to Zone 4.
Packet $2.99 | 25 g $41.25

Gloriosa Daisy – *1,800 seeds per gram*
(Rudbeckia hirta Gloriosa)
Bloom time *June to August.*

Sow outdoors *May, 4 mm deep in a sunny spot.*

Sow indoors *March for blooms the first year.*

Transplant outdoors *late May, 45 cm apart.*

Gloriosa Daisy • 6490
1 m height
300 seeds per packet. This variety produces massive, daisy-like flowers ranging from 12-18 cm wide in a warm palette of golden yellow, deep mahogany, and striking bi-colours, anchored by a prominent black-brown centre. These rugged perennials are perfect for adding vertical drama to borders or for massing in large, sunny landscapes.
Packet $2.19 | 25 g $15 | 125 g $50

Painted Daisy *(Tanacetum coccineum) – 500 seeds per gram*

Bloom time *June.*

Sow outdoors *August, 6 mm deep.*

Sow indoors *early March for blooms in the first year.*

Transplant outdoors *late May, 30 cm apart in a sunny spot.*

Pyrethrum • 6590
75 cm height
40 seeds per packet. Single daisy-like flowers in shades of pink, red, rose, or white completely cover plants. Gorgeous spring and summer colour in sun or partial shade. Invaluable for cutting and as a dried flower. Enjoys rich soil and benefits from winter protection.
Packet $2.99 | 25 g $22.50

Delphinium – *350 seeds per gram*

Bloom time *June and July.*

Sow indoors *March, 4 mm deep after chilling seed for 24 hours.*

Transplant outdoors *late May, 60 cm apart in a sunny spot.*

Cut back plants after flowering is complete to encourage a second bloom for later in the summer.

Pacific Giants Mixed *(Delphinium cultorum)* • 6435
150 cm height
70 seeds per packet. Large, graceful spikes filled with 5 cm double florets that burst into colour at the top of these sturdy plants. A well-balanced blend of solids and bi-colours. Foliage is mildew resistant. These tall plants are good for the background in the perennial border. Hardy to Zone 4.
Packet $2.99 | 5 g $27

Magic Fountains *(Delphinium elatum)* • 6440
75 cm height
40-50 seeds per packet. A dwarf, wind tolerant delphinium, ideal for the garden or containers. Contains shades of violet, lilac, lavender, rose, cream, blue and white, all with contrasting centre eyes. Attracts bees and butterflies!
Packet $3.99 | 50 seeds $5.99

Pacific Giants Mixed

Magic Fountains

Gloriosa Daisy

Giant Double Mixed

Echinops *(Echinops ritro) – 75 seeds per gram*

Bloom time *July to September.*

Sow outdoors *late May, on the surface of the soil. Or sow August to early September.*

Sow indoors *early March in plantable pots.*

Transplant outdoors *late May, 60 cm apart in sun to partial shade.*

Globe Thistle • 6445
75-90 cm height ✂
30 seeds per packet. A splendid "everlasting" with masses of globular, spiked, violet-blue flowers on solid stems. Thistle-like foliage is finely cut with a saw-tooth shape and tipped with slightly prickly spines. A pollinator favourite for bees and butterflies. Hardy to Zone 3.
Packet $2.99 | 25 g $30

Evening Scented Primrose
(Oenothera lamarckiana) – 1,900 seeds per gram

Bloom time *June to July.*

Sow outdoors *mid May or late October on the surface of the soil.*

Sow indoors *February for blooms the first year.*

Transplant outdoors *late May, 40 cm apart in a location with full sun to partial shade.*

Evening Primrose • 6915
30 cm height
This colourful pollinator plant also provides forage for small birds. Flowers bloom from late afternoon into the evening and close during the daylight hours. Sweetly scented, bright yellow, cup-shaped flowers 2.5-5 cm across attract small birds and nighttime pollinators such as moths and bats. Performs well in dry to average soils in full sun to partial shade.
Packet $2.19 | 25 g $19.30 | 125 g $60.85

Evening Primrose

Flax *– seeds per gram varies between varieties*

Bloom time *June to August.*

Sow outdoors *April to June, or late fall 2 mm deep and 20 cm apart.*

Thin to *30 cm apart when seedlings have their first set of true leaves.*

Blue *(Linum perenne)* • 6925
25-60 cm height
645 seeds per gram. 350 seeds per packet. Blue Flax is a short-lived perennial that is best sown outdoors as it does not transplant well. Pretty sky-blue flowers 2.5 cm across are produced in large numbers on plants with fine-textured gray-green foliage.
Packet $2.19 | 125 g $40 | 250 g $65.35 | 500 g $110

Scarlet *(Linum grandiflorum rubrum)* • 6930
30-60 cm height
290 seeds per gram. 200 seeds per packet. This species native to North Africa and southern Europe enjoys sun to partial shade and is very tolerant of dry soils. Perfect for quick, intense summer colour and contrasting rich green foliage. While each flower typically only lasts a day, flowering is continuous from late June through to August.
Packet $2.19 | 125 g $4 | 250 g $65.35 | 500 g $110

Forget-Me-Not *(Myosotis alpestris) – 1,500 seeds per gram*

Bloom time *May to June.*

Sow outdoors *June to August, 1 mm deep.*

Sow indoors *January to February, for first year blooms.*

Transplant outdoors *late May, 22 cm apart in partial shade.*

Alpestris Blue/Alpine Type • 6460
15 cm height
225 seeds per packet. Compact, ball-shaped plants are loaded with beautiful eye-catching indigo blue flowers. They are very easy to grow and reseed themselves quite freely. Seed two years in a row for continuous blooms. Hardy to Zone 3.
Packet $2.99 | 25 g $30

Globe Thistle

Blue Flax

Scarlet

Alpestris Blue/ Alpine Type

✂ **Cutting** **Heirloom** (Time-tested variety) **Container** (Great for pots) **Climbing** (Requires staking/cage) **Disease Resistant** **Premium Variety**

Foxglove *(Digitalis purpurea) – 10,000 seeds per gram*

Bloom time *May to June.*

Sow outdoors *August to September, 4 mm deep and 15 cm apart.*

Sow indoors *February to March for blooms the first year.*

Transplant outdoors *late May, 30 cm apart in a sunny spot.*

Excelsior Hybrids • 6465
150 cm height
500 seeds per packet. An especially early bloomer with a tall, stately inflorescence of bell-shaped blooms accented by spotted throats. Colours include pink, rose, purple, cream, primrose and white. Prefers wind sheltered locations. Hardy to Zone 4. Note: Seeds and plants are considered toxic.
Packet $2.99 | 25 g $18.75 | 125 g $62.50

Gaillardia *(Gaillardia aristata) – 350 seeds per gram*

Bloom time *June to September.*

Sow outdoors *May to August on the surface of the soil.*

Sow indoors *early March for blooms the first year.*

Transplant outdoors *late May, 30 cm apart in a sunny spot.*

Grandiflora *(Gaillardia pulchella)* • 6470
75 cm height
110 seeds per packet. Bright golden-yellow, daisy-like flowers, highlighted with attractive maroon-red centres. Ideal for cutting and at the back of the perennial border. Self-sows readily but is not invasive and is very easy to grow. Pollinator friendly. Hardy to Zone 3.
Packet $2.99 | 25 g $30

Arizona Red Shades • 6477
30 cm height
10 seeds per packet. This beautiful variety features dark orange-red flowers 10 cm in diameter that literally smother the plant from late spring through September. A small percentage will have yellow tipped petals. Quick to flower from seed, long lived, and low maintenance!
Packet $2.99

Mesa Yellow (*Gaillardia x grandiflora*) • 6480
45 cm height
10 seeds per packet. AAS winner 2010. The first F1 Hybrid Gaillardia from seed. Vigorous plants are loaded with brilliant yellow 7.5 cm wide daisy-like flowers. A favourite of pollinators. Blooms throughout the summer. A great plant for use in containers. Hardy to Zone 4.
Packet $3.99

Geum *(Geum hybridum) – 400 seeds per gram*

Bloom time *May to July.*

Sow outdoors *May, on the surface of the soil.*

Sow indoors *February for blooms in the first year. Keep seeds at 21 °C for the 28-day germination period.*

Transplant outdoors *late May, 40 cm apart in a sunny spot.*

Mrs. Bradshaw • 6485
60 cm height
125 seeds per packet. Double, rose-like scarlet blooms on long stems are attractive in the border or as cut flowers. Not only are these plants very heat and drought tolerant, they are also one of spring's first perennials to bloom! Hardy to Zone 4.
Packet $2.99 | 25 g $41.25

Perennial Baby's Breath
(Gypsophila paniculata) – 1,200 seeds per gram

Bloom time *July to August.*

Sow outdoors *late May to June uncovered on the soil.*

Sow indoors *April*

Transplant outdoors *late May, 60 cm apart in a sunny to slightly shaded location.*

Paniculata Single • 6500
90 cm height
300 seeds per packet. Also known as Baby's Breath. The beautiful, tiny white flowers are excellent in fresh or dried bouquets. These stately plants prefer neutral to somewhat alkaline soils. Hardy to Zone 3. Please note: These seeds are not sold to addresses in British Columbia, Alberta, Saskatchewan.
Packet $2.99 | 5 g $7.90 | 25 g $26.25

Heuchera/Coral Bells
(Heuchera sanguinea) – 25,000 seeds per gram

Bloom time *late May to August.*

Sow outdoors *May and again in August for blooms the following spring.*

Sow indoors *January to mid March on the surface of the growing medium.*

Transplant outdoors *late May, 45 cm apart in a sunny to partially shady spot.*

Bressingham Hybrids • 6510
35-45 cm height
125 seeds per packet. Very graceful, slender stalks are loaded with dainty red or pink bell-shaped flowers borne high above the bright green, heart-shaped foliage. Plants bloom for an extended period from late May through August. A great plant for rockeries or borders. Hardy to Zone 3.
Packet $2.99

Hollyhocks *(Alcea rosea) – 110 seeds per gram*

Bloom time *June and July.*

Sow outdoors *May to August, 6 mm deep. Plant two consecutive years for continuous blooms.*

Sow indoors *March, keep at 18 °C for the 28-day germination period.*

Transplant outdoors *late May, 65 cm apart in a sunny spot.*

Hollyhocks are biennial, this means they will not bloom until the second year, then they will flower heavily, produce seed and die. Seeding two years in a row will ensure continuous blooms!

Chaters Double Mixed • 6515
2 m height
60 seeds per packet. Tall, stately plants are loaded with fully double flowers in rose, salmon, buff, yellow, red or white with a cushion centre. Space plant at least 45 cm apart. Reliably hardy to Zone 3.
Packet $2.49 | 25 g $18.75 | 125 g $62.50

Double Apricot • 6517
150 cm height
25-30 seeds per packet. Beautiful, fully double, apricot blooms are a standout in any garden - from the old-school cottage garden to the modern perennial border. While hollyhock will grow nicely in some shade, full sun is essential for the best blooms. Biennial, hardy to Zone 4.
Packet $2.99

Fiesta Time • 6520
100 cm height
15 seeds per packet. Majestic, double flowers of intense cerise-pink fill these compact, sturdy plants. Unbelievable hues and loads of blooms! Plants may bloom when grown from seed in the first year if you start them very early indoors in February and set them out in mid to late May.
Packet $3.99 | 50 seeds $9.70

Halo Mixed • 6522
2 m height
15 seeds per packet. Large, attractive, brightly coloured, single flowers of white, yellow, red and purple all with strong contrasting bi-coloured eyes. Makes a great blooming screen for privacy. Hollyhocks are also edible and add gorgeous colour to any summer dish or fresh salad. When started early indoors, Halo may flower the first year.
Packet $3.99 | 50 seeds $9.70

Lavender *(Lavandula angustifolia) – 800 seeds per gram*

Bloom time *July and August.*

Sow outdoors *May, 3 mm deep in a full sun location.*

Sow indoors *January to March, keeping at 22 °C for the 28-day germination period.*

Transplant outdoors *late May, 30 cm apart.*

Vincenza Blue • 6527
40 cm height
20-25 seeds per packet. This compact perennial has attractive, grey-green foliage and flower spikes of deep lavender-blue. A very good summer performer that withstands heat and drought conditions. In warmer areas of Canada, it can grow large enough to form a small informal hedge. Bees and butterflies just love the fragrant blossoms. Hardy to Zone 7 but will tolerate up to Zone 5 with winter protection.
Packet $3.99

Cutting | Heirloom (Time-tested variety) | Container (Great for pots) | Climbing (Requires staking/cage) | Disease Resistant | Premium Variety

Lunaria/Money Plant – *50 seeds per gram*
(Lunaria annua biennis)

Bloom time *June to August.*

Sow outdoors *June and July, 6 mm deep and 15 cm apart.*

Sow indoors *April, keeping at 21 °C for the 20-day germination period.*

Transplant outdoors *late May, 30 cm apart.*

Silver Dollars • 6525
90 cm height ✂
50 seeds per packet. Delicate and fragrant, mauve flowers shine in late spring, but the main attraction is the shiny, silvery-white, circular seed pods that can be used in fresh and dried bouquets. This plant prefers noon hour shade. Light mulching helps over-wintering evergreen rosettes survive the winter without damage. Biennial, hardy to Zone 4.
Packet $2.19 | 25 g $10.50 | 125 g $35

Russel's Blue

Silver Dollars

Wild Lupins

Catchfly

Zebrina

Lupins – *45 seeds per gram*

Bloom time *June to July.*

Sow outdoors *October, 6 mm deep and 5 cm apart.*

Sow indoors *April, soaking seed in water for 24 hours before sowing. Use plantable pots as lupins are prone to transplant shock.*

Transplant outdoors *late May, 10 cm apart in a sunny spot with moist soil.*

Russells Hybrids *(Lupinus polyphyllus x hybrid)*
60-90 cm height
40 seeds per packet. A favourite perennial that's valued for its tall, colourful spikes. Requires moist soil in full sun to light shade. Survival is improved when protected from severe winter and summer stress. Hardy to Zone 5.

Mixed • 6530
Packet $2.99 | 25 g $11.65 | 125 g $38.75 | 500 g $100.75

Blue • 6535 **Red** • 6540 **Yellow** • 6550
Packet $2.99 | 25 g $15 | 125 g $50 | 500 g $130

Wild Lupins *(Lupin perennis)* • 6995
20-60 cm height
40 seeds per packet. This prairie plant is loaded with light white striped to light white shaded deep blue flowers from early spring through to mid-summer. Flowers are carried on terminal spikes up to 20 cm long. Each flower is about 2.5 cm in length with a typical pea-like shape. Best in full sun but also grows well in part shade. Hardy to Zone 4. Native Ontario wildflower.
Packet $2.19 | 25 g $11.50 | 125 g $37.75
250 g $65.35 | 500 g $110

Lychnis *(Lychnis chalcedonica) – 1,650 seeds per gram*

Bloom time *May to August.*

Sow outdoors *late fall, on the surface of the soil.*

Sow indoors *early March for blooms in the first year. Chill seed for 2-3 weeks at 5 °C prior to planting.*

Transplant outdoors *late May, 30 cm apart in a sunny site.*

Maltese Cross • 6555
60-90 cm height ✂
125 seeds per packet. Large showy umbels of brilliant, scarlet-red flowers sit high above the foliage from May through August. Rich green foliage is very fine, almost hair-like in appearance making an interesting contrast with the flowers. Maltese Cross is very popular for borders and cut flowers. Grows quite well in dry, sandy soils. Hardy to Zone 3.
Packet $2.99 | 125 g $37.50

Malva *(Malva sylvestris) – 400 seeds per gram*

Bloom time *July and August.*

Sow outdoors *May, 1 mm deep and 15 cm apart.*

Sow indoors *March for a chance at blooms the first year.*

Transplant outdoors *40 cm apart in a full sun to partially shaded site with well-drained soil.*

Zebrina • 6560
100 cm height
50 seeds per packet. An old-fashioned favourite and a good back-of-the-border plant. Strong, erect stems are loaded with 5 cm, cup-shaped, mauve-pink flowers that are heavily veined with a velvety-purple. A great pollinator plant and deer resistant. This tender perennial is best grown as an annual throughout most of Canada.
Packet $2.99 | 25 g $41.25

Milkweed *(Asclepias) – 125 seeds per gram*

Bloom time *June to August.*

Sow outdoors *September and October, 1 mm deep and 10 cm apart.*

Sow indoors *early March for flowering the first year. Chill seed for 12 weeks before sowing.*

Transplant outdoors *late May, 20 cm apart in a sunny site.*

Monarch butterfly only lay eggs on plants in the milkweed family! They are also the only food that monarch caterpillars eat.

Butterfly Weed *(Asclepias tuberosa)* • 6375
60 cm height
30 seeds per packet. Bright, sun-loving plants are filled with brilliant orange flower clusters 10 cm across from June through to September. Mound shaped plants average 60 cm tall. A favourite of butterflies, bees and other nectar-loving insects. Very heat and drought tolerant. Hardy to Zone 3. Native Ontario wildflower.
Packet $2.99 | 5 g $24.75 | 25 g $82.50

Common Milkweed *(Asclepias syriaca)* • 6987
100 cm height
40 seeds per packet. Indispensable in native wildflower meadows. The light, muted pink flowers are attractive, fragrant and extremely popular nectar and pollen sources for pollinators – bees in particular. Perennial hardy to Zone 3. Native Ontario wildflower.
Packet $2.99 | 5 g $18.40

Red Swamp Milkweed *(Asclepias incarnata)* • 6985
60 cm height
30 seeds per packet. A beautiful plant that is at home in wetland areas. It is an important plant for providing nectar to native pollinators and butterflies. It is a crucial host plant for both adult Monarch butterflies and the emergent caterpillars which feed exclusively on the leaves. Flowers range from pink to mauve and are pollinator magnets. Perennial hardy to Zone 3. Native Ontario wildflower.
Packet $2.99 | 5 g $41.95

Butterfly Weed

Red Swamp Milkweed

False Type

Ozark Sundrop

Ox Eye Sunflower – *220 seeds per gram*
(Heliopsis helianthoides)

Bloom time *July to September.*

Sow outdoors *late fall on the surface of the soil.*

Sow indoors *February and March for flowering in the first year.*

Transplant outdoors *late May, 30 cm apart in a full sun to partially shaded location.*

False Type • 6955
60-120 cm height
50 seeds per packet. Native to the eastern half of North America, this spreading multi-branched plant is an early flowering wildflower loaded with single and double yellow flowers 5-7.5 cm wide from July through September. Enjoys full morning sun and partial afternoon shade and will tolerate a wide range of soils and soil moisture levels. Flowers attract pollinators and the seed is consumed by birds and small mammals. Perennial, hardy to Zone 3.
Packet $2.99 | 25 g $22

Ozark Sundrop – *175 seeds per gram*
(Oenothera missouriensis)

Bloom time *June to September.*

Sow outdoors *late fall on the surface of the soil.*

Sow indoors *January to February for blooms in the first year. Chill seed for 4-8 weeks to increase germination.*

Transplant outdoors *late May, 30 cm apart in a sunny spot.*

Ozark Sundrop • 6570
15-30 cm height
60 seeds per packet. Also known as Missouri Evening Primrose. Produces very showy, 7.5 cm wide, poppy-like, bright lemon-yellow flowers on compact plants. Flowers open mid-day for one day only, then wither while new blooms arrive daily, keeping the show going. Plants are quite showy once established and will thrive in sunny hot areas with soil that is less than ideal. Hardy to Zone 4.
Packet $2.99 | 25 g $50.65

Common Milkweed

✂ **Cutting** **Heirloom** (Time-tested variety) **Container** (Great for pots) **Climbing** (Requires staking/cage) **Disease Resistant** **Premium Variety**

Penstemon – 2,300 seeds per gram

Bloom time *June and July.*

Sow outdoors *late May, 1 mm deep.*

Sow indoors *mid March for blooms in the first year.*

Transplant outdoors *late May, 30 cm apart in a sunny spot.*

Sensation Mixed Colours *(Penstemon hartwegii)* • 6575
90 cm height
250 seeds per packet. Also known as Hartweg's Beardtongue. Colourful, snapdragon-like tubular flowers of mixed red shades cover tall flower spikes. Foliage is neat, often glossy and unusually evergreen. Protect over winter to increase survival.
Packet $2.19 | 5 g $17.45

Rocky Mountain *(Penstemon strictus)* • 6965
60 cm height
250 seeds per packet. Produces a rosette of deep green leaves and multiple flower stalks bearing intense purple-blue 2.5 cm wide flowers. A good plant for attracting butterflies and hummingbirds. It is often grown for use as a cut flower. Self-sows easily. Perennial hardy to Zone 4.
Packet $2.99

Poppies – 4,000 seeds per gram

Bloom time *June.*

Sow outdoors *October, on the surface of the soil.*

Sow indoors *late February to early March.*

Transplant outdoors *late May, 15 cm apart in a sunny spot with well-drained soil.*

Iceland Poppy Mixed Colours *(Papaver nudicaule)* • 6580
45 cm height
800 seeds per packet. Large, cup-shaped flowers, 10 cm wide with wavy, fringed petals form in a multitude of colours atop fine, bright green, fern-like foliage. Strong stems withstand harsh wind and rain for a long-lasting show. Tends to self-sow. A great way to add delicate foliage and long-lasting flowers to the garden.
Packet $2.99 | 5 g $10.15

Oriental Poppy Brilliant Scarlet *(Papaver orientale)* • 6585
75 cm height
800 seeds per packet. Perhaps the most spectacular flower in the early summer garden with its brilliant red flowers with a black centre blotch and rich green foliage. Beautiful large flowers on long stems. Rated as hardy to Zone 4 but may show to crown damage due to repeated winter freeze-thaw cycles.
Packet $2.99 | 15 g $24

Rudbeckia – see Black Eyed Susan on page 103

Iceland Poppy Mixed Colours

Oriental Poppy Brilliant Scarlet

Stachys (Stachys byzatina lanata) – 1,100 seeds per gram

Bloom time *June to July.*

Sow outdoors *May, or August to September, on the surface of the soil.*

Sow indoors *mid March for bloom the first year.*

Transplant outdoors *late May, 30 cm apart in a full sun to partial shade location.*

Lamb's Ear • 6635
10-30 cm height
100 seeds per packet. Ornamental, silvery, woolly foliage with unusually shaped leaves 8 cm in length provide a nice accent to the garden. Very tiny, mauve and white flowers appear early summer. A good pollinator plant. Sow between rockery stones or along a garden path to enjoy the interesting mat of felt-textured leaves. Plants spread 30 to 45 cm across. Hardy to Zone 4.
Packet $2.99 | 5 g $14.10 | 25 g $46.90

Sweet Pea (Lathyrus latifolius) – 20 seeds per gram

Bloom time *July to September.*

Sow outdoors *late fall, 2 cm deep and 15 cm apart.*

Sow indoors *March to early April in plantable pots. Soak seed for 12-24 hours before sowing.*

Transplant outdoors *late May, 30 cm apart in a sunny spot.*

Mixed Colours • 6640
150 cm
20 seeds per packet. A beautiful mix of colours from deep red through rose and light pink to white. Dainty flowers average 2.5 cm across and are very attractive to bees and butterflies. Drought tolerant plants make a wonderful flowering screen that comes back every year. Add support so that they can climb, or use as a trailing ground cover. Hardy to Zone 5.
Packet $2.99 | 25 g $22.50 | 125 g $75

Lamb's Ear

Sensation Mixed

Sweet Pea Mixed Colours

Sweet William (Dianthus barbatus) – 900 seeds per gram

Bloom time *June to July.*

Sow outdoors *mid-May, 3 mm deep.*

Sow indoors *April for flowers the first year.*

Transplant outdoors *late May, 20 cm apart in a sunn*

Giant Single Mixed • 6645
25 cm height
500 seeds per packet. Vivid coloured flowered and early to bloom and heat tolerant! Large, beautiful flowers in colours of pink, rose and red.
Packet $2.19 | 25 g $18.75 | 125 g 62.50

Super Duplex Double • 6650
40 cm height
500 seeds per packet. Big, extra-large, mostly double flowers in reds, pinks, rose, and whites with an old-fashioned charm. Plants are loaded with pretty, fragrant flowers that bloom July through September.
Packet $2.19 | 25 g $18.75 | 125 g $62.50

Tritoma (Kniphofia uvaria) – 320 seeds per gram

Bloom time *June and July.*

Sow outdoors *mid to late June, 6 mm deep.*

Sow indoors *early April, germinating at 24-27 °C for 15-25 days.*

Transplant outdoors *late May, 40 cm apart in a sunny spot.*

Pfitzer's Hybrids • 6655
75 cm height
100 seeds per packet. Flaming, tubular flower spikes 75 cm high in shades of red, orange and yellow. Stunning in the border or as a cut flower. Native to South Africa, and hardy to Zone 5 with winter protection.
Packet $2.99 | 25 g $41.25

Viola (Viola cornuta) – 750-1,000 seeds per gram

Bloom time *June and July.*

Sow outdoors *spring or fall, 3 mm deep.*

Sow indoors *March for flowers the first year.*

Transplant outdoors *late May, 15 cm apart in a full-sun to partially shaded spot.*

Mixed Colours • 6660
20 cm height
140 seeds per packet. Also known as Johnny Jump Up. Grows just like pansies in all respects. The beautiful blossoms resemble violets, but are slightly smaller and more tolerant to heat and drought. Flowers all summer long in sun or partial shade. A beautiful, evergreen perennial that is ideal for beds, borders, or rockeries.
Packet $2.99 | 5 g $15.75

Sorbet XP Citrus Mixed • 6662
12-20 cm height
15 seeds per packet. Create a colourful blanket of rich orange, deep yellow and white blooms all summer long. Amazing uniformity. Perfect for massed beds, borders or rockeries.
Packet $2.99 | 100 seeds $15.50

Sorbet CP Spring Select Mix • 6664
12-20 cm height
15 seeds per packet. Hybrid vigour means more blooms per plant and less stretching. Stays compact in heat or cold. These early flowering plant bloom in a wide array of colours.
Packet $2.99 | 100 seeds $15.50

Yarrow (Achillea millefolium) – 6,100 seeds per gram

Bloom time *July to September.*

Sow outdoors *early spring to late fall on the surface of the soil.*

Sow indoors *mid February to mid March for flowers the first year.*

Transplant outdoors *late May, 30 cm apart in a sunny spot.*

White Yarrow • 6990
45 cm height
200 seeds per packet. Naturalized throughout Canada. It is often used in formal rock gardens or perennial borders. Thrives even in hot, dry sites. Fern-like, aromatic foliage produces swarms of showy, flat-topped, white flowers for months in the garden. Blooms mid-summer to late fall in full sun. Hardy to Zone 3.
Packet $2.19 | 125 g $40 | 250 g $65.35 | 500 g $110

Wallflower (Cheiranthus allionii) – 680 seeds per gram

Bloom time *May to June.*

Sow indoors *early March, 6 mm deep.*

Transplant outdoors *late May to June, 30 cm apart in a sunny spot.*

Double Mixed • 6665
45-60 cm height
125 seeds per packet. Bushy plants about 40 cm across are covered with clusters of bright orange, rose, red, and yellow shaded flowers. Uniform-sized plants bloom in the spring and are quite easy to grow. Adds a sophisticated fragrance to any floral arrangement. Hardy to Zone 5 with protection. Biennial.
Packet $2.99 | 125 g $37.50

Legumes & Forage Crops

Browse our selection of legumes and forage crops for pasture improvement, livestock feed, soil building, and cover cropping. Visit oscseeds.com for growing instructions. Looking for seed for a large scale project?

Call 1-800-465-5849 or email info@oscseeds.com for information on bulk sizes.

Alfalfa *(Medicago sativa)* • 6675
45-60 cm height plant
450 seeds per gram. A deep-rooted, drought resistant perennial forage plant that also works well as a permanent cover crop in gardens and fields. This legume is soil enhancing and nitrogen fixing. Most stands cultivated for forage last at least three years. A good plant for pollinators. Sow at 22.5 kg/ha (500 g/222 m²).
500 g $8.49 | 2 kg $27.99

Alsike Clover *(Trifolium hybridum)* • 6680
30-60 cm height
1,500 seeds per gram. Smallish leaves, with prolific white to pink flowers. A non-creeping plant that typically lies flat but will grow tall when sown in with grasses. It is an ideal legume for wet, heavy, or acid soils. Alsike is a fast growing, hardy, but short-lived perennial (2-3 years). Alsike clover should never be used in a forage or hay mixture for horses as it is poisonous to them. Alsike forms a decent cover crop and makes an excellent green manure due to its ability to fix nitrogen. A fantastic bee fodder plant as well! Sow at 13 kg/ha (500 g/385 m²).
500 g $8.49 | 2 kg $27.99

Birdsfoot Trefoil *(Lotus corniculatus)* • 6685
7-15 cm height
850 seeds per gram. This highly palatable and protein rich forage crop is perfect for cattle or sheep. Cold hardiness offers extended fall feeding. A long-lived perennial legume with a strong deep taproot. Tolerates both waterlogged soil and very dry soil. With its low growth and multi-branching habit, it is a good choice for dry, sunny areas where other plants have trouble. Often used in erosion control blends. The flowers are an important nectar source for many pollinators. Sow at 13 kg/ha (500 g/385 m²).
500 g $13.99 | 2 kg $49.99

Smooth Bromegrass *(Bromus inermis)* • 6690
60-80 cm height
200 seeds per gram. Brome grass has a deep, hardy root system that enables it to survive drought and tough winter conditions. It makes a succulent pasture crop when combined with Alfalfa. Also used as a green manure and for erosion control. Best sown in spring or early fall. Sow at 33 kg/ha (500 g/152 m²).
500 g $8.99 | 2 kg $29.99

Buckwheat *(Fagopyrum esculentum)* • 6695
60 cm height
40 seeds per gram. An ideal green manure. Smothers weeds once it is established; protects soil and provides valuable forage for pollinators. Take time to prepare a firm, fine textured seedbed. Irrigate if rain is sparse during establishment. Buckwheat does poorly in soil that tends to stay wet. When using buckwheat as a green manure, it is best to turn the crop in 7-10 days of the onset of flowering. This will prevent seed from maturing, germinating, and creating 'volunteer' buckwheat plants where they are no longer needed. Sow at 52 kg/ha (500 g/96 m²).
500 g $5.99 | 2 kg $16.99

Daikon Forage Radish *(Raphanus sativus)* • 6742
30-60 cm height
50 seeds per gram. This radish is ideal for use as a cover crop and soil amendment. Thick roots rapidly penetrate deep into the soil, capturing nutrients and opening up compacted, heavy soils, and preventing erosion. While generally considered inedible for humans, this radish makes a superb forage for wildlife – in particular for deer! Apply to finely prepared soil. Sow at 9.1 kg/ha (500 g/550 m²).
500 g $15 | 2 kg $48

Fall Rye *(Secale cereale)* • 6705
70 cm height
Approx. 400 seeds per gram. The most widely used fall cover crop for capturing soil nitrogen and quickly covering bare soil. Suppresses weed growth at germination and after plow down in the spring. Sow fall rye at 2.5 cm deep from early September to late October. Sow at 125 kg/ha (500 g/40 m²).
500 g $5.99 | 2 kg $16.99

Oats *(Avena sativa)* • 6710
70 cm height
30 seeds per gram. A great nurse crop to control weeds. Excellent cold soil germination - can be sown in spring, late summer, or fall. Tolerant of most soils and low pH 4.5. Winter will kill both oat plants and oat seed, so there is no carry over from year to year. Oats should be planted between 12-18 mm deep. Nurse crop, sow at 22 kg/ha (500 g/227 m²). Green manure, sow at 100 kg/ha (500 g per 50 m²).
500 g $5.99 | 2 kg $16.99

Orchard Grass *(Dactylis glomerata)* • 6715
60-90 cm height
1,100 seeds per gram. This hardy, cool season pasture grass is reasonably shade tolerant and does well in poor or shallow soils. Orchard grass is sown at 12 mm deep from early April to mid May and again in September. Late fall seeding, around mid October until winter arrives, ensures that no seed will germinate until spring as the soil is too cold. Spring's warm rains and snow melt will be enough to initiate germination. Sow at 33 kg/ha (500 g/152 m²).
500 g $7.99 | 2 kg $26.49

Red Clover, Double Cut *(Trifolium pratense)* • 6725
30-60 cm height
600 seeds per gram. Tolerant of most soils, a short-lived perennial forage plant with a deep taproot that not only helps to improve soil permeability but also brings nutrients up from the subsoil. Very valuable for increasing soil fertility by fixing nitrogen from the air into the soil. Known as double cut, there is rapid regrowth after the initial harvest allowing the opportunity for two harvests in the season. Red Clover typically lives from 2 to 3 years. Flowers are a honey bee and bumblebee favourite! Sow in spring at 16.8 kg/ha (500 g/ 298 m²).
500 g $7.29 | 2 kg $24.99

Timothy *(Phleum pratense)* • 6730
60-90 cm height
2,700 seeds per gram. An important part of many forage and hay blends. It does very well under cool, humid conditions and is quite at home on heavy soils. Well known for its resistance to both cold and drought. Timothy is sown between 6-12 mm deep in early April to mid May and again in early September. Sow at 13 kg/ha (500 g/385 m²).
500 g $6.49 | 2 kg $20.99

Yellow Blossom Sweet Clover *(Melilotus officinalis)* • 6740
90-150 cm height
600 seeds per gram. Does well on soils where the true clovers have problems. Due to its large, deep taproot and substantial root branching, it does a great job breaking up heavy or compacted soils. A good plant for bringing nutrients from deep in the sub-soil to the upper surface. Due to its rapid growth it is often used as part of reclamation seed mixes. This plant can self-seed readily. It provides both cover and food for many birds, the flowers are attractive to bees and butterflies, and the foliage is browsed by deer. Sow at 13.5 kg/ha (500 g/370 m²).
500 g $7.99 | 2 kg $26.49

Heirloom (Time-tested variety) **Container** (Great for pots) **Climbing** (Requires staking/cage) **Disease Resistant** **Premium Variety**

Wildflower Mixtures

***Bloom time** summer through fall once established. Typically blooms in second year after sowing.*

***Sow outdoors** early May to mid June, or mid-September through late October.*

***Site preparation:** Remove weeds, loosen soil to a depth of 2.5 cm with a stiff rake, cultivator or hoe. Broadcast the seed and keep seedbed moist until germination occurs.*

*For additional planting instructions for each mix, **visit www.oscseeds.com.***

Bee Pollinator • 6823
60-90 cm height
Enjoy the beauty of this high-quality flower blend while providing a great source of pollen and nectar for bees. We've included a few low growing native grasses to provide nesting habitat for bumble bees and other beneficial insects.
***Contains:** Black Eyed Susan, Blanket Flower, Borage, Butterfly Weed, White Clover, Corn Poppy, Eastern Columbine, Forget-Me-Not, Lance Leaf Coreopsis, Lemon Mint, New England Aster, Partridge Pea, Purple Coneflower, Sweet Mignonette, Wild Bergamot, and Wild Lupin.*
Packet $2.19 | 25 g $11.95 | 125 g $45.25
250 g $67.50 | 500 g $100 | 1 kg $170

Beneficial Insect • 6800
1-3 m height
This mixture helps control pests by attracting lacewings, ladybugs, soldier beetles, and other beneficial insects. These insects thrive by eating pests that ravage the summer garden, such as aphids. A blend of self-seeding annuals and hardy, long-lasting perennials. Prefers full sun.
***Contains:** Alflafa, Alpine Aster, Black Eyed Susan, Buckwheat, Butterfly Weed, Canada Goldenrod, Caraway, Coriander, Cosmos White Sensation, Dill, Evening Primrose, Fennel, Gloriosa Daisy, Lemon Balm, Perennial Alyssum, Maximilian's Sunflower, Rocky Mountain Penstemon Statice, White Alyssum, White Yarrow, Wild Bergamot, and Zinnia Lilliput.*
Packet $2.99 | 25 g $11.95 | 125 g $45.25
250 g $67.50 | 500 g $125 | 1 kg $187

Butterfly • 6805
60 cm height
We have put together a specific grouping of plants with flowers in various shades of violet, blue, orange, red and white for the purpose of attracting butterflies. A blend of annuals and hardy perennials.
***Contains:** African Daisy, White Alyssum, Bachelor Buttons, Butterfly Weed, Candytuft, Catchfly, Columbine, Prairie Coneflower, Purple Coneflower, Plains Coreopsis, Coreopsis Lance Leaved, Cosmos Sensation, Flax Scarlet, Red Swamp Milkweed, and Wallflower.*
Packet $2.99 | 25 g $10.15 | 125 g $38.10
250 g $57.20 | 500 g $84.90 | 1 kg $143.30

Cottage Country • 6810
45-150 cm height
Our favourite mix for those who want the beauty of native wildflowers to envelop their property with little to no maintenance. This blend of hardy native grasses and flowers is perfect for cottages, backyard naturalization projects, and rural properties.
***Contains:** Black Eyed Susan, Butterfly Weed, Flat Topped Aster, Foxglove, Fowl Bluegrass, Indiangrass, Little Bluestem, New England Aster, and Wild Bergamot.*
Packet $3.99 | 25 g $13.95 | 125 g $53
250 g $79.15 | 500 g $117.30 | 1 kg $197.95

Deer Resistant • 6815
Height varies for a natural, layered look
This mixture of early-flowering annuals and hardy perennials is designed to be naturally unappealing to deer. Perfect for those who find their flowers are being foraged by wildlife. Both native and non-native plants are found in this mix.
***Contains:** Black Eyed Susan, California Poppy, Corn Poppy, Four O Clock's, Foxglove, French Marigold, Lance Leaf Coreopsis, Lemon Mint, Little Bluestem, Oriental Poppy, Perennial Lupines, Purple Coneflower, Side Oats Grama, and Sweet Alyssum.*
Packet $3.99 | 25 g $11.50 | 125 g $44.50
250 g $63.50 | 500 g $97 | 1 kg $154.35

High-Drainage Septic-Safe • 6845
Height varies for a natural, layered look
A specialty blend with a wide variety of shapes and colours that are ideal for growing on sand and gravel or over septic beds. These specially selected plants develop a shallower root system, so they won't infiltrate and clog the weeping tiles.
***Contains:** Black Eyed Susan, Canada Milk Vetch, Foxglove, Golden Alexanders, New England Aster, Hoary Vervain, Little Bluestem, Marsh Blazing Star, and Perennial Ryegrass.*
Packet $3.99 | 500 g $143 | 1 kg $240

Hummingbird • 6820
70 cm height
A specially formulated blend full of flowers in radiant shades of bright red, violet and yellow that will help to attract these "flying jewels". A wide assortment of annuals and hardy perennials.
***Contains:** African Daisy, Blue Bachelor Button, Black Eyed Susan, Calendula, Coreopsis Dwarf, Flanders Red Poppy, Blue Flax, Gaillardia Double Mix, Gaillardia Grandiflora, Perennial Lupines, and Wallflower.*
Packet $2.99 | 25 g $10.15 | 125 g $38.10
250 g $57.20 | 500 g $84.90 | 1 kg $143.30

Looking to establish a lawn in sandy soil?
Check out our Beach and Cottage Lawn Mixture
on page 100

DID YOU KNOW?

Native grasses and wildflowers do not grow as quickly as common grass seed mixes. Since they can take 30 days or more to germinate, we recommend sowing them with a nurse crop of annual ryegrass or oats to help reduce erosion and keep weed growth in check. Typically, they will bloom in the second or third year. Though it takes patience, the beautiful display is worth the wait!

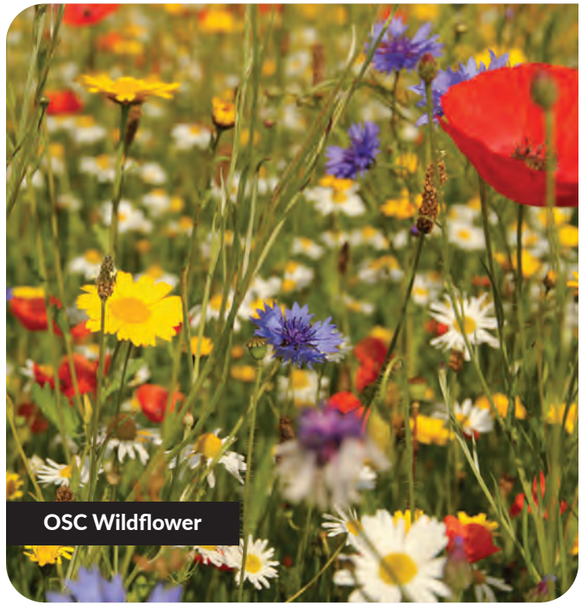
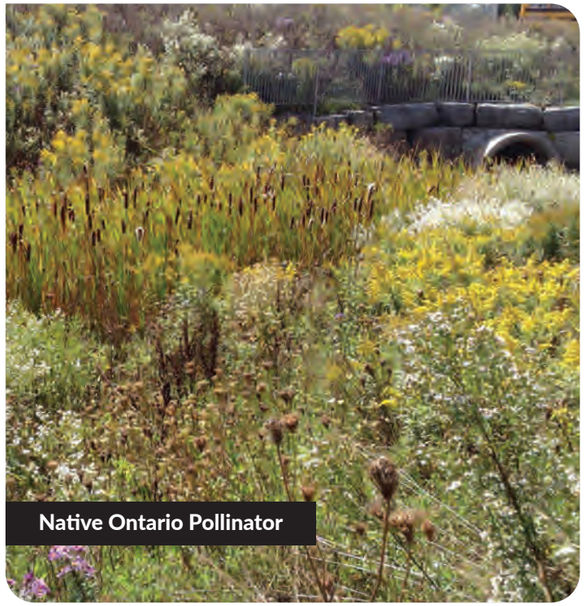
CONSERVATION AND RECLAMATION

Whether you're a homeowner looking to create a pollinator habitat, a rural property owner with a large expanse of land to restore, or a contractor working on a project, we've got you covered. These unique seed mixtures offer an attractive alternative to traditional plantings, require little maintenance, conserve valuable natural resources, and help provide food and shelter for pollinators and wildlife.



OSC Wildflower



Native Ontario Pollinator

✂️ **Cutting** ⏳ **Heirloom** (Time-tested variety) 🪴 **Container** (Great for pots)

Low Growing • 6825
50 cm height
A unique mixture of hardy annuals and perennials for those special sites where you want colour while keeping plants compact.
Contains: *African Daisy, Alyssum Saxatile, Baby's Breath, Candytuft, Catchfly, Blue Bachelor Buttons, Five Spot, Forget-Me-Not, Mountain Phlox, Oriental Poppy, Ozark Sundrop, Pinks, Prairie Coneflower, Showy Evening Primrose, and Wallflower.*
Packet $2.49 | 25 g $10.90 | 125 g $41.15
250 g $61.40 | 500 g $91 | 1 kg $153.70

Native Ontario Pollinator • 6824
60-100 cm height
Enjoy the beauty of this native flower blend while creating a valuable pollinator habitat. We've included a few low-growing native grasses to provide nesting habitat for bumble bees and other beneficial insects.
Contains: *Aise Hyssop, Black Eyed Susan, Blue Vervain, Bonset, Butterfly Milkweed, Canada Wild Rye, Common Milkweed, White Yarrow, Evening Primrose, Lance Leaf Coreopsis, Little Bluestem, New England Aster, Nodding Wild Onion, Wild Bergamot, and Wild Columbine.*
Packet $2.99 | 25 g $19.15 | 125 g $72.35
250 g $108 | 500 g $195 | 1 kg $285

OSC Wildflower • 6830
60-92 cm height
These popular wildflower varieties provide both colour and excellent garden performance. Perennial varieties will bloom from the second season onward, while many of the annuals will self-sow. Biennials will flower in their second year and often self-seed.
Contains: *White Alyssum, Annual Chrysanthemum, Babys Breath, Bachelor's Buttons, Black Eyed Susan, Calendula Pacific Beauty, Catchfly, Coreopsis Lance-leaved, Cosmos Sensation, Evening Primrose, Gloriosa Daisy, Plains Coreopsis, Prairie Coneflower, Purple Coneflower, Flanders Poppy, Rocky Mountain Penstemon, Russells Lupins, Scarlet Flax, Soapwort, and Wallflower.*
Packet $2.19 | 25 g $10.15 | 125 g $38.10
250 g $57.20 | 500 g $84.90 | 1 kg $143.30

Perennial Garden • 6835
25-120 cm height
Our perennial garden mixture includes more than a dozen reliable garden favourites. We have combined both dwarf and tall varieties to provide a spectacular show from top to bottom all season long.
Contains: *Black Eyed Susan, Catchfly, Coreopsis Lance Leaved, Evening Scented Primrose, Gaillardia, Gloriosa Daisy, Iceland Poppy, Perennial Lupines, Purple Coneflower, Rocky Mountain Pentstemon, Russells Lupins, Sweet William Double, and Wallflower.*
Packet $2.49 | 25 g $11.95 | 125 g $45.25
250 g $67.50 | 500 g $100 | 1 kg $170

Semi Shade • 6840
20-90 cm height
Designed for those areas that receive only 4 to 5 hours of filtered sunlight per day. An eye-pleasing blend of self-seeding annuals, biennials, and hardy perennials that produce flowers in blue, pink and yellow hues.
Contains: *Columbine McKana Giants, Bachelor Buttons, Candytuft, Catchfly, Coreopsis Dwarf Plains, Five Spot, Forget-Me-Not, Gloriosa Daisy, Ozark Sundrop, Purple Coneflower, Shirley Poppy, Sweet William Double, and Viola.*
Packet $2.49 | 25 g $11.85 | 125 g $44.65
250 g $66.55 | 500 g $98.60 | 1 kg $166.40

Native Grasses

***Sow outdoors** mid October to mid November to take advantage of natural stratification over winter. This is our recommendation for best results as it "wakes up" dormant seed, greatly improving germination.*

Big Bluestem *(Andropogon gerardii)* • 8000
1-2 m height
315 seeds per gram. A perennial, warm-season bunchgrass. Tolerates a wide range of soil conditions. Lush, blue-green stems turn reddish-brown in fall.
125 g $37.50

Blue Grama *(Bouteloua gracilis)* • 8005
20-30 cm height
1,500 seeds per gram. A fine-leaved, delicate looking, perennial bunch grass with grey-green foliage and greyish purple flags on every stem. Prefers full sun and well-drained soil. Offers very good drought and heat tolerance.
125 g $15.50

Deer Tongue *(Panicum clandestinum)* • 8015
30-90 cm height.
600 seeds per gram. Native to the eastern half of Canada. This perennial, cool-season bunchgrass provides a good food source for turkey, songbirds, and deer. A very adaptable sod-forming grass that is tolerant of poor, acidic, and infertile soils.
125 g $22.60

June Grass *(Koeleria cristata)* • 8030
60 cm height
5,000 seeds per gram. This Ontario species is regionally rare and native to Walpole Island. A nice looking, cool-season perennial bunchgrass that is very drought tolerant and one of the earliest native grasses to green up in the spring. Showy plumes of white appear in late June to July.
25 g $14.95

Little Bluestem *(Andropogon scoparius)* • 8035
60-120 cm height
450 seeds per gram. A popular native grass for ornamental purposes. This native, warm-season, clump-forming shortgrass combines very well with wildflowers. Its blue and green summer hues turn a striking red in the fall, finished with fluffy, silver-white seed heads. Seed provides food for song and game birds and small mammals. Drought tolerant.
125 g $37.50

Prairie Dropseed *(Sporobolus heterolepis)* • 8045
30-90 cm height
2,600 seeds per gram. Prairie Dropseed grows into a magnificent, fountain of emerald, green leaves that turn a golden colour through the fall and winter. This perennial, clump-forming, warm-season native grass grows in a wide range of conditions from seasonally wet to quite dry. A very distinctive border planting and an excellent plant for providing seed to ground foraging songbirds.
25 g $29.95

SEEDS PER PACKET

The approximate number of seeds per packet can vary from year to year due to natural variances in seed size between lots. This info is meant to give you a general idea of how many seeds are in each packet!

Fox Sedge *(Carex vulpinoidea)* • 8070
60 cm height
2,800 seeds per gram. The ultimate wetland sedge. In mid-summer, the brownish yellow seed heads, which resemble miniature foxtails, spray out to create a stunning effect. Very adaptable to wet soils and seasonally flooded areas. Makes a perfect companion plant for wetland wildflowers.
125 g $29.95

Side Oats Grama *(Bouteloua curtipendula)* • 8075
60-90 cm height
350 seeds per gram. One of the most attractive flower stalks of all native grasses. Bracts hang uniformly from one side of the stem and have bright purple-red anthers with white stigmas. Excellent in loamy and dry soils but not aggressive when planted with other tall grasses. Seeds provide food for numerous song and game birds.
125 g $15.50

Switchgrass *(Panicum virgatum)* • 8085
1.5 m height
550 seeds per gram. This warm-season, bunch forming grass produces attractive, conical seed heads which turn a golden brown in fall. An excellent cover and food source for birds in winter and early spring. Superb soil stabilization.
125 g $11.95

Canada Wild Rye *(Elymus canadensis)* • 8090
90 cm height
250 seeds per gram. Ontario native bunchgrass. Its quick establishment makes it an ideal nurse crop for native meadow plantings as it matures far ahead of other warm-season grasses. The readily identifiable, nodding seed heads are very attractive in mass planting or when dried and used in arrangements. Tolerates a wide range of soil conditions.
250 g $30

Virginia Wild Rye *(Elymus virginicus)* • 8095
90-120 cm height
150 seeds per gram. A cool-season bunchgrass native to the entire southern half of Canada. An excellent forage grass and suited to moist soils. Partially shade tolerant and equally at home in both woodlands and open grasslands. Its seed is enjoyed by many song and game birds, while the foliage is browsed by deer.
250 g $30

Ornamental Grasses

1,000 seeds per gram

Add beauty, movement and structure to the garden with these low-maintenance ornamental grasses!

*Visit **oscseeds.com** for growing instructions.*

Annual Mix • 7005
30-90 cm height ✂️
100 seeds per packet. This blend creates a striking visual effect making it an excellent choice for backgrounds or borders. A perfect addition to fresh or dried bouquets. Contains Bunny Tails, Violet Panic Grass, Lime Green Spray Millet, Italian Millet, Greater Quaking Grass and Black Millet.
Packet $2.99 | 5 g $9.30

Angel Hair *(Stipa tenuissima)* • 7010
45 cm height 🪴
150 seeds per packet. A semi-hardy, perennial grass with glistening bristles of lightly coloured ponytails that billow and dance in even the slightest breeze. Excellent for mass plantings or containers. Sow 5-6 seeds per clump, spacing 30 cm apart.
Packet $2.99

Blue Fescue *(Festuca glauca)* • 7015
25 cm height
100 seeds per packet. Dense, mounded clumps of blue-grey leaves that are rather stiff and needle-like, yet very attractive. Lends a nice cooling effect to the garden. This is one of the best ornamental grasses anywhere! Very drought tolerant once established. Perennial, reliably hardy to Zone 4.
Packet $3.99 | 5 g $9.10

Bunny Tails *(Lagurus ovatus)* • 7025
25 cm height ✂️
150 seeds per packet. This hardy annual grass grows well in any soil. Soft, woolly seed heads look great in mixed bouquets – and you guessed it, they resemble bunny tails!
Packet $2.99 | 5 g $8

Pink Feather Pampas Plume *(Cortaderia selloana)* • 7045
2-3 m height ⭐
100 seeds per packet. An eye-catching ornamental grass with graceful, feathery pink plumes that rise above the foliage in late summer. In Zone 5 and colder, plants should be grown in containers and overwintered indoors. Germination is slow, and plants require patience, typically taking 3–4 years to reach their impressive, mature size.
Packet $3.99 | 5 g $9.10

White Feather Pampas Plume *(Cortaderia selloana)* • 7040
2-3 m height ⭐
100 seeds per packet. Mature plants are absolutely stunning, producing large, silky white plumes in late summer that create a striking garden display. This tender perennial is reliably hardy in Zone 6b and warmer. In Zone 5 and colder, plants should be potted and overwintered indoors for survival. Seeds are slow to germinate, and plants typically require 3–4 years to reach their full height.
Packet $2.99 | 5 g $9.10

2027 Garden Trend

The Maximalist Cut Flower Garden

Maximalism is making its mark on gardening,
celebrating abundant flowers, bold colour combinations,
varied textures, and a little bit of beautiful chaos.
Think overflowing flower beds, armfuls of homegrown bouquets,
and blooms from spring through fall!

Creating your own cut flower garden is easier than you might think.
Mix favourites like cosmos, with cheerful zinnias,
delicate sweet peas, and airy fillers such as baby's breath.
Plant in generous groupings and sow successive batches
of quick-growing annuals for a steady supply of fresh flowers.

The best part? Regular harvesting encourages many cut flowers
to produce more blooms. So embrace the abundance,
and bring the beauty of your garden indoors.
When it comes to maximalist gardening, more flowers,
more colour, and more joy is always a good thing!

Can't decide which varieties to start with?
Check out our Easy to Grow Cut Flower Collection on page **54**

✂️ **Cutting** 🪴 **Container** (Great for pots) ⭐ **Premium Variety**

Trees

Sow outdoors late fall, 6 mm deep.

***Cold stratification** is required for 3-4 months. To start indoors, mix seed with moistened, sterile, peat-based growing medium, wrap in a ventilated bag and place in the refrigerator for 12-20 weeks. Plant seed in spring in a sheltered spot.*

***Pro Tip:** Sowing outdoors in fall allows the seed to naturally stratify over winter, "waking up" dormant seed, greatly improving germination. Direct sowing outdoors is our recommended method to ensure success!*

Balsam Fir *(Abies balsamea)* • 6750
15-20 m height
50 seeds per packet. 132 seeds per gram. Balsam fir is a graceful evergreen with a classic pyramidal shape, soft dark green needles, and a rich, fragrant aroma. Native to Canada and the northeastern United States, it is prized as a Christmas tree and for its attractive appearance in landscapes.
Packet $2.99 | 5 g $8 | 25 g $35

Colorado Blue Spruce *(Picea pungens glauca)* • 6755
15-20 m height
30 seeds per packet. 175 seeds per gram. This tree is often used in the live, potted Christmas tree trade. This evergreen is one of the most popular ornamental trees for the home landscape. Colorado Blue Spruce typically does best in full sun with a moist, fertile soil.
Packet $2.99 | 5 g $24 | 25 g $105

Douglas Fir *(Pseudotsuga menziesii)* • 6760
15-30 m height
20 seeds per packet. 85 seeds per gram. Native to the coastal forests of British Columbia. In old growth forests it can grow to incredible heights. These wonderful trees provide shelter and food for a wide range of small mammals and birds. Douglas Fir's fast growth makes it a popular choice for use in naturalization and reclamation projects.
Packet $2.99 | 5 g $16 | 25 g $70

Flowering Dogwood *(Cornus florida)* • 6765
3-10 m height
10 seeds per packet. 5 seeds per gram. An outstanding specimen in the landscape. In the wild, it is found in slightly acidic, moist but well-drained soil in sheltered forested sites. In the spring, it is easily recognized by the appearance of four large, flower-like, snow-white bracts (which are actually modified leaves rather than flower petals). Native to southern Ontario and listed as an endangered species in the wild.
Packet $2.99 | 5 g $8 | 25 g $35

Red Maple *(Acer rubrum)* • 6770
15-20 m height
15 seeds per packet. 70 seeds per gram. Red Maple is native to the eastern half of North America. It makes a beautiful shade tree all season long with vivid flowers in spring, solid green leaves through the summer and brilliant crimson foliage in the fall.
Packet $2.99 | 5 g $10 | 25 g $43.75

Sugar Maple *(Acer saccharum)* • 6775
15-25 m height
15 seeds per packet. 8-10 seeds per gram. Canada's maple syrup tree! Sugar Maples are native to the eastern half of North America and are a sturdy, stately tree. They provide luscious shade in the summer and beautiful yellow, red and orange leaves in fall. Grows best in deep, well-drained, loam-dominated soil.
Packet $2.99 | 5 g $8 | 25 g $35

White Birch *(Betula papyrifera)* • 6780
12-20 m height
50 seeds per packet. 1,000 seeds per gram. White Birch is a native tree of Canada, ranging from the Atlantic to Pacific and north to the Arctic. White Birch makes an excellent lawn highlight and landscape contrast specimen.
Packet $2.99 | 5 g $16 | 25 g $70

White Pine *(Pinus strobus)* • 6785
20-35 m height
30 seeds per packet. 55 seeds per gram. A beautiful-looking, quick-growing evergreen with long, soft needles. Grows best in a sandy loam soil, however it tolerates a wide range of soil types and moisture conditions (but not saturated soil). Many mammals and birds use this tree for food and shelter.
Packet $2.99 | 5 g $20 | 25 g $87.50

White Spruce *(Picea glauca)* • 6790
15-20 m height
50 seeds per packet. 280 seeds per gram. A native tree of Canada, growing in a wide range of conditions and soil types. Thrives from Southern Ontario all the way to the tree line in the Arctic. White spruce is quite popular for windbreaks and for use in the Christmas tree trade.
Packet $2.99 | 5 g $20 | 25 g $87.50

Seed Starting Supplies

Seed Starting Kit • 337
Everything you need to get growing! Contains: heating mat, planting tray, humidity dome, planting cells, seed starting mix, and growing instructions with helpful tips.
$49.99

New to gardening? Our Seed Starting Kit will set you up for success!

ProMix Stim-Roots Stimulator • 395
Dip the lower end of cuttings for a successful start. Analysis: 0.1% IBA rooting powder.
50 ml bottle $7.99

Pump Sprayer/Mister • 275
Fully adjustable from a jet stream to a fine spray. 1 L capacity.
$8.49

Seedling Heat Mat • 480
Give your seedlings a head start! Place the mat under (not in) your seed starting tray and watch your seedlings sprout to life! UL approved, 17 Watt, 120 Volt, 60 Hz AC. Fits into a 1020 seed starting tray.
$35.99

Growing Media

Miracle-Gro Seed Starting Mix • 545
Enriched with Miracle-Gro Plant Food and formulated for fast root development.
8.8 L $8.99

ProMix Organic Seed Starting Mix • 546
This peat-based formula gets professional results every time! MYCO-Active Technology helps promote stronger roots and healthier plants with greater resistance to transplant shock.
9 L $9.49 | 17.6 L $12.49

ProMix Organic Vegetable and Herb Mix • 547
OMRI-Listed and ready-to-use, this peat-based mix is perfect for all your vegetable, fruit, and herb garden needs, whether in-ground or in containers.
9 L $8.99

ProMix Premium Potting Mix • 498
This high-performance peat-based growing medium is designed for a wide variety of plants in both indoor and outdoor containers. Engineered to improve soil nutrition and optimize growing conditions.
9 L $7.99

Broadcasters and Seeders

Earthway Shaker/Feeder • 679
Ultra convenient handheld spreader with adjustable dial for easy spreading of fertilizer, grass seed, ice-melting salt and more.
$27.99

Over the Shoulder Broadcast Spreader • 647
Perfect for wet or hilly terrain. 9 kg nylon bag hopper is equipped with a zippered top for easy filling and closing.
$84.99

Whirl Hand-Powered Spreader • 678
Use year-round for lawn seed, fertilizer, or ice-melting products.
$28.99

Earthway Precision Garden Seeder • 640
Opens soil, spaces seed, plants, covers, and packs soil, all in one operation. Seed plates included: corn, beans, peas, radish, carrots, and beets
$199.99

Six Optional Seed Plates • 645
Contains: light carrot, broccoli, cucumber, popcorn, lima bean, and blank (customizable)
6 plates $45.99

Individual Seed Plates • 646
Options: sweet corn, radish, carrots, beans, jumbo peas, or beets
1 plate $10.99

Optional Fertilizer Attachment • 650
$98.99

Miracle-Gro Fertilizers

All Purpose Water Soluble • 568
(24-8-17). Beautiful plants with quick results. Guaranteed not to burn when used as directed. Use on all flowers, vegetables, houseplants, roses, trees, and shrubs. 500 g container covers 41 m².
$11.49

Bloom Booster Water Soluble • 566
(15-30-15). Promotes bigger blooms and more of them! Great for use on all types of annual and perennial flowers. 500 g container covers 41 m².
$11.49

All Purpose Shake 'n Feed • 562
(12-4-8). This easy-to-use, slow-release fertilizer nourishes your plants above and below the soil, promoting strong roots and vibrant growth for up to 3 months. 453 g container covers 2.8 m².
$10.49

Tomato, Fruit & Vegetable Shake 'n Feed • 564
(10-5-15) Specially formulated with calcium for better quality fruits and vegetables, this slow-release fertilizer feeds up to 3 months. 453 g container covers 2.8 m².
$10.49
